THIS CATALOG BECOMES EFFECTIVE ON JUNE 1, 2011
CONTRACT

A candidate may obtain a degree according to the requirements of the catalog under which he/she enters the university or under the catalog for any subsequent year in which he/she is registered, provided all requirements are completed within six years from the beginning date of the catalog chosen. Degree requirements must be completed under one catalog in effect during the student's enrollment at Howard Payne University.

Howard Payne University reserves the right to change degree requirements for all students if it is needed to improve the degree programs and/or to make a curriculum program consistent for all students. Changes in the academic program may be necessary to improve the effectiveness of the educational program. All such changes are effective at such times as the proper authorities determine and may apply not only to prospective students but to those who already are enrolled in the university. All policies concerning noncurriculum requirements are effective for all students as of June 1, 2011. This version of the catalog will govern the 2011-2012 academic year from June 1, 2011 through May 31, 2012.

While every effort has been made to make this publication as complete and accurate as possible, changes and typographical errors may occur which might require correction.

Family Education Rights and Privacy Act of 1974

Howard Payne University complies with the Family Education Rights and Privacy Act of 1974. University policy explains in detail the procedures to be used by the institution for compliance with the provisions of the act. Additional information regarding FERPA is available in the Appendix of this catalog and copies of the policy can be found in the Office of the Registrar.

The release of information to the public without the written consent of the student will be limited to categories of information designed as directory information. The student may request that any of this information be withheld from the public by making written request to the Office of the Registrar prior to the 8th class day of a fall or spring semester, or the 4th class day of a summer term. Directory information includes name, address (local and home), telephone number, parent's or guardian's name, spouse's name, marital status, dates of attendance, classification, previous institution(s) attended, degrees conferred (including dates), past and present participation in officially recognized sports and activities, physical factors (height, weight for athletics), date and place of birth.

Organization and Support

History of the University

Howard Payne College was founded by the Pecan Valley Baptist Association at Indian Creek, Texas, on June 20, 1889. J. D. Robnett, pastor of the First Baptist Church in Brownwood, a leader in the movement, became president of the first Board of Trustees. Robnett busied himself in raising funds for the school during the summer of 1889. Visiting Missouri in August, he was successful in securing a sizable gift from his brother-in-law, Edward Howard Payne, and before November 1, 1889, the Board of Trustees resolved to name the school Howard Payne College.

The first session opened on September 16, 1890, with A. J. Emerson as president and a faculty of twelve. A separate preparatory department furnished instruction below the freshman level.

The school granted its first academic degree in 1895 and continued as a degree-conferring institution until 1900. It operated as a member of the Baptist correlated system of schools with junior college status from 1900 to 1914, when it again became a senior college.

The school was built on seven acres of land near the business district of Brownwood. Endowment funds before 1934 amounted to less than \$100,000. In 1934 John G. Hardin included the college in a bequest of \$305,000 which became available upon Hardin's death in 1939. The endowment was increased by an added one million dollars upon the death of J. A. Walker in 1942.

In 1953, Daniel Baker College, which originally had been a Presbyterian college and in 1950 had become the Episcopal College of the Southwest, was consolidated with Howard Payne. The Douglas MacArthur Academy of Freedom, Guy D. Newman Hall, and the Bettie and Robert Girling Center for Social Justice stand on the original campus of Daniel Baker.

In 1974, Howard Payne College became Howard Payne University upon approval of the Baptist General Convention of Texas.

As of May 31, 2010 the university had a market value endowment of \$38,389,096.

Location

Howard Payne University is located in Brownwood, Texas, about 120 miles southwest of Fort Worth and about eighty miles southeast of Abilene. Brownwood is almost exactly in the geographical center of the State of Texas and is in the edge of the hill country found in west central Texas.

Brownwood has a population of 20,000 including the student body of Howard Payne University.

MISSION STATEMENT

Howard Payne University is a Christ-centered academic community dedicated to excellence by developing and equipping the whole person for intellectual inquiry, personal and professional integrity, and service to God and humanity. *Approved by the Howard Payne University Board of Trustees, July 27, 2010.*

University Heritage

Founded in 1889 for the purpose of preparing students for Christian ministry, Howard Payne University remains dedicated to honoring Christ and serving His Church by providing an educational experience that integrates faith, learning, and living. The university has expanded its original scope to include a full array of undergraduate programs, and a limited number of graduate programs, offered in a traditional residential academic community, where relationships are nurtured and individuals matter. Students, faculty, staff, and administration work together under the shared values of academic excellence, service to others, and Christian integrity. The university also offers selected graduate and undergraduate course work by electronic means and at extended learning centers responsive to the academic needs of the communities served. Howard Payne University maintains a low student-teacher ratio, which contributes to the university's reputation of being "a place where everybody is somebody."

Student Body

Howard Payne University strives to have a diverse student body. While the university recruits primarily in Texas and the Southwest, the student body is comprised of men and women from many states and from other countries. Seeking to be an advocate of human equality, the university welcomes students from a wide range of socioeconomic, cultural, and ethnic backgrounds, including both traditional and nontraditional students with varying academic interests and abilities.

Faculty

In its pursuit of excellence in academic endeavors, Howard Payne University employs as its faculty individuals who exemplify a commitment to Christian ideals and who are dedicated to the search for and dissemination of truth. Howard Payne University seeks gifted teachers from throughout the United States and the world who are dedicated to teaching, advising students in a professional context, serving the communities of the university and its locale, and continuing to grow in their profession as scholars and teachers.

Curriculum

Howard Payne University offers the undergraduate a liberal arts and sciences core of academic foundations, along with specializations in a number of professional and pre-professional areas. In order to serve students having a wide range of academic abilities, the curriculum includes honors courses for the academically talented, special courses for provisional students, and entry-level ministerial preparation.

Recognizing its responsibility to the larger community, Howard Payne University endeavors to provide a variety of programs of cultural enrichment and entertainment. Because many adults who would benefit from further education are unable to leave their communities to attend classes on campus, Howard Payne University seeks to meet their needs by scheduling limited academic work off campus.

Organization and Support

In summary, the mission of Howard Payne University is to provide quality academic preparation within a Christian context for a diverse student body that is preparing for careers of leadership and service throughout the world through a dedicated faculty, staff, and administration.

Nondiscrimination Statement

The university complies with all applicable federal and state nondiscrimination statutes and does not engage in prohibited discrimination on basis of race, creed, color, national or ethnic origin, sex, religion or handicap.

Government, Programs, and Support

The University. The university is governed by a Board of Trustees elected by the Baptist General Convention of Texas. The general program is administered by the president of the university.

Instructional program. The instructional program of the university is administered by the provost with faculty members who are well educated in their teaching fields. More than four hundred courses, organized into six different schools, are currently offered by the university.

Student Life and Activities. Student life and activities services are administered by the Dean of Students, using the services of faculty and resident counselors. The program involves housing, board, student government, clubs and organizations, student publications, health service, guidance and counseling, athletics and student social life.

The Regular Session. The regular session is administered by the officers of the university and consists of two semesters of sixteen weeks each. Work in twenty-nine departments leads to the five degrees offered by the university. Each regular session concludes with commencement.

Summer Sessions. Summer sessions are administered by the officers of the university and consist of a three-week term in May and two four-week terms in June and July. A student may earn up to seven hours each term. Regular faculty members teach in the summer session, and regular college courses are offered.

Financial Support. The expenses of the university are met only in part by student fees. The balance is derived by income from the endowment fund, an annual grant from the Baptist General Convention of Texas and current gifts. Howard Payne University does not accept funds from state or federal agencies. Friends desiring to make donations, conveyances or bequests to the university are advised that the legal name is Howard Payne University, and the institution is chartered under the laws of the State of Texas.

Off-campus Center. Howard Payne University provides coursework at El Paso. The primary purpose of the center is to offer work in Christian studies, or limited other programs, to those students who are unable to attend classes on campus.

Endowed Chairs
The Othal Brand Chair of
Free Enterprise and Public Policy

In keeping with the role of Howard Payne University as a church-related institution of higher education, it is the intent of this endowed chair to integrate, in a meaningful way, faith and learning. Within this purpose, critical issues which affect the political and economic structures and processes of life will be addressed through academic courses, lectureships, seminars, workshops and publications.

The Othal Brand Chair of Free Enterprise and Public Policy supports the basic value of self-determination as well as the specific tenets which contribute to this value. These tenets include:

1. The dignity and worth of man as the creation of God and the bearer of His image.
2. The importance of ordered freedom within the context of revelation and reason.
3. The rights to hold and use private property and the obligations of those rights.
4. The freedom of enterprise and choice.
5. The importance of a free economy as an allocating instrument in a democratic society.
6. The belief that a properly constituted government is limited in scope and purpose.

The Othal Brand Chair of Free Enterprise and Public Policy operates within the structure of the Douglas MacArthur Academy of Freedom of Howard Payne University, under the general direction of the president of the university; the Dean of the School of Humanities; and the director of the Academy of Freedom.

Operations:

1. *Lectureships* — An annual fall lectureship is held. The purpose of these lectureships is to provide a clearer understanding of the market economy and free enterprise.
2. *Seminars* — An annual spring seminar is held. The purpose of these seminars is to address certain critical issues which affect our political and economic structures and processes.
3. *Courses* — Formal study through academic courses in the Academy of Freedom honors program forms the foundation of the program. Courses in economics, history, ethics, and political science incorporate the concepts and objectives of the chair.

Publications:

An annual journal is published. It will include papers presented at the lectureships and seminars and articles dealing with free enterprise and public policy. It will be sent to business and industrial leaders, educators, clergymen, doctors, lawyers, public officials, media personnel and others who influence thinking and public policy.

Should a series of lectureships prove worthy of publication, the Academy of Freedom, using resources of this endowed chair, may publish the series as a separate publication.

Organization and Support

The Othal Brand Chair of Free Enterprise and Public Policy is funded from the proceeds of an endowment that was given to the university by:

Othal E. Brand
J. R. Beadel

Fred L. Flynn
Hillcrest Foundation, in memory of
Mr. W. W. Caruth, Sr.

The Walter M. and Evalynn Burress Chair of Genealogy and American History. This endowed chair was established in the Douglas MacArthur Academy of Freedom through the estate of Mrs. Walter M. Burress for the purpose of concentrating study in genealogy and American history. In pursuit of this objective, the Burress Chair will organize seminars on American history and workshops on genealogy.

The Coley Chair of History. A trust fund has been established in honor of R. D. and Irene Coley. Part of the earnings from the trust goes to support academic scholarships, and part of the earnings is dedicated to support the Coley Chair of History at Howard Payne University.

The Groner Pitts Chair of Business. Friends of Groner Pitts, a member of the Douglas MacArthur Academy of Freedom Board of Directors, a former member of the Howard Payne Board of Trustees and a public-spirited member of the Brownwood community, have established a trust fund in his honor. The earnings from the trust are to be used to fund the Groner Pitts Chair of Business at Howard Payne University.

The J. D. Sandefer Chair of Political Science. A gift was made to Howard Payne University by J. D. Sandefer, III, a resident of Houston and a member of the Douglas MacArthur Academy of Freedom Board of Directors, to memorialize his parents, Mr. & Mrs. J. D. Sandefer, Jr., who lived in Abilene, Texas. The interest from the gift was used to establish and support the J. D. Sandefer Chair of Political Science in the Academy of Freedom.

The Annie Shelton Chair of History. A trust has been established in the name of Annie Shelton, and the net income from the trust is used for continuing and maintaining the Annie Shelton Chair of History at Howard Payne University.

Program Endowments

Currie-Strickland Distinguished Lecture Endowment Fund. This endowment was established in 2007 by Dr. Gary '75 and Mrs. Molli Elliston for an annual distinguished lecture program examining the importance of Christian ethics in daily life.

The Gary D. Elliston Moot Court Program. This endowment was established in 2006 by Dr. Gary D. Elliston '75 to provide support to HPU's distinguished moot court program.

Howard Payne University Athletic Program Endowment. This endowment was established in 2010 by the Howard Payne University Alumni Association Athletic Chapter in honor and memory of all former Yellow Jacket athletes to help the athletic programs of HPU.

The Light the Way Endowment. This endowment was established in 2004 to support a wide variety of lecture series and symposia for HPU students.

Organization and Support

The Charles M. and Dorothy "Dete" L. Maddin Endowment for Chemistry. This endowment was established in 2007 by Dr. Charles M. '49 and Mrs. Dorothy L. '49 Maddin to provide support to the university's chemistry program.

The Leonard Underwood Quality Enhancement Program of the Douglas MacArthur Academy of Freedom. This endowment was established in 2007 by Dr. Leonard Underwood to provide support to various Academy initiatives.

Faculty Fellowships

James A. "Buddy" Davidson Endowed Faculty Fellowship. This endowment was established in 2009 by the James A. "Buddy" Davidson Foundation to support excellent teaching faculty in the School of Christian Studies.

Admission

Howard Payne University welcomes applications from prospective students. The Application for Admission is found online at www.hputx.edu/apply or students may contact the Office of Admission by phone at 325-649-8020 or online at enroll@hputx.edu.

Unconditional Admission for Beginning, First-Year Students

Unconditional admission is offered to students who have maintained a "B" (80 and above) average or better throughout high school, whose ACT composite score is 19 or above or whose SAT I score (Critical Reading plus Math) is 910 or above, and who meet all other admission requirements.

If an individual ACT subject score falls below 19, or if the SAT I Critical Reading score falls below 420 or the SAT I Math score falls below 430, the student may be required to take a computerized skills assessment to determine appropriate college-course levels to help support academic success.

In addition to submitting an application for admission and official standardized test scores, an official transcript from an accredited high school must be provided. These transcripts become the property of the university once they are received and cannot be released to the student.

Preferred academic preparation for all beginning, first-year students follows the Recommended High School Program defined by the Texas State Graduation Requirements. Within a minimum, 18 academic units, it is recommended that four credits be taken in English; four credits in mathematics, to include Algebra I, Algebra II and Geometry; four credits in science (students are encouraged to take Biology, Chemistry and Physics); four credits in social science and/or history, to include one-half credit in Economics and one-half credit in U.S. Government; and two credits in a language other than English (must consist of Level I and Level II in the same language).

Graduates of high schools or home school programs that are not accredited by a regional or state accrediting agency will have their work reviewed by the Admission Committee on an individual basis in accordance with the university's current admission requirements. High

school transcripts as provided and signed by parents of homeschooled students may be accepted.

Supporting materials required to complete an application for admission:

- Official results of the ACT or SAT I test scores (non-traditional students may be required to take a computerized skills assessment in place of the ACT or SAT I).
- Official copy of the high school transcript

In order to ensure timely processing of application materials, students are encouraged to apply by the **Priority Application Date** of March 15 for the fall and December 15 for the spring semester.

Provisional Admission for Beginning, First-Year Students

The provisional program is a specialized, one-semester program designed to accommodate the student who requires additional assistance. Enrollment in this program is limited. The provisional program provides group tutoring, as well as lab and study sessions to reinforce a specially-designed program of classroom instruction. (This program addresses the general needs of the student.)

Provisional admission may be offered to students with a high school average of "B" (80) or below and/or who have an ACT composite score of 18 or below or an SAT I (Critical Reading plus Math) score of 900 or below. Students with these credentials may be required to interview with an admission counselor. Additional requirements may include submitting a written essay and letters of recommendation from academic instructors, as well as taking a computerized skills assessment for enrollment determination by the Admission Committee.

Provisional students may be admitted upon the completion of a contract which stipulates, but is not limited to, the following conditions:

- Complete computerized skills assessment in English, math, and reading prior to academic advisement.
- Enroll in a minimum of 12, but no more than 15, semester hours in the first semester at HPU, including any developmental studies classes determined necessary by skills assessment. While only six (6) semester hours of the developmental studies classes may be applied to a degree as elective credit, all work becomes part of the academic record.
- Enroll in Foundations of University Life (FUL 1301) as a part of the 12-15 semester hour load.
- Agree to see academic advisor at least once per month to evaluate progress.
- Students must achieve a minimum semester grade point average of 1.75 to be eligible to continue at HPU the following semester.

Admission

Transfer Admission

Unconditional admission may be granted to transfer students from colleges and universities accredited by a regional accrediting agency, who meet HPU's general admission requirements, and who are eligible to return to their last college or university attended. The enrollment status of students currently on academic suspension from another college or university will be determined by the Howard Payne University Admission Committee. Students from accredited junior or senior colleges and universities will receive full credit for work done in such institutions, but are subject to certain limitations herein stipulated.

Official transcripts must be submitted to the Office of Admission from all colleges or universities previously attended. These transcripts become the property of the university once they are received and cannot be released to the student.

An official high school transcript showing date of graduation must be submitted by applicants transferring less than 12 semester hours of college work. If the applicant is not a high school graduate, please submit official GED scores.

Transfer students must submit official academic records of all work from every college attended before being advised and before an application file is considered complete. A transfer student's cumulative grade point average and transferred work must meet the following conditions:

- Grade point average of 1.60 or above, exclusive of activity classes, when a student has attempted thirty (30) or less semester hours and completed a minimum of twelve (12) semester hours of non-activity classes.
- Grade point average of 1.80 or above, exclusive of activity classes, when a student has attempted thirty-one (31) to sixty (60) semester hours and completed a minimum of twelve (12) semester hours of non-activity classes.
- Grade point average of 2.00 or above, exclusive of activity classes, when a student has attempted over sixty (60) semester hours and completed a minimum of twelve (12) semester hours of nonactivity classes.

Conditional Transfer Admission

If the cumulative transfer grade point average and work do not meet the previously stated conditions, the transfer application and transfer work may be reviewed by the Admission Committee for enrollment determination. An interview with an admission counselor and skills assessment may be required.

Students admitted in this manner will be required to complete a contract that includes stipulations for continued enrollment at Howard Payne University.

Special Admission Programs

Students also may apply through one of the special admission programs listed below:

DUAL ENROLLMENT

For students with outstanding high school academic records, and who demonstrate maturity and a willingness to perform work at the university level, Howard Payne University offers a Dual Enrollment Program. This program allows qualifying students to take college-level classes before high school graduation.

The Texas Education Agency has authorized a procedure by which students may earn dual credit for high school and possibly college work. Interested students must obtain permission from their high school principal or counselor to enroll in this program and should contact the HPU Office of Admission for specific information.

Students may be accepted to the Dual Enrollment program following their sophomore year in high school if the following conditions are met:

- Complete an application for early admission (form available in the Office of Admission, including principal or counselor recommendations section and certification)
- Provide an official high school transcript.
- Must have verification that the student successfully completed the sophomore year of high school and is classified as a junior when the college-course term begins.
- High school seniors taking Dual Enrollment courses must provide official ACT or SAT I score results.
- Complete a computerized skills assessment in English, math, and reading and score into college level courses.
- Students wishing to receive credit under the Dual Enrollment program must, in addition to the above, also obtain a letter from their respective high schools verifying acceptance of coursework taken at Howard Payne University toward high school graduation requirements. The level of prior preparation in high school and high school counselor recommendation, along with skills assessment scores, will determine eligibility for enrollment in certain coursework at Howard Payne University.

A transcript of college work will not be established until all admission requirements have been met. Transfer of credit for this work will not be granted unless all Howard Payne admission requirements have been met. If a student chooses to enroll full-time at Howard Payne University following graduation from high school, a new application for admission must be completed. A student must be approved through the normal application process for beginning, first-year students.

Students entering the college under the above program must abide by all rules and regulations of the college as published in the catalog and the student handbook. Failure to do so will result in the immediate suspension from Howard Payne University. An agreement stipulating

Admission

all of the above conditions must be signed by the student, the parents, and the student's high school principal.

No advanced-standing tests, such as CLEP, will be allowed under this program.

HIGH SCHOOL EQUIVALENCY

Students who have successfully completed the General Educational Development (GED) testing program and have submitted acceptable scores on the ACT or SAT I may be admitted to Howard Payne University. The student must submit official GED test scores with an application for admission. Students submitting GED scores may be considered on a provisional admission basis.

TRANSIENT ADMISSION

A transient student is a degree-seeking student at another college or university who desires to take courses at Howard Payne University for a summer or for one semester only. Admission may be gained by furnishing the Admission Office with an official transcript or statement of good standing from the parent school from which the degree will be granted. Students seeking transient admission must be eligible to re-enter the institution previously attended. A transient student admitted may be allowed to enroll in up to six semester hours in any enrollment period for credit. Should a student desire to change from transient to a regular, degree-seeking status, the application procedures for transfer students must be completed. Transient students are not eligible for financial aid.

NON-DEGREE ADMISSION

Non-degree admission is designed for individuals who do not intend to complete a degree program but wish to take courses for credit. A student admitted in this manner may be allowed to enroll for credit one semester only without submitting academic documentation. Students who wish to continue enrollment beyond the first semester, must reinitiate application procedures, submit all requested academic documentation, and be approved through the normal patterns for admission. Non-degree students who wish to attain degree-seeking status must complete all requirements for degree seeking admission. Non-degree students are not eligible for financial aid.

CERTIFICATE IN MINISTRY TRAINING

Students who have not graduated from high school or achieved a high school equivalency may be admitted to study in the Certificate in Ministry Training program. Such students will be required through testing to demonstrate language proficiency in reading and writing to ensure successful study in the program. Students desiring to continue study in other programs in the university must meet all regular admission requirements prior to enrollment in other programs.

READMISSION

Students who discontinue coursework at Howard Payne University, for one or more long semesters, must reapply and be readmitted in order to re-enroll. The readmission process involves input from the following offices: Office of Admission, Office of Student

Life, Office of Financial Aid, the Business Office and the Registrar's Office. A student must be cleared and approved for readmission by each of these offices before admission is granted. To begin the process of readmission, contact the Office of Admission.

How to Apply for Admission

Admission to Howard Payne University is by application. Students may apply on-line at www.hputx.edu/apply or, application forms are available from the Office of Admission. Applications should be filled out completely and sent either electronically or mailed to the Office of Admission.

Formal approval of the application for admission is the prerogative of the university administration acting through the Office of Admission. Notification of admission comes only from the Office of Admission. Applications for financial aid will not be processed and financial awards will not be made by the Office of Financial Aid until the student has been accepted for admission. In the event a student is denied admission to the university, the student has the right to appeal that decision. See "Appeals Process" (page 120) in the 2011-2012 Catalog.

International Student Admission

International students, except those who are permanent U.S. residents or who have immigrant status, will be sent a university prospectus and advised to submit the following before any consideration will be given:

- An official application
- Application fee of \$50, non-refundable
- Official TOEFL (Test of English as a Foreign Language) minimum examination score of 550 (paper test) or 213 (computer test) or 79-80 (internet-based test). ACT or SAT I scores also may be required.
- Official transcripts from all schools attended
- Official international transcripts evaluated (course-by-course) by one of the following service providers:

- Room deposit, for residence hall students, of \$100.
- Current health forms including certification of current immunizations and inoculations. (The university reserves the right to require of students from certain geographical areas, when warranted, additional medical tests or inoculations to be administered by a U.S. physician.)
- Proof of an insurance policy for hospital or medical expenses.
- **A current, notarized bank statement from parent or sponsor verifying available funds to cover the cost of one year of study and personal expenses at Howard Payne University.**

Admission to Howard Payne University constitutes academic admission only and does not qualify a student for admission into any particular school or program. Howard Payne University is authorized under Federal law to enroll non-immigrant students.

Financial Information

The Howard Payne University Board of Trustees, establishing policies for the financial management of the university, strives to keep student tuition, fees and charges for services as affordable as possible.

The university's Controller has been charged with the responsibility of applying and enforcing all regulations which have to do with the collection of student accounts due the university. The university reserves the right to revise charges, as needed, for the effective operation of the university and the general welfare of students.

Block Tuition Rate

Beginning with Fall, 2009 the Block Tuition Rate **is no longer guaranteed**, unless The Guaranteed Tuition Payment Option is selected. The Guaranteed Tuition Payment Option is subject to change each subsequent Fall semester, at the discretion of the Howard Payne University Board of Trustees.

Students who began classes in the Fall, 2004 through the Fall of 2008, and who are currently on The Guaranteed Tuition Payment Option, are grandfathered in at the rate each one is currently charged as long as the requirements set forth below are met.

The Guaranteed Tuition Payment Option

Under The Guaranteed Block Tuition Rate, a student's guaranteed tuition payment option will not increase as long as the student continues to meet the following **eligibility** criteria:

1. The student continues to be enrolled as a full-time student for consecutive fall and spring semesters, and
2. The student continues to make satisfactory progress toward his/her degree, and
3. The student's account must be paid according to the Payment of Accounts section of this catalog, and

Financial Information

4. The student must remain in good standing with the university in all other matters.

Students who fail to meet the criteria above will have their tuition for the next academic year default to the block tuition rate in place at that time. **It is critical** for students to complete and submit all financial aid applications early. This will help ensure the student's account is credited with all financial aid for which the student is eligible, before the payment deadline date. Late filing and processing of financial aid applications will not allow a student to maintain the tuition guarantee.

Part-time students are not eligible for The Guaranteed Tuition Payment Option and are charged on a per-credit-hour basis as listed in the following section.

An overload tuition rate will be charged for students who take more than 18 hours.

Current Block Tuition Rates are as follows:

Fall 2011 (12-18 hours)\$10,200 per semester
Fall 2011 (19 plus hrs)\$680/per hour plus \$10,200

Guaranteed Tuition Payment Option - Application required by July 31, 2011:

Tuition (Guaranteed Option) — Block Rate 12-18 hours\$11,350 per semester
Tuition (Guaranteed Option) — Overload undergraduate - 19 plus hrs\$680/per hour plus \$11,350

Current guaranteed block tuition rates are as follows:

For eligible students who began Fall 2008 (12-18 hours)\$8,175 per semester
For eligible students who began Fall 2008 (19 plus hrs)\$625/per hour plus \$8,175
For eligible students who began Fall 2007 (12-18 hours)\$7,500 per semester
For eligible students who began Fall 2007 (19 plus hrs)\$625/per hour plus \$7,500
For eligible students who began Fall 2006\$6,720 per semester
For eligible students who began Fall 2005\$6,000 per semester
For eligible students who began Fall 2004\$5,500 per semester

Other housing options for juniors and seniors:

The university offers apartment-style housing options for juniors and seniors on a limited basis. The purchase of a meal plan is optional for residents of apartments and duplexes. Water and internet connection is provided free-of-charge. Newbury Place Apartments include private washers and dryers at no additional charge. Residents are responsible for their own electricity service.

Rates listed are per person, per regular semester.

Newbury Place apartment (electricity not provided)\$1,650
Center Avenue duplexes (electricity not provided)\$1,325

May and Summer Housing Rates

Newbury Place May term rate (plus electricity below)\$165

Newbury Place Summer rate per session (plus electricity below)\$250
Electricity for 1-2 occupants (per occupant)\$110
Electricity for 3-4 occupants (per occupant)\$77

The student assumes responsibility to arrange and pay for electricity services directly with a local electricity provider, and to initiate a disconnection of service with the provider when vacating their apartment unit. Failure to do so may result in an interruption of service or additional charges to the student by the provider. Names of local electricity providers may be obtained from the Student Life Office.

Meal Plans Rates

Students living in the residence halls must purchase one of the following three weekly meal plans. Meals are served all-you-can-eat style. Amounts shown below are per semester and include sales tax.

- #1 Unlimited meals per week:
 includes \$100 in Jacket Bucks/\$125 in Stinger Bucks\$1,846.18
- #2 15 meals per week, includes \$150 in Jacket Bucks/\$125 in Stinger Bucks ..\$1,781.23
- #3 12 meals per week, includes \$200 in Jacket Bucks/\$125 in Stinger Bucks .. \$1,710.86

Jacket Bucks may be used to purchase additional meals in the dining hall or food and beverages in Fambrough's, a sports restaurant located upstairs in the Mabee University Center.

Stinger Bucks may be used to purchase additional meals in the dining hall, food and beverages in Fambrough's, or meals at approved off-campus vendors. Additional Stinger Bucks may be purchased at the HPU Cashier's office in the Packer Building or at stingerbucks.com at any time and added to a meal plan. A minimum of \$50 must be purchased.

Students living in university apartments, duplexes or off campus are not required to, but may, purchase any meal plan, including the following reduced plans. Amounts are per semester and include applicable sales tax. They may also purchase only stinger bucks, in the manner addressed in the previous paragraph.

- #4 5 meals per week plan, includes \$250 in Stinger Bucks\$942.80
- #5 55 meals per semester plan, includes \$150 in Stinger Bucks\$626.30
- #6 33 meals per semester plan, includes \$150 in Stinger Bucks\$442.28

Unused Jacket Bucks roll over from the fall semester to the spring semester, however, all must be used by the end of the spring semester to avoid forfeiture of any remaining Jacket Bucks.

Unused Stinger Bucks will roll over continuously from semester to semester until the student is no longer enrolled at the University, at which time any unused Stinger Bucks will be forfeited.

Applied Music and Special Courses

- Private music instruction\$100 per hour, plus tuition
- Accompanying fee (except for piano, organ, and
 percussion concentrations)\$100 per semester
- Recital fee (voice or orchestral instrument)\$150
- Recital fee (piano, organ, or percussion)\$50

Payment of Accounts

All accounts are due and payable at the time of registration. Registration is not finalized until satisfactory arrangements are made for payment of the student's account. This includes May term, as well as Summer I and II sessions. A full-time student who does not adhere to the university's Payment of Accounts policy will lose his/her eligibility to receive the guaranteed tuition payment option.

Financial Information

Students eligible to receive Veterans Education benefits, whose benefit payments are not sent directly from the Veterans Administration to Howard Payne University, are expected to pay any balance owed after grants, scholarships, and loans. If the student does not pay the balance in full at the time of registration, the deferred payment plan through TMS is required to be set up and followed. When the student begins receiving the Veterans Education benefits, they can then reimburse themselves for any payments made from their personal funds.

Howard Payne University accepts cash, checks, American Express, Visa, MasterCard, and Discover cards for any payment due to the university. A 3% convenience fee will be added to all credit card payments of \$100 and above. An ATM (automatic teller machine) is located in the Mabee University Center for the student's convenience.

If a balance is owed after grants, scholarships and loans, and the student elects to pay the balance of their account in full, Howard Payne University, through Tuition Management Systems Inc, (TMS), offers a payment gateway to give students the ability to pay their account in full on-line 24 hours a day, seven days a week. Go to www.afford.com/hputx and Pay in Full.

Deferred Payment Plan:

If a balance is owed after grants, scholarships and loans, and the student elects to set up a payment plan, rather than paying in full at the time of registration, Howard Payne University has partnered with Tuition Management Systems, Inc. (TMS) to offer a deferred payment plan with smaller, interest free payments, instead of one large payment. This plan offers easy choices that reduce the need to borrow, is tailored to the needs of the student, and there is guaranteed acceptance. Early enrollment in this plan affords the user the opportunity to spread education expenses over five monthly payments. There is a \$40 per semester enrollment fee for the plan that is paid directly to TMS upon enrollment. Further information may be obtained by visiting the TMS website at www.afford.com, by calling 1-800-356-8329 to reach a TMS representative, or by calling HPU's student account coordinator at 325-649-8053.

The deferred payment plan with TMS is **mandatory** if the balance owed, after scholarships, grants, and loans, is not paid in full at the time of registration. Failure to comply with the agreed upon terms of the payment plan will result in students becoming ineligible to remain on the meal plan, or in university housing. In addition, a student will lose his/her eligibility to receive the block guaranteed tuition rate.

Student's Responsibility to Secure Student Financial Aid and Pay Balances:

University personnel will assist students in their application for student financial aid, but much of the information must be furnished by the students and/or their parents. Some of the entities or individuals who grant student aid send verification directly to the students' homes. The university cannot obtain the aid for students without their cooperation; therefore, students' account balances remain their responsibility until paid in full.

FINANCIAL AID APPLICATIONS MUST BE COMPLETED AND SUBMITTED TO THE OFFICE OF FINANCIAL AID FOUR TO SIX WEEKS BEFORE REGISTRATION.

Students who are recipients of scholarships from religious or fraternal organizations, foundations, corporations, and individuals should arrange with their donors to have a check for their account in hand at the time of registration, or furnish written verification of awards to the Office of Financial Aid.

Payment in full of all accounts must be made to the Cashier before a student may schedule classes for an ensuing semester, or obtain a transcript of credits.

Under no circumstances will an official transcript of credits be issued by Howard Payne University to any student until all financial obligations are paid in full or loan notes are current.

Refunds

Complete Withdrawal from Classes:

Refunds of tuition will be considered in cases where students officially withdraw from the university prior to the end of the fourth week of the regular semester. Withdrawals must be made through the Office of the Registrar. Under no circumstances will notification of professors constitute official withdrawal from the university. The amounts to be refunded will be computed on a decreasing scale as follows:

<i>Prior to the end of the:</i>	<i>.....Fall / Spring</i>
First full week classes are offered90%
Second full week classes are offered80%
Third full week classes are offered70%
Fourth full week classes are offered25%

After fifth dayNo refund

Dropping a Class or Classes:

Students enrolling initially for less than 12 credit hours who later drop a class will have their tuition refunded within the parameters listed above. The date of the official drop slip will govern the amount of refund. An immediate refund will not be made, but upon request, a check covering the refund will be mailed to the address left by the student withdrawing from the university within forty-five (45) days of withdrawing.

Students enrolling for 12 or more credit hours, who later drop a class or classes, will have their tuition refunded within the parameters listed above.

No refund of housing charges are made if a student vacates his/her room before the end of the contract period. Prepaid board is credited to the student's account less a charge for excessive Jacket Buck usage, if any, effective with the date student turns in his/her meal card (I.D.) to the Cashier, less a service deduction of \$50.

If a student is suspended from Howard Payne University and/or dismissed from university housing for disciplinary reasons, there will be no refund of the housing deposit or charges. The normal refund policy for tuition, fees and board will apply.

The following refund policies and definitions are required by federal regulations:

Institutional Charges: For the purpose of calculating the refund, institutional charges are

Financial Information

defined as a charge for educational purposes by the school for which the school requires direct payment. These charges may include (but are not limited to) tuition, fees, dorm, and prepaid board.

Title IV Aid: includes (but is not limited to) Federal Pell Grant, Academic Competitiveness Grant (ACG), National Science and Mathematics Access to Retain Talent Grant (National SMART Grant), Federal Supplemental Opportunity Grant (FSEOG), Federal Perkins Loan, Federal Work-Study, Federal Direct Student Loans, and Federal Direct Parent Loans.

Please Note: More detailed information concerning refunds and withdrawals in regard to financial aid recipients is available in the Office of Financial Aid.

Financial Aid Programs

The Office of Financial Aid at Howard Payne University operates as a service to our students. The primary purpose of this office is to administer and coordinate all financial aid funds including (but not limited to) federal, state, institutional funds and "outside" resources. The Office of Financial Aid provides assistance in a nondiscriminatory manner to those students who meet established eligibility requirements.

The following definition of "academic year" will apply to all eligible programs, including graduate programs, and will be used when administering all Title IV financial aid programs. An academic year consists of two long semesters (Fall and Spring) with a full-time undergraduate student required to enroll in and complete a minimum of 12 credit hours per semester for a total of no less than 24 credit hours over 30 weeks (15 weeks per long semester).

The academic year begins on June 1 and ends on May 31. HPU offers two summer terms: Summer I and Summer II. The Summer I and Summer II sessions are combined into a single term for the purposes of financial aid. Enrollment status is based on the student's combined enrollment for all summer sessions. An undergraduate student must be enrolled for a minimum of 12 hours during the combined summer sessions to be considered a full-time student. When combined, the summer sessions enrollment period becomes a "cross-over period" between award years. It is Howard Payne University's policy to always designate the summer sessions as part of the up-coming award year.

Enrollment requirements for graduate students are provided in the Master of Arts section of this catalog.

A student who wants to apply for federal and/or state financial aid must complete the FREE APPLICATION FOR FEDERAL STUDENT AID (FAFSA). Students may apply at www.fafsa.ed.gov. The HPU Institutional Financial Aid Application will also need to be completed. Documentation may be required as the evaluation of an application progresses. No award will be finalized until all required documentation is on file in the Office of Financial Aid.

In order to apply for federal financial aid, the applicant must be pursuing a degree that can be obtained from Howard Payne University.

Processing of a financial aid application requires approximately four weeks. Students will be given notification of the status of their eligibility by a letter from the Office of Financial Aid. Where funding permits, each student will receive an amount equal to, but not greater

than, the financial need. Financial need is defined as the cost of education less what the family, including the student, can reasonably be expected to contribute. Financial assistance from the university is viewed only as supplementary to the efforts of the family.

Financial assistance may consist of scholarships, grants, loans, and student employment. Assistance may be offered singly or in a combination which will best suit the needs of the student according to the availability of funds. Institutional scholarships must be applied to the student's account. They will not be paid in cash.

When a financial aid package has been prepared by the Office of Financial Aid, adjustments may be required when a student receives additional resources. It is the student's responsibility to inform the Office of Financial Aid upon receipt of scholarships or other funds not administered by the university. The university is to be notified in writing about any change in the financial status of the applicant, so that aid applications can be re-evaluated.

Each student is encouraged to apply early for financial aid. Preferred filing dates are: March 15 for the fall semester; November 1 for the spring semester and April 15 for the summer terms. Any misinformation or omission of information relative to facts such as academic probation or suspension, disciplinary probation or suspension, or other factors which would cause a student to be ineligible for enrollment, would automatically cancel any consideration or award of financial assistance. Students must re-apply for financial aid each academic year.

If a student who is receiving financial aid withdraws from the university, the amount of student aid to be refunded will be determined according to the formula provided by the department of education. A copy of this formula is available from the Office of Financial Aid upon request.

SATISFACTORY ACADEMIC PROGRESS POLICY

It is the responsibility of the student to read this policy and be familiar with the requirements to maintain Satisfactory Academic Progress.

Academic progress will be checked at the end of each semester. A student who does not meet the requirements will be placed on probation for one semester. A student who fails to meet the criteria to be removed from financial aid probation will be ineligible for financial aid consideration until such time as he/she earns sufficient hours and achieves the required minimum cumulative grade point average to meet the criteria for satisfactory progress. Students placed on financial aid probation or suspension will be notified by mail (at the student's permanent address on file) after grades are released at the end of the fall and spring semesters.

FAILURE TO RECEIVE NOTICE OF PROBATION OR SUSPENSION DOES NOT EXEMPT THE STUDENT FROM THE CONSEQUENCES OF THIS POLICY.

Only students who are enrolled in credit courses and seeking a degree or educational certificate that can be obtained from Howard Payne University will be eligible to participate in the student financial aid programs. Regulations for federal and state aid programs require that students make satisfactory academic progress to receive financial aid funding. Federal and

Financial Information

state financial aid programs covered by this Satisfactory Academic Policy are Federal Pell Grant, Supplemental Educational Opportunity Grant (FSEOG), Tuition Equalization Grant (TEG), Leveraging Education Assistance Partnership (LEAP), SLEAP, Federal Direct Stafford Loans, Federal Direct Parent Loans, Federal Perkins Loans, and Federal Work-Study. (See specific program descriptions for additional requirements.)

The Tuition Equalization Grant (TEG) requires that a student complete 75% of the hours attempted, pass a minimum of 24 credit hours in an academic year and maintain a minimum cumulative grade point average of 2.50.

The student's progress will be evaluated at the end of each payment period (i.e. fall semester, spring semester). Students are evaluated on both a **qualitative component** and a **quantitative "pace" component**:

Qualitative Component (cumulative grade point average)

30 or less semester hours attempted: cumulative GPA of 1.60 or above
31 to 59 semester hours attempted: cumulative GPA of 1.80 or above
Over 59 hours attempted: cumulative GPA of 2.00 or above

Maximum Time Frame

For undergraduate programs of study, the maximum time that a student is allowed to receive financial aid must be no longer than 150% of the published length of the educational program. This is measured in credit hours attempted. As an example, for a degree that requires 120 credits for graduation, the student may not attempt more than 180 credit hours. After the student has attempted 180 credit hours, all federal and state financial aid must stop.

Quantitative "Pace" Component

Regulations state that the pace of completion must be specified and aligned with the maximum time frame permitted. Regulations also state that the school's policy must specify the "Pace" of progression required to ensure that the student completes a degree program within the maximum time frame and that the Pace is measured at each evaluation. Pace is calculated by dividing the **total hours completed** by the **total hours attempted**.

The Pace required to meet the satisfactory progress requirement at Howard Payne University is **75%**. This is applicable at any enrollment status.

Attempted Hours: All hours are included in the attempted hours unless they are dropped by the census date. Repeated courses are counted in attempted hours for the purpose of determining the Pace percentage. Credit hours (including repeats) transferred from another school that are accepted toward the student's program are counted as both attempted and completed hours. Courses that are assigned a grade of "I", "NG", "WF", and "WP" will count in hours attempted.

Completed Hours: Only those courses for which credit is awarded are counted as completed courses. Credit hours (including repeats) transferred from another school that are accepted toward the student's program are counted as completed hours. Courses with a grade of "F", "W", "WP", "WF", "I" or "NG" will not be counted as completed hours.

COURSE INCOMPLETE

If a student receives an "I" in every course attempted in one semester, the student will not be eligible for financial aid consideration for subsequent semesters until a grade is assigned for each "Incomplete" and satisfactory progress requirements have been met. A grade of "I" will count in hours attempted, but will not be included in hours completed when determining the Pace percentage.

TRANSFER STUDENTS

Because of the diversity of post-secondary programs and individual circumstances, a transfer student is initially assumed to be making satisfactory progress upon his/her enrollment at Howard Payne University.

NEW OR FORMER APPLICANT

A student, who has completed credits at HPU and is applying for financial aid for the first time, or after a period of not receiving financial aid, must have maintained satisfactory progress during the time that he/she was enrolled at HPU and not receiving financial aid.

DUAL-CREDIT, ADVANCED PLACEMENT, ACT/SAT SCORE CREDIT, CLEP CREDIT

Academic credit/hours earned through dual-credit, advanced placement, ACT/SAT score credits and CLEP credit are considered in both "attempted" and "completed" hours when calculating the student's PACE.

COURSES NOT CONSIDERED FOR FINANCIAL AID FUNDING INCLUDE

1. Courses taken for audit.
2. Continuing education courses.
3. Credit hours earned by examination or articulation.

EVALUATION AT THE END OF EACH PAYMENT PERIOD

Satisfactory progress will be evaluated at the end of each payment period, including summer terms.

Notifications: The Financial Aid Office will notify students in writing of the results of a Satisfactory Progress review that places the student in a "Warning" or "Suspension" status. Definitions will be included in the notification. If the student has regained Satisfactory Progress at the end of the "Warning" period, financial aid will be awarded for the following payment period. If the student has not achieved Satisfactory Progress at the end of the "Warning" period, the student will be placed on Financial Aid Suspension. Information on the Appeal process will be included in this notification.

Warning: If a student is not making satisfactory progress at the end of the payment period (i.e. fall semester), the student will receive a "warning" and will continue to be eligible for federal and state financial aid for one payment period.

Financial Aid Suspension: If the student is not making satisfactory progress at the end of the semester following the "warning" the student will be placed on Financial Aid Suspension. The student may also be placed on suspension if the student has failed all classes (except skill classes) in a semester or if the student is placed on Academic Suspension.

Financial Information

Appeal: In some instances, the student may be permitted to submit an appeal regarding Financial Aid Suspension. A student will be limited to one appeal during their enrollment at Howard Payne University. Extenuating circumstances may include:

- Personal injury or illness of the student
- Death of a relative of the student
- Family difficulties, such as divorce or illness
- Interpersonal problems with friends, roommates, significant others
- Work pressures/work overload

If the student has extenuating circumstances and would like to present an appeal for reconsideration of eligibility for federal and state aid, the student must follow the following appeal process:

APPEAL PROCESS AND CHECKLIST

- Appeal Form with detailed information submitted by the student. Appeal forms are available in the Financial Aid Office. The student must clearly state on the appeal form the extenuating circumstance (with explanation) and include a description of what has changed to allow the student to make satisfactory progress.
- Student Requested Letter from the Student's Advisor - Providing insight about the student's academic performance as well as their recommendation about approving or denying the appeal and why. **The letter from the advisor is to be submitted directly to the Student Services and Academic Standing Committee. The letter may be in the form of an email directed to Glenda Huff, Director of Student Aid or Lana Wagner, Registrar.**

NOTE: If the student's advisor fails to submit the requested letter, the appeal will still be reviewed; **however**, the student must have requested the letter. Proof of the student's request, such as a copy of the letter to the advisor or a copy of an email to the advisor, must be submitted.

- In addition to the advisor's letter, students have the option of asking another faculty member or staff member to write a letter to the Committee in support of the appeal.

DUE TO THE AMOUNT OF TIME INVOLVED PREPARING AN APPEAL, STUDENTS CANNOT EXPECT TO BEGIN GATHERING THE REQUIRED SUPPORTING DOCUMENTATION ON THE FINAL SUBMISSION DATE AND STILL HAVE THEIR APPEAL REVIEWED.

Result of Appeal: Appeals will be reviewed on an individual basis. The student will be notified in writing of the decision concerning the appeal.

If Appeal Approved: If the appeal is approved the student will receive a letter that outlines the conditions of the appeal. The letter will specify one of the following conditions:

- The student will be able to meet the satisfactory progress requirements by the end of the next payment, **OR**
- The student will be placed on an academic plan that will ensure that the student will be able to meet the satisfactory progress standards by a specific point in time. The student's progress will be evaluated at the end of the next payment period to ensure that the student is meeting the conditions of the academic plan.

Financial Aid Probation: Financial aid probation is a status assigned to a student who fails to make satisfactory progress and who has appealed and has had eligibility for aid reinstated. At the end of the payment period for which the student was on probation, the student must be making satisfactory progress or be successfully following an academic plan.

Academic Plan: In the event that an appeal is granted and the student is placed on probation under an Academic Plan, the student will work with an advisor in the Collegium. The advisor will monitor and counsel the student while the Academic Plan is in effect. The student's academic records will be reviewed by the advisor in consultation with the Registrar's Office to determine classes that must be repeated and the length of the plan. All students on an academic plan who have attempted more than 30 credit hours will be required to file a degree audit.

The Academic Plan will be reviewed by the advisor and the Director of Financial Aid at the end of each payment period during which the student is on probation. If the student is not successful with the Academic Plan, the student will be placed on Financial Aid Suspension.

If the student is placed on Academic Suspension at any point during which the student is participating in an Academic Plan, the plan will be discontinued. If the student is removed from Academic Suspension by appeal or otherwise, the resumption of the Academic Plan will be reviewed by the advisor and the Director of Student Aid.

If the Appeal is Not Approved: A letter will be sent to the student providing the cumulative grade point average and the number of hours the student must achieve to regain federal and state financial aid eligibility. The student will need to consult with the Registrar's Office concerning any courses that will need to be repeated and/or transferred from another school.

COURSES NOT REQUIRED FOR DEGREE AND REPEATED COURSEWORK

Courses not required for the student's degree will not be counted in the enrollment status.

Effective July 1, 2011, regulations allow repeated coursework to count toward enrollment status in term-based programs as stated:

- may repeat a previously passed course once
- may repeat failed course until it is passed

*The failed course will count in hours attempted for the Pace calculation and could result in loss of aid eligibility due to lack of progress.

The only exceptions will be for classes which require enrollment in multiple semesters (e.g. Private Voice, Concert Choir, Moot Court) and in which the student will receive additional credit each time the class is taken.

A student may include a course not required for the degree or a previously passed course (for the second time) in the student's schedule under the flat tuition rate for full-time students, if the student has a minimum of twelve (12) credit hours exclusive of the ineligible course. Inclusion of the ineligible class would not affect enrollment status in this case.

HOW AN OFFICIAL WITHDRAWAL AFFECTS SATISFACTORY PROGRESS

A student who has officially withdrawn from the university and whose final grades are a combination of "WF" and "WP" will not automatically be placed on Financial Aid

Financial Information

Suspension; however, the attempted hours will be included in the formula for determining the student's pace. If the resulting evaluation determines that the student is not meeting satisfactory progress requirements, the student will be placed in either the "Warning" or "Suspension" status.

A student who has officially withdrawn from the university and whose final grades are all "WF" (except skill courses i.e. physical activity, piano) will be suspended from the federal and state financial aid programs until the pace requirements have been met and the cumulative grade point average has been achieved based on the number of hours attempted. Grades of "W", "WP", "WF", "I", or "NG" do not count as completed hours for pace assessment; however, they are included in attempted hours.

FAILING ALL CLASSES EXCEPT SKILL COURSES

A student who has not officially withdrawn from the university and fails to earn any credit (except skill courses i.e. physical activity, piano) in a semester will be suspended from the federal and state financial aid programs until the quantitative and the pace requirements have been met for satisfactory progress.

ENROLLMENT STATUS

Some financial aid programs have specific enrollment requirements. The following chart shows how enrollment status is defined:

01-05 credit hours	=	less than half-time enrollment
06-08 credit hours	=	half-time enrollment
09-11 credit hours	=	three-quarter time enrollment
12 + credit hours	=	full time enrollment

HPU locks "enrollment status" on the census date which is usually the eighth class day of the fall and spring semesters. The number of hours for which the student is enrolled as of this date will determine the enrollment status for that semester/session and financial aid will be disbursed accordingly. If the change in enrollment status causes the student's charges to become unpaid due to an adjustment in financial aid, it is the student's responsibility to make arrangements to pay the remaining charges.

If the student receives financial aid for a certain enrollment status and then subsequently drops to a lower enrollment status (for example, from full-time to three-quarter time), the satisfactory progress will be based on the original enrollment status and requirements. For any student who has loans and drops below half-time enrollment, the student's lender will be notified and the grace period for the loan will begin.

CHANGE IN ENROLLED HOURS

Students who consider dropping hours should contact the Office of Financial Aid prior to dropping the hours to determine the effect on scholarship and financial aid eligibility. A reduction in hours may result in an adjustment to the award package and may also affect satisfactory progress. It is the responsibility of the student to notify the Office of Financial Aid of any reduction in hours.

Student Employment

Howard Payne offers two types of student employment for students desiring to work while attending school-Institutional Employment and College Work-study. Employment is offered on a part-time basis, and students can earn a portion of their educational costs by working. One of the objectives of the employment program is to provide job opportunities which will help students develop useful skills and responsibility and, at the same time, perform worthwhile services.

The *Institutional Employment Program* is an institutionally-funded work program. Students submit a timesheet showing hours worked and are paid minimum wage. Students will receive a paycheck for hours worked. This is not a need-based form of employment. Earnings from this program must be included when completing the FAFSA.

The *Federal Work-Study Program* is a cash program whereby students receive a check for the number of hours worked. Jobs are offered on campus to those students who qualify for the program. The program is funded in part by the federal government and by Howard Payne University. Students are paid minimum wage. This is a need-based program.

The Federal Work-Study Program also offers off-campus employment opportunities to qualified students. Off-campus employment must be "community-service" related. These services include such fields as health care, child care, literacy training, education (including tutorial services), welfare, social services, housing and neighborhood improvement, public safety, crime prevention and control, recreation, rural development, and community improvement. Also included are support to students with disabilities and activities in which a student serves as a mentor for such purposes as tutoring, supporting educational and recreational activities, and counseling.

Current off-campus locations include the Latch Key Program, Small World Child Development Center, the Heart of Texas Literacy, Family Service Center, Boys and Girls Club, and Extended Day Reading Program. Other locations may be added.

Students in off-campus locations are paid in the same manner as the students employed on campus.

Financial Information

Federal and State Grants

Federal Pell Grant: Public Law 92-318 and the Educational Amendments of 1972 established a program of “entitlement” grants which may provide up to \$5,550 to all students less the family contribution as determined by a Federally-approved need analysis system, or one-half the college cost, whichever is less.

Federal Supplemental Educational Opportunity Grants (SEOG): This program, formerly known as Educational Opportunity Grants, is re-authorized by the enactment of Public Law 92-318 and the Educational Amendments of 1972. Priority is given to Pell Grant recipients. Eligible students may receive up to \$2,000 per academic year, depending upon the availability of funds. Grants are made for one year only, and students must reapply in order that the institution can determine whether or not a subsequent grant can be made.

Tuition Equalization Grants (TEG): Tuition Equalization Grants were authorized by Texas Senate Bill No. 56, Sixty-second Legislature, Regular Session, 1971, to provide grants to Texas residents enrolled in approved private Texas colleges and universities. These grants help to equalize the tuition cost between private and public schools and the intent that students will be encouraged to enroll in private colleges to maximize the utilization of existing college and university facilities. Grants are based on financial need. Students who were awarded TEG after September 1, 2005 must maintain a minimum cumulative grade point average of 2.50, complete 75% of hours attempted, and complete a minimum of 24 hours in an academic year.

Federal and State Loan Programs

Federal Perkins Loan Program: This program, formerly known as the National Direct Student Loan Program, was authorized by the enactment of Public Law 92-318 under the Educational Amendments of 1972. This is a need-based program.

Annual loan limits for the student are as follows: \$5,500 for a student who has not yet completed a program of undergraduate education and \$8,000 for a graduate or professional student. Maximum aggregate loan amounts for an eligible student are as follows: \$27,500 for a student who has not yet completed a program of undergraduate study and \$60,000 for a graduate or professional student.

These loans are made through the university and repayment is required. Borrowers begin repayment of their loans following graduation, termination or after ceasing to be at least a half-time student. Information concerning cancellation and/or deferment benefits, minimum monthly payments and the current interest rate may be obtained by contacting the Office of Financial Aid.

Federal Direct Loans: Due to recent legislation, the William D. Ford Direct Loan Program was mandated. This program allows students and parents to borrow funds directly from the Federal Government. Effective with the 2010-2011 catalog, all students will use the Direct Loan Program. This loan is provided by the U.S. Department of Education. This loan requires half-time (minimum of 6 credit hours per semester) enrollment.

First Time Borrower at HPU:

Entering freshman and transfer students will be required to complete Entrance Counseling and the Master Promissory Note (MPN). This is an online process. Complete information regarding this process will be included with the Award Notification.

Previous Borrower:

FEDERAL DIRECT LOAN CONFIRMATION PROCESS: The Master Promissory Note (MPN) is a very important contract between the borrower and the lender. The MPN allows borrowers to receive multiple subsidized and/or unsubsidized Federal Direct Loans over a ten year period. This feature is called a Serial Loan. Each year that a student receives a Serial Loan under the MPN, the student is required to confirm that he or she wishes to receive subsequent loans under the MPN. A student will be defined as a "previous borrower" if all of the following conditions are met:

- **Previously borrowed from the Federal Direct Loan while a student at HPU**
- **Has a valid promissory note on file with the Department of Education as the lender**

To confirm that the student wants to continue to receive loans under the MPN using the Serial Loan feature, the student must accept the loan(s) on the Award Notification, sign the Award Notification, and complete a Serial Loan Form for the academic year in which the student is requesting the loan.

The same "Confirmation Process" will apply to Parent Loans.

Under certain circumstances, a student can receive periods of deferment or forbearance that allow for postponement of loan repayment. A deferment is a period of time during which no payments are required and interest does not accrue. To qualify for a deferment, the student must meet specific eligibility requirements. The most common loan deferment conditions are enrollment in school at least half-time, inability to find full-time employment (for up to three years) and economic hardship (for up to three years). In some circumstances, there are deferment provisions for active duty military. The lender can provide information on deferments, including deferment for the following services:

- I. Service under the Peace Corps Act (22 U.S.C. 2501)
- II. Service under the Domestic Volunteer Service Act of 1973 (42 U. S.C. 4951); or
- III. Comparable service as a volunteer for a tax-exempt organization of demonstrated effectiveness in the field of community service.

A forbearance occurs when the lender or loan-servicer agrees to either temporarily reduce or postpone the student loan payments. Interest continues to accrue during a forbearance.

A student cannot get a deferment or forbearance for a loan that is already in default.

Additional information concerning loan amounts, interest rates and deferment provisions can be obtained by contacting the Office of Financial Aid.

There are other types of loans available. Additional information and applications can be obtained by contacting the Office of Financial Aid.

Academic Scholarships

Only one academic scholarship (Freshmen or Transfer) will be awarded to any one student. Students may not receive a combination of academic scholarships based on varying criteria. No changes in the initial scholarship level will be permitted after the first day of the student's beginning semester. Academic Scholarships are for tuition only, and when combined with other "tuition specific" scholarships, can not exceed the amount of tuition charged for the semester in which the scholarships are received. Students must be enrolled full-time on the Brownwood campus to be considered for an Academic Scholarship. Scholarships are not available during summer sessions or mini-terms.

When determining cumulative grade point averages, only those grades earned in residence at Howard Payne University will count toward eligibility for these scholarships. Other grades appearing on the transcript for credit earned in the ACT/SAT or CLEP program, as well as grades earned in a similar manner, will not be included in the computation of the grade point average for the purpose of these scholarships.

STUDENTS ENROLLED PRIOR TO FALL 2008: For information on Academic Scholarships, please refer to the applicable catalog based upon your entry date to Howard Payne University.

* Students must have paid their Enrollment Deposit by May 1, 2008 to receive one of the above Merit-Based Scholarships. **Merit-Based Scholarships are applied against tuition only. Students must plan to enroll full-time on the Brownwood campus to receive one of the above Merit-Based Scholarships. Only one Merit-Based Scholarship will be awarded to any one student.** If a student should meet one of the higher eligibility criteria within a higher scholarship range prior to the first day of classes, the lower scholarship will become void and the higher scholarship will be awarded. No change in scholarship level will be permitted after the first day of the student's beginning semester. Residual test scores will not be considered in determining scholarship eligibility. Concerning admission to the university and eligibility for scholarships, only the Math and Verbal/Critical Reading scores of the SAT will be considered (Writing portion of SAT is excluded). Students receiving first-year, merit-based scholarships must meet the criteria above in the academic year following high school graduation as stated in the HPU Catalog. Students who enroll at HPU during the first semester following high school graduation will be classified as a first-year student for scholarship purposes. College hours obtained through dual-enrollment classes will not be considered when determining scholarship eligibility. Students who have an earned bachelor's degree will not be considered for the Transfer Scholarships listed above. Howard Payne University reserves the right to calculate the secondary school GPA based on academic courses completed. Students are encouraged to complete a college preparatory curriculum in order to receive the best opportunity to qualify for merit-based scholarships.

* Students must have paid their Enrollment Deposit by May 1, 2009 to receive one of the above Merit-Based Scholarships. **Merit-Based Scholarships are applied against tuition only. Students must plan to enroll full-time on the Brownwood campus to receive one of the above Merit-Based Scholarships. Only one Merit-Based Scholarship will be awarded to any one student.** If a student should meet one of the higher eligibility criteria within a higher scholarship range prior to the first day of classes, the lower scholarship will become void and the higher scholarship will be awarded. No change in scholarship level will be permitted after the first day of the student's beginning semester. Residual test scores will not be considered in determining scholarship eligibility. Concerning admission to the university and eligibility for scholarships, only the Math and Verbal/Critical Reading scores of the SAT will be considered (Writing portion of SAT is excluded). Students receiving first-year, merit-based scholarships must meet the criteria above in the academic year following high school graduation as stated in the HPU Catalog. Students who enroll at HPU during the first semester following high school graduation will be classified as a first-year student for scholarship purposes. College hours obtained through dual-enrollment classes will not be considered when determining scholarship eligibility. Students who have an earned bachelor's degree will not be considered for the Transfer Scholarships listed above. Howard Payne University reserves the right to calculate the secondary school GPA based on academic courses completed. Students are encouraged to complete a college preparatory curriculum in order to receive the best opportunity to qualify for merit-based scholarships.

Scholarships

Scholarships awarded from the university endowment and general funds are not payable in cash. They will be credited to the student's account. If the award produces a credit balance on the account, it will be carried forward until the next semester, or the award will be adjusted to the correct amount to pay the balance due on the account. This enables the university to help the maximum number of students with the funds available. Part-time students are not eligible to receive unfunded scholarships. Early application is encouraged due to limited scholarship funding.

ALL-STATE MUSIC SCHOLARSHIP: Awarded to both state (Texas or any other state) and Baptist All-State Band and Choir members who are music majors or minors. Scholarship award is \$250 per long semester during the freshman and sophomore years as long as the student meets all other requirements. No scholarship application or audition is required. Verification of participation is required. Awarded by the School of Music and Fine Arts. Funding is limited.

ALUMNI ASSOCIATION SCHOLARSHIP: Dependents of dues-paying members of the HPU Alumni Association may apply for this scholarship by completing the Alumni Association Student Scholarship Application. Recipients are selected by the Scholarship Committee of the HPU Alumni Association. Applications are available from the Office of Financial Aid or the HPU Alumni Relations Office. Additional information may be obtained at 800-950-8465 or 325-649-8044.

BAPTIST MINISTERIAL SCHOLARSHIPS: Baptist ministerial students applying for this scholarship must present a license, certification of ordination, or letter of certification from a Baptist church, and meet all requirements set by the Christian Education Commission of the Baptist General Convention of Texas. Applications must be approved by the dean of the School of Christian Studies prior to each registration period and cannot be made retroactive during a semester. The scholarship is paid by the Baptist General Convention of Texas.

BAPTIST MINISTER'S DEPENDENT SCHOLARSHIP: This scholarship is available to unmarried dependent children (age 23 or less) and wives of active full-time Baptist ministers or Baptist ministers who are inactive due to age or health. The scholarship is \$750.00 per semester. It requires fulltime enrollment (12 credit hours or more) each semester and must be applied to tuition only. Application must be obtained from and approved by the dean of the School of Christian Studies prior to each registration period and can not be made retroactive

Veterans should notify the Veterans Administration of their intention to enroll at the university so that a Certificate of Eligibility may be received prior to enrolling. Veteran's affairs are handled by the veteran coordinator in the Office of the Registrar. Veterans should contact the office prior to enrolling and each term immediately after registration. Any change in course load or class attendance is to be reported to the veteran coordinator. **All** veteran benefit recipients are required to file a degree audit upon **initial enrollment**. Detailed information regarding Veteran's Education Benefit programs is available in the Appendix of this catalog.

Student Life

Student Conduct

When a student is admitted to Howard Payne University, he/she is required to know and abide by the regulations and policies of the university as published in the Catalog and the Student Handbook, copies of which are available to every student. Therefore, it is presumed that the student who elects to attend Howard Payne University does so with the intent of being in fact and spirit a cooperating member of this university community.

The university encourages students to conduct themselves as maturing men and women and invites them to participate in the formulation of rules and to assume responsibility in student judicial decisions. Students are selected to serve on several committees as voting members. At the same time, all participants in Howard Payne University life are reminded that, by the charter of the university, the Board of Trustees is ultimately responsible for the school and for its operation and that, therefore, the university is not legally a political democracy operated with the consent of the governed.

While students should consult the most recent Student Handbook and Residence Life Guidebook for specific policies and procedures, in general, the policies governing student behavior are outlined below:

1. Howard Payne University holds human dignity and worth inviolate: thus, respect for the thoughts, property and rights of other people must prevail.
2. The human body is considered to be God's temple: thus, the use or possession of alcoholic beverages, harmful or personality-degrading chemicals or narcotics is not tolerated.
3. Gambling, hazing, violence and the on-campus possession of firearms could threaten individual dignity and rights; consequently, they are not permitted.
4. Howard Payne University expects its students to abide by local, state and federal laws as well as the generally accepted moral standards of the university community. The university will not seek or support special treatment for those of its students who may be apprehended for violation of law.

Student Life

When, in the opinion of the university, the conduct of a student at any place is reprehensible or detrimental to the best interests of the student, his/her fellow student or the university, appropriate disciplinary action will be taken.

The standards apply to all students both on and off campus as long as they are enrolled in Howard Payne. The authority of the university is exercised over all student groups or organizations bearing the name of the university or any student activities to the extent necessary to safeguard the good name and well-being of Howard Payne University and its students and faculty. The conduct of each student is expected to uphold, not detract from, the good name of Howard Payne University.

Student Complaint/Grievance Procedure

It is the wish of the University to provide an education and services of high quality to its students and to provide equity and harmony in the application of policies and procedures. When a student has a complaint, the University would encourage resolution be sought through informal communication with the appropriate instructor, school dean, staff member, or administrative officer who may be able to help rectify or clarify the situation before a written complaint is initiated. A formal complaint procedure also exists, the details of which are outlined in the latest version of the Student Handbook.

University Regulations

Because Howard Payne University is a Christian institution, each employee and student is expected to conduct himself/herself in accordance with Christian value systems both on and off the campus. If a student persistently conducts himself/herself in a way which would reflect negatively upon the purposes and values of the institution, disciplinary procedures will be utilized in accordance with the gravity of the misconduct. The dean of Students is responsible for enforcing all regulations related to student conduct.

Examples of misconduct for which disciplinary action may be administered are as follows: academic dishonesty, aggressive behavior, assault, violation of appropriate student dress, inappropriate conduct in university housing, hazing, demonstrations, use or possession of alcoholic beverages/drugs and/or paraphernalia, firearms and fireworks, disrespect for personal and public property and sexual impropriety.

Any appeal of disciplinary assessment must be directed to the dean of students. Refer to the Howard Payne University Student Handbook for the appeal process.

Parking Policy

General Provisions

The operation of a motor vehicle or bicycle on Howard Payne University campus is a privilege granted by the university and is not an inherent right of any faculty/staff member or student. The university is not responsible for fire, theft, damage to, or loss of personal property or vehicles parked or operated on the university campus.

Parking Regulations

Parking is prohibited at all times where indicated by red-painted curbs or pavement markings. Parking at unpainted curbs is controlled by area parking signs. Posted signs must be honored at all times and take precedence over painted curbs and pavement markings. Parking wholly within the marked boundaries of the parking space is required at all times.

Parking Zones

- **No Parking Zone:** In addition to zones marked by posted signs; all red, yellow, or blue-painted curbs or pavements denote no parking at any time.
- **Fire Zone:** An area designated by a posted sign and red-painted curbs or pavement that denotes no parking at any time.
- **Tow Away Zone:** An area designated by a posted sign that constitutes a public notice that a vehicle parked in violation may be removed. Towing is enforced at all times as noted on the signs.
- **Loading Zone:** An area, dock, or zone marked by posted signs that are reserved for loading or unloading only.

Note: If there are no painted lines, then the vehicle should park perpendicular to the wheel stop that was installed for that purpose. Vehicles may not be parked in a manner that obstructs walkways, driveways, ramps, loading docks, or marked cross-walks or that inflicts damage to shrubbery, trees, grass, grounds or structures. Additionally, no vehicle may be parked on any unmarked or unimproved ground area that has not been marked or designated for parking. Other improperly parked vehicles do not constitute an excuse for improper parking. Also, on occasion during the year, the university may close certain parking lots.

Special-use or Over-size Vehicles

Special-use or over-size vehicles are not permitted to be parked on the campus at any time without authorization. This includes, but is not limited to, boats, boat trailers, any personal watercraft, all-terrain vehicles, go-carts, golf carts, motor homes, trailers, and other over-size vehicles. Authorization to operate or park these vehicles on the campus may be obtained from the director of facilities and planning.

The absence of sufficient authorized parking space on the campus during a particular period of time will not be considered as valid justification for violation of parking and traffic regulations. The mere fact that citations are not issued for any offense does not indicate that these regulations have been modified to exclude the offense.

Student Life

Parking and traffic regulations on campus are in effect at all times. All posted restrictions apply whether or not classes are in session. Consult the Student Handbook for additional policies regarding campus parking and vehicle registration.

Posted Signs

Posted signs, whether permanent or temporary, must be obeyed at all times and take precedence over painted curbs, pavement markings, and designations shown on any university maps.

Enforcement

Failure to abide by parking and traffic regulations may be the basis for disciplinary action against students and employees.

Chapel/Student Assembly Attendance

Chapel/Student Assembly is required of students attending Howard Payne University.

Chapel services and student assemblies are offered throughout the semester according to a published schedule. The mission of chapel is to promote a vibrant relationship with Jesus Christ in a praise and worship format. Occasionally, a student assembly will be held for the purpose of promoting cultural awareness, academic life, student activities, and world events in a student-friendly setting that integrates faith and life. Those who sincerely participate may come to appreciate the wide-range concerns of the Christian faith in intellectual, social, political and artistic ideas and issues involved in everyday experience. **Four semesters, or credits, of chapel/student assembly attendance are a criterion for graduation from Howard Payne University.** Consult the latest edition of the Student Handbook for more information about Chapel/Student Assembly.

Residence Halls

Howard Payne University maintains residence halls as a part of the total educational experience available to students. They provide a supportive framework for intellectual and social growth and development effectively extending learning beyond the classroom. For this reason, all full-time, unmarried students not living with parents must live in a university residence hall until four (4) full semesters (i.e., fall and spring semesters) or 60 verifiable credit hours are completed or the student reaches 22 years of age. All students living in residence halls must purchase a resident meal plan.

All students applying for admission to university housing must forward to the Office of Student Life a deposit of \$100 (along with the appropriate housing application) which will be held as security for damages. If the room deposit is not requested within one year of vacating university housing, the deposit will be forfeited into a general scholarship account. Any unused portion will be refunded on written request within one month after properly checking out of the residence hall. In no case will any of the deposit be refunded until the student has cleared all financial obligations to the university and requested the deposit.

Applications for permission to live off campus can be picked up from the Office of Student Life. Without off-campus approval students are required to live in the residence halls and purchase a meal plan to eat in the dining hall.

Students who live on campus contract for room and board in the Howard Payne University residence halls and assume responsibility for the payment thereof at the rates established by the university. Any resident who moves from a campus residence without official permission is held financially responsible for the full financial term agreed upon between the resident and the university.

All other policies and procedures pertaining to housing are found in the HPU Student Handbook and the Residence Life Guidebook.

Dining Services

Dining service arrangements, like those for housing, are a part of the overall educational plan of the university with efforts made to help students develop wholesome eating habits. The menu planning and meal services are provided by Sodexo Campus Services. Fambrough's, a restaurant located upstairs in the Mabee University Center, is open late at night for students to eat, play games, and visit with friends. ALL RESIDENCE HALL STUDENTS WILL BE CHARGED FOR ROOM AND MEALS AT THE TIME OF REGISTRATION. Students on the 12, 15, or unlimited meal plans have that many meals to eat in the cafeteria each week. Unused meals are forfeited as the plan rolls back to that starting number each Monday morning. Unused Jacket Bucks from the meal plans roll over from the fall semester to the spring semester, however all must be used by the end of the spring semester to avoid forfeiture of any remaining Jacket Bucks. Unused Stinger Bucks will roll over continuously from semester to semester until the student is no longer enrolled at the University, at which time any unused Stinger Bucks will be forfeited.

Requests for special diets or specific foods should be made with the dining services manager for approval. Dining Services would prefer to receive these requests prior to students' arrival on campus, but they understand that circumstances can change at any time. Every attempt is made to work with students regarding their special diets, but a physician's recommendation may be requested to guide menu planning if clarification is needed.

Resident students on a meal plan may enjoy service in the cafeteria during the hours listed below:

Monday through Friday

Breakfast	7:00 AM to 9:30 AM
Continental Breakfast	9:30 AM to 10:30 AM
Lunch	11:00 AM to 1:30 PM

Saturday and Sunday

Breakfast.	8:00 AM to 11:00 AM
Lunch	11:00 AM to 1:30 PM
Dinner	5:00 PM to 6:30 PM

Fambrough's hours are:

Monday through Friday	9:00 AM to 10:00 PM
Saturday	CLOSED
Sunday.	6:00 PM to 11:00 PM

Counseling Services

Counseling is available for HPU students in choosing a major field of study or in working out academic, social or personal problems.

Areas of concern for which students seek confidential counseling may include family crises (for example, death or divorce in the family), dating problems, roommate problems, tension (headaches, fatigue, insomnia, stomach troubles), eating disorders, depression, anxiety, drug or alcohol problems, time management or problems related to academic studies and career possibilities.

These services are available through the University Counselor.

Health Services

The university employs a nurse who maintains office hours for consultation on minor ailments and first aid at no cost to the student. Prescription medicine and injections may be given on orders of a physician, but the student must pay for all medicine and physician charges. Allergy Shots must be given in a Physician's Office or Medical facility and will not be given on the HPU campus.

If a student needs to see a physician, it is the student's responsibility to choose his physician and pay the charges, unless they are covered by insurance. If a student does not have a local physician, the nurse will help make arrangements when requested.

In the event of an emergency, students will be sent to the hospital emergency room.

Students diagnosed with a contagious disease must make arrangements to leave campus housing until recovered. When a student leaves the housing facility due to a contagious disease, he/she must obtain a statement from a physician certifying that he/she is free of the contagion and present that statement to the residence hall director before returning to the facility.

Temporary Disabilities

Students wishing to discuss the availability of services for the temporarily disabled should contact the University Nurse.

Eligibility for Extracurricular Activities

To be eligible to participate in extracurricular activities at Howard Payne University, a student must be in good academic standing and be maintaining satisfactory progress toward an associate, baccalaureate, or graduate degree. The standards for good academic standing and satisfactory progress are defined in the Academic Probation and Suspension section in the current university catalog. Good academic standing will be based on **all** academic work at **all** institutions the student has attended.

Intramurals

The purpose of the Intramural Program at Howard Payne University is to provide organized athletic competition among students. The university seeks to promote and conduct officially organized intramural sports for men and women. The specific objectives of these programs are as follows:

- A) To provide an opportunity for students to take part in a variety of recreational activities and to encourage and promote competition among groups of students, faculty, and staff.
- B) To present a varied program that will strive to interest everyone.
- C) To provide an opportunity to maintain better health through exercise.
- D) To provide the opportunity to develop sportsmanship of the highest order. Everything that sportsmanship implies should be developed on the playing field of HPU.
- E) To provide an opportunity for relaxation from the rigors of full-time academic work.

The Wellness Center

The Elliston-Cassle Wellness Center provides Howard Payne University faculty, staff, their dependents, and students with a multipurpose facility for recreation, education and fitness. The university seeks to promote a positive wellness lifestyle as part of the total educational experience for its community by providing cardio respiratory fitness equipment, free weights, weight machines, table tennis, a walking track and gymnasium for classroom as well as free time exercise. The Wellness Center provides facilities for intramural play and exercise and sport science laboratory experiences. An official university identification card is required to access and utilize the Wellness Center facilities. Those not presenting the proper identification will not be permitted to use the facility until proper identification is obtained.

Student Organizations

The university is concerned with the total development of each student. Believing that student activities are vital functions which involve men and women in the life of the university by utilizing their participation in out-of-classroom experiences, Howard Payne University operates a system of student organizations and activities under the auspices of the Office of Student Life. The following system is in effect:

A club is defined as any organization that has its charter or constitution approved by the Office of Student Life and the Student Government Association. Students are not permitted to set up new organizations without chartering them through the designated channels.

The following organizations are presently operating within the framework of the university:

Student Government Association

The Student Government Association consists of all students who are regularly enrolled in undergraduate study at Howard Payne. The students are organized in order to facilitate efficient self-government. SGA officers and representatives, elected by the student body, function as the official voice of the student body and act as a liaisons between the students and the university administration.

This ministry seeks to follow the vision of I Thessalonians 2:8, summed up in saying that we will share the Gospel and our lives with those around us. The BSM is divided into three areas of focus: Evangelism, Discipleship and Missions/Social Justice.

Community and Campus Outreach — This area of our ministry seeks to get students sharing the Gospel on a regular basis. Students can be involved in many ways including leading Disciple Nows through churches, performing with the Drama Ministry, tutoring children in low-income neighborhoods, being creative with the Art Ministry, or mentoring young inmates at the State Juvenile Correctional facility here in Brownwood. Additionally, students can be involved by participating in Bible studies, praying with others in campus housing, loving through servant evangelism, or being a part of evangelistic training and events

Discipleship — We seek to help grow students with depth in their relationship to God and others. This area includes student-led worship experiences, a leadership group for first-year students, and efforts to help students get plugged in with a local church congregation.

Missions/Social Justice — This includes the ministries that reach out to our community and our world. During the year, BSM will be taking various mission trips on weekends as well as during Spring Break and summer. Also during the summer, students have the opportunity to serve in the U.S. and throughout the world through Texas BSM and other Baptist mission agencies. Each week, students have the opportunity to be a part of many missions related prayer and awareness opportunities.

For more information, call (325) 649-8319, e-mail kplatte@hputx.edu, or visit the BSM office located in The Hub, across the street from the Mabee University Center at 1215 Center Ave.

Statement of Purpose

In order to achieve the mission of Howard Payne University through athletics, we will view every student athlete as a distinct gift from God who is entrusted to our care. We will teach Christian values through modeling, program design, and individual relationships. Our goal is that each student athlete will be involved in the "whole" of the Howard Payne University student life experience and equipped to succeed in athletic competition, mature spiritually, emotionally, and physically, and develop meaningful personal relationships.

Objectives taught and modeled by our examples, which are critical to the success of the Howard Payne University athletic program, are:

- The desire for every student athlete to know Jesus Christ as Lord and Savior
- Self-discipline
- Sportsmanship
- Strong work ethic
- How to handle both success and disappointment
- Development of a strong and healthy self-esteem
- The importance of being a successful student and earn a college degree
- The skills of leadership

The athletic program is open to full-time, regularly enrolled students who are in good standing with the university and who are in compliance with the eligibility requirements of the National Collegiate Athletic Association (NCAA), the American Southwest Conference (ASC), and Howard Payne University Athletic policies. The standards for good academic standing and satisfactory progress are as defined in the Academic Probation and Suspension section in the current university catalog. Good academic standing will be based on **all** academic work at **all** institutions the student has attended.

Student-athletes at Howard Payne University are given the same considerations as all other students on campus. Admission to the university is granted through the Office of Enrollment Services with no member of the athletic staff serving on the Admissions Committee. In addition, all financial aid is awarded through the Office of Financial Aid with no consideration given to athletic ability.

The athletic programs are budgeted through a general budget allocation in the same manner as all other educational programs on campus.

Educational Program

Intercollegiate athletics represent an important and integral part of the educational program at Howard Payne University. Every attempt is made by department personnel to promote and enhance the academic success of student/athletes. Class attendance, participation, and effort are supported in a variety of ways. Athletic activities are scheduled so that there is minimal conflict with academic endeavors. It is understood however, that there are times when conflicts are unavoidable. These occurrences are acceptable due to the college's belief that learning is a process that extends beyond the classroom and into every aspect of university life.

For many students, athletic participation is the most effective climate for learning the invaluable lessons of personal integrity, self-discipline, determination, self-confidence, proper mental attitude, leadership, poise, individual and group responsibilities, and the desire to achieve high goals. Other associated values and educational benefits for participants include lifelong health and the formation of lasting friendships. In addition, participation in athletics assists in the preparation and job placement of prospective coaches.

The athletic program is designed to contribute to and offer involvement to all students - as participants, support groups, or as spectators. It will also serve the university by providing entertainment and establishing a common ground of interest which will draw individuals together in support of the various sports activities.

Visibility/Public Relations

Intercollegiate athletics is a natural public relations vehicle for the university. The athletics program gives the college visibility within the community and with the alumni. A sound, wholesome program, with integrity, provides positive promotional benefits which permeate every aspect of the university including recruiting and development.

In addition to the coverage of sporting events and teams, visibility is also accomplished through organized events such as golf tournaments, luncheons, and alumni games.

Recruiting

Recruiting by athletic department personnel is a process that encompasses the recruitment of prospective student athletes. All recruiting activities are integrated with the university's Office of Enrollment Services. The primary objective of recruiting is to attract high quality students to HPU, regardless of their unique abilities.

The recruitment of athletes emphasizes three areas of interest. First, it is imperative that the recruit has the ability and desire to succeed in his academic endeavors. Secondly, the recruit must have the character and quality of an individual that will represent HPU in a favorable manner. Thirdly, it is necessary to have athletes with the physical ability which enables us to be competitive within the ASC and NCAA.

American Southwest Conference

Howard Payne University is a member of the American Southwest Conference (ASC), a nonscholarship athletic conference, which also includes: McMurry University, Abilene; The

Academic Information

Degrees Granted

Howard Payne University confers the degrees of Master of Arts, Master of Education, Bachelor of Arts, Bachelor of Business Administration, Bachelor of Applied Arts and Sciences, Bachelor of Music, Bachelor of Science, Associate in Ministry, and Associate in Health Science.

Within the bachelor's degrees, students are required to complete the following:

General Education Requirement: a core of broad-based courses designed to provide experiences in communication, humanities/fine arts, social/behavioral sciences, natural sciences/mathematics, physical education, and computer information systems. This requirement ranges from 49 to 62 credit hours depending on the degree selected. *Students who complete general education courses at other institutions should refer to the statement on transfer of general education courses on page 120 of the Catalog.*

In keeping with our Christian mission and traditional concepts of a liberal arts education, the general education curriculum at Howard Payne University is a designated set of disciplines and courses that provides an academic foundation for each student - an exposure to varied thought and inquiry, with the invitation to pursue additional knowledge. These six foundations are Spiritual, Physical, Communicative, Scientific and Technological, Aesthetic, and Social.

Spiritual Foundations - Spiritual Foundations use the study of the Old and New Testaments to expose students to how Christian faith reflects the spiritual and religious dimensions of human experience in a rapidly changing social environment.

Christian Studies: Students who take BIB 1303 and 1304 will develop a greater understanding of, and appreciation for, the Bible. Also, students who take BIB 1303 and 1304 will find their encounter with the Bible to impact their values and/or their spiritual lives.

Physical Foundations - Recognizing that physical fitness is a requirement for good health, Physical Foundations provide students with concepts and activities that help to build lifelong skills, healthy lifestyles, and optimal fitness and wellness.

Academic Information

Exercise Sport Science: The student will demonstrate a level of competency commensurate with lifetime physical activity that allows for (1) physical fitness appropriate for maintaining good health, (2) neuromuscular skills and knowledge of physical activity appropriate for maintaining continued involvement in lifetime recreational activities, and (3) the understanding of the value of human movement as it relates to beneficial psychological and spiritual health.

Communicative Foundations - Communication is at the center of students' literacy and cultural understanding. Communicative Foundations teach students to think critically, communicate effectively in written and spoken modes, and read with understanding and appreciation. Exposure to a foreign language and its culture is essential to the concept of a liberal education and promotes an enlightened and culturally broadened Christian view of our world.

English: Students in general-education English courses will become adept at using information technology and at developing research skills, will improve their vital language skills, and will enrich their appreciation of the beauty and value of our literary heritage.

Modern Language: Students in the General Education sequence in Modern Languages will be able to communicate above the low intermediate level according to the ACTFL guidelines.

Communication: Students taking general education courses in Communication Studies will learn effective communication skills in the context of public speaking, interpersonal communication and small group communication.

Scientific and Technological Foundations - Scientific and Technological Foundations develop students' abilities to solve problems and reason analytically. They also provide tools and concepts that enable students to function capably in an information age. These foundations expose students to scientific ideas and methods critical to participating responsibly in the modern world.

Computer Information Systems: Students successfully completing The Introduction to Information Technology will learn about the role of information technology in the past and in today's global society; will develop competency in commonly used software programs; and will develop skills in on-line research.

Science and Mathematics: The general education purpose of the School of Science and Mathematics is to enable students to develop a scientific literacy, through: (1) appreciation of the contributions of science to modern life; (2) development of an awareness of measures necessary for personal safety and ecological responsibility in this scientific era; and (3) development of a background of information in the natural science discipline studied.

Aesthetic Foundations - Aesthetic Foundations foster students' understanding of the human spirit through art, music, and drama.

Music: Students taking general education courses in Music will achieve recognition and understanding of musical vocabulary and the ability to distinguish between the different families of musical instruments. They will be able to recognize music from a wide variety of styles and historical periods, and from these studies they will become informed

listeners. In applied studies, students will learn the principles and techniques of musical performance, and through ensemble experiences they will gain an understanding of the individual's role and responsibility in a corporate musical experience.

Art: Students taking art courses for fine arts credit will learn to appreciate the contribution of the visual arts to world culture.

Theatre: Students taking general education courses in Theatre will learn general information about theatre history, theatre architecture, stage terminology, play analysis, and different theatre genres and literature as well as some basic acting theory and techniques.

Social Foundations - Social Foundations explore the intersections of the individual and society in many forms. History shows students how people lived in the past and how their cultures formed their world. American government acquaints students with the basic tenets of politics and encourages responsible participation in government. In addition to these required courses, students can enhance their understanding through courses in sociology, psychology, history, or government.

History: Students taking the general education course in history will develop the skills required to seek knowledge, analyze complex issues and present conclusions in a clear and thoughtful manner as well as have an improved understanding of American history

Political Science: Students taking the general education course in political science will develop the skills required to seek knowledge, analyze complex issues and present conclusions in a clear and thoughtful manner as well as learn the basic theoretical and philosophical tenets of politics and the American political system.

Psychology: Students taking a psychology course, as a part of the general education requirement, will learn to understand themselves and others better by taking into consideration the emotional, social, cultural, and environmental and heredity factors which cause people to act as they do.

Individual majors may encourage or require additional coursework beyond this foundational core. Thoughtful students will synthesize and integrate these varied academic foundations as they develop their own individual interests, beliefs, life goals, and intellectual and spiritual priorities.

Major: a subject or academic discipline chosen as the primary field of study. **All students must have a major.** Within the Bachelor of Arts, Bachelor of Science, and Bachelor of Applied Arts and Sciences, this requirement ranges from 30 to 55 credit hours. Within the Bachelor of Music, this requirement ranges from 62 to 81 hours. A major in the Bachelor of Business Administration requires a common business core of 30 hours plus a major of 27 hours. Several majors within the university require that the student select an area of emphasis within the major, comprising a sub-level of intense concentration within the broad discipline of the major. Several majors within the university are considered Interdisciplinary majors, comprising a combination of courses from several disciplines to make up the primary field of study. Similar to interdisciplinary majors, a composite major is comprised of a combination of courses from several disciplines. A composite major should consist of up to a maximum of 60 semester hours with dual counting of general education courses.

Academic Information

Optional Minor: a series of courses, ranging from 18 to 24 credit hours, within a single department that constitutes a secondary field of study. Some programs may propose additional specific requirements or recommendations for their majors. A student choosing the traditional minor should check the information in the introductory statements of the appropriate department for the required courses.

Electives: individual courses selected at the discretion of the student in consultation with an academic advisor.

Within the associate degrees, students are required to complete the following:

The Associate in Ministry is a 64-credit hour program composed of three basic blocks: 29 hours of general education, 30 hours of ministry concentration, and 5 hours of electives.

The Associate in Health Science degree program is designed to allow a student to complete prerequisites for a program that is to be completed at another university.

The specific requirements for the degrees, majors, and minors available in each school are provided on the appropriate pages for the various schools of the university. Choosing a degree, major, and minor early in their academic career, will allow a student to select and enroll in courses which will lead to successful fulfillment of all requirements for their degree completion.

General Education Requirements for Degrees

Evidence of good moral character, fulfillment of all general and specific academic requirements and formal approval by the faculty and the Board of Trustees are the essential conditions for receiving any of the degrees listed above.

Chapel/Student Assembly is required of students attending Howard Payne University. A Bachelor's Degree requires completion of four semesters, or credits, of chapel/student assembly attendance for graduation. An Associate's Degree requires two semesters, or credits, of chapel/student assembly attendance for graduation.

Students should review the items listed below as they could affect their degree completion and delay their graduation.

General Education Requirements are a core of broad-based courses designed to provide experiences in communication, humanities/fine arts, social/behavioral sciences, natural sciences/mathematics, physical education, and computer information systems. This requirement ranges from 49 to 62 credit hours depending on the degree selected.

As a part of the General Education Requirements, by the time students have completed 24 semester hours, they must have successfully completed or be enrolled in ENG 1311, CIS 1339, COM 1310 and be continually enrolled in the appropriate mathematics class until the mathematics requirement has been met.

As part of the General Education Requirements, by the time students have completed 36 semester hours, they must have successfully completed or be enrolled in ENG 1312. Compliance with this requirement is expected regardless of the catalog under which a student's degree is pursued. No waiver of this requirement can be made except by the provost.

The General Education Requirements for education majors includes additional courses; therefore, teacher education candidates should review the School of Education section of the catalog.

Two hours of ESS activity courses (2-hours Class A or 1-hour Class A and 1-hour Class B) or ESS 2340 Personal Fitness and Wellness are required, **but only four hours ESS activity courses may be counted toward a degree.** More than four hours of physical activity classes may be counted toward a degree when the classes are required as part of a major, minor, or area of interest such as those in Exercise and Sport Science.

To fulfill the Foreign Language requirement in the Bachelor of Arts degree, all 12 hours must be completed in a single language. Sign Language, completed at an accredited institution, is approved as a foreign language.

To fulfill the requirement for 4 or 8 hours of Natural Science with a lab, students must complete a Life Science with a lab (Biology) and/or a Physical Science with a lab (Chemistry, Geology, Physical Science, or Physics).

A maximum of 6 hours from any one department (HIS, PSY, SOC, POS, GEG) may be used to fulfill the 12 hours of Social Foundations. Example: 6 hours History and 6 hours Psychology or 6 hours Political Science and 6 hours Sociology.

Students who score 14 or below on the English section of the ACT test (11 or below on the pre-1989 ACT) or 260 or below on the SAT are required to pass ENG 1304 Developmental English, a preparatory college English course, prior to enrollment in ENG 1311.

Students who score 16 or below on the mathematics section of the ACT test (11 or below on the pre-1989 ACT) or 340 or below on the SAT will be required to complete MAT 1303.

Six semester hours of Developmental Program courses may count toward a student's degree completion as elective credit, although all developmental courses completed become part of the student's academic record and are included in the student's cumulative grade point average. Excess developmental course hours completed are deducted from the student's cumulative hours. Developmental Program courses are non-transferrable. If a developmental course must be repeated to improve the course grade, it can only be repeated at Howard Payne University. Additional information about the Developmental Program may be found in the Academic Support Services section of the catalog.

Specific Requirements for a Bachelor's Degree

A candidate for the bachelor's degree must:

1. File a degree audit with the Office of the Registrar no later than the completion of sixty semester hours. A new degree audit or revisions to an existing degree audit for a graduate may not be filed later than two weeks prior to graduation.
2. Transfer students must complete a minimum of 62 non-junior college hours. Non-junior college hours may include senior college or university hours, ACE Guide credit, military credit, civilian training credit, CLEP testing, DANTES testing, and Regents College testing.
3. Complete in residence a minimum of twenty-five percent of the credit hours required for the degree, of which at least eighteen (18) semester hours must be advanced. Twelve (12) of the eighteen advanced hours are required in the major.

Academic Information

4. Have a minimum cumulative grade point average of 2.50 in the major or teaching field.
5. Have an overall cumulative grade point average of 2.00 or better.
6. A minor shall consist of 18 to 24 semester hours. A minimum of six semester hours must be advanced (3000-4000) unless otherwise stipulated in the department's description of the minor. An average of "C" (2.0) or better is required in the minor.
7. Present no more than thirty semester hours by credit by examination (including Advanced Placement, CLEP, ACT, SAT, DAN TES or other nationally recognized examinations), or credit for military and civilian training.
8. All degrees require the completion of two hours of exercise and sport science activity courses - two class A or one class A and one class B. All students, with the exception of those pursuing an Exercise and Sport Science major, may use only four hours of ESS activity course credit toward the cumulative hours required for degree completion.

The four hours of ESS activity course credit include credit awarded for participation in varsity athletics (ESS 1142). Varsity athletic credit may be used for elective credit only and only one semester hour of varsity credit may be used in meeting degree requirements.
9. Bachelor of Arts and Bachelor of Science degrees, beginning with the 2009-2011 catalog, require the completion of a minimum of 124 cumulative semester hours. Bachelor of Arts and Bachelor of Science degrees pursued under catalogs prior to 2009-2011 require the completion of a minimum of 128 cumulative semester hours. All other Bachelor degrees pursued under the 2011-2012 and all prior catalogs require the completion of a minimum of 128 cumulative semester hours.
10. Transfer credit needed to fulfill degree requirements for graduation, must be received by the Office of the Registrar by the close of final exams in December, May, and August for December candidates, May candidates, and August candidates.
11. Receipt of official transfer credit after the stated date may result in the graduate being moved to the next graduate date.
12. Pay all fees.
13. Have completed **University Seminar (UNS 1001)** or an equivalent course and four chapel/student assembly credits.
14. Order diploma by October 1 for December graduates, February 1 for May graduates, and April 1 for August graduates.
15. Students completing degree requirements in December, May, or August must attend commencement unless officially excused by the provost. A written request to graduate "in absentia" must be submitted to the Office of Academic Affairs.
16. Have a student account paid in full before graduating or participating in graduation ceremonies.

Requirements for Teacher Certification

Students should see the School of Education section of this catalog and the dean of the School of Education for details and specific courses required.

Students seeking teacher certification must be jointly advised by the academic advisor from their major field and the Teacher Certification officer. Degree audits must bear the signature of both advisors.

Specific Requirements for an Associate's Degree

A candidate for the associate's degree must:

1. File a degree audit with the Office of the Registrar no later than the completion of thirty semester hours. A new degree audit or revisions to an existing degree audit for a graduate may not be filed later than two weeks prior to graduation.
2. Complete a minimum of sixteen hours in residence.
3. Present no more than fifteen semester hours by credit by examination (including Advanced Placement, CLEP, ACT, SAT, DAN TES or other nationally recognized examinations), or credit for military and civilian training.
4. Have a minimum cumulative grade point average of 2.50 in the concentration.
5. Have an overall cumulative grade point average of 2.00 or better.
6. Complete a minimum of 64 semester hours including one exercise and sport science activity course.
7. Transfer credit needed to fulfill degree requirements for graduation, must be received by the Office of the Registrar by the close of final exams in December, May, and August for December candidates, May candidates, and August candidates.
8. Receipt of official transfer credit after the stated date may result in the graduate being moved to the next graduation date.
9. Pay all fees.
10. Have a student account paid in full before graduating or participating in graduation ceremonies.
11. Order diploma by October 1 for December graduates, February 1 for May graduates, and April 1 for August graduates.
12. Students completing degree requirements in December, May, or August must attend commencement unless officially excused by the provost. A written request to graduate "in absentia" must be submitted to the Office of Academic Affairs.
13. Have completed **University Seminar (UNS 1001)** or an equivalent course and two chapel/student assembly credits. This requirement may be waived for students attending classes at Howard Payne's extension campuses.

Degree Audit Required

A degree audit must be filed by each student by the time he/she completes sixty hours. For teacher education candidates, the degree audit must be filed prior to admission to the teacher education program. A degree audit request is submitted to the Office of the Registrar by the student. The degree audit is official when submitted with the signature of the student, the student's advisor, the department head of the major, the department head of the minor, and the school dean of the major. If the student is seeking teacher certification, the teacher certification officer's signature must also be obtained. Students must accept the responsibility for filing degree audits on time and accept the consequences for late filing. A student who has completed sixty hours and has not filed a degree audit may be delayed from registering for additional courses until a degree audit is filed.

The student is ultimately responsible for the accuracy of the degree audit as specified in the catalog under which the audit was filed. Degree audits may be amended by filing a Degree Audit Substitution form which is available in the Office of the Registrar.

Extension campus students, who are requesting state or federal financial aid, must file an official degree audit during their first semester of enrollment as a means of verifying that the student is a regular, degree-seeking student.

Recipients of VA educational benefits are required to file a degree audit upon their initial enrollment. The degree audit is used by the university to fulfill the requirements set forth by the Veterans Administration and the Texas Workforce Commission in tracking the progress of VA educational benefit recipients toward their stated degree. All other requirements for signatures, accuracy, and amendments are as stated above for all other students.

Catalog of Graduation

Students have six years from their term of original registration to complete a degree program under the catalog in effect when they initially registered. A student may choose a subsequent catalog under which to complete graduation requirements, provided the student has completed at least one course during a semester in which the selected catalog was in effect. The student must complete all degree requirements under the subsequent catalog. Choosing a new catalog begins a new six-year time limit.

Fine Arts Requirement

The following courses will fulfill the fine arts requirement. Students should choose three semester hours from one of the following categories in accordance with the general education requirement stated:

ART	1311	Drawing I
	1361	Art Appreciation
	2321	Painting and Composition I
	3312	History of Art I

Bachelor of Applied Arts and Sciences

This degree is designed to offer students with vocational-technical training the opportunity to obtain a baccalaureate degree. Students may obtain credit toward this degree via accredited college-level course work, certain types of professional and educational training, and/or credit by examination. Majors offered under the Bachelor of Applied Arts and Sciences are General Studies, Christian Studies, Business Administration, and Criminal Justice.

Specific Requirements for the Degree

- Sixty-six hours of college-level credits earned at a junior college are applicable to this degree.
- A maximum of thirty semester hours may be accepted in this program by a combination of assessed evaluation or credit by examination. Credit by examination may be obtained through several sources – CLEP, DANTES, Excelsior (Regents College of New York), Thomas Edison College of New Jersey, etc. Students may contact the Office of Academic Testing to obtain additional information about the availability of tests and about sites where the tests may be taken.
- Technical/vocational courses will be accepted **only as elective credit** from accredited vocational/technical schools, or by assessment of credit accomplished in a non-collegiate setting (see page 103 for additional information on credit accepted from civilian training programs such as law enforcement training under TCLEOSE), which has been evaluated and recommended for credit by an organization generally recognized as an authority within higher education, such as the American Council on Education.
- This degree might be used for a post-baccalaureate teacher certification program. Additional information regarding a post-baccalaureate certification program may be found in the School of Education section of this catalog.

Majors and Composite Majors

A **General Studies major** is intended for students interested in a broad, general program for personal enrichment. The General Studies major is acceptable in settings that may not require specific traditional degrees. Students electing this major are aware that this is a degree program which may not be acceptable for teacher certification, or admission to some professional or graduate schools. The General Studies major requires forty junior-senior level

Academic Information

semester hours. A maximum of twenty-one junior-senior hours may be earned in any one department.

The **Christian Studies major** is a 36-hour major composed of a 24-hour core and a 12-hour concentration of upper-level Christian Studies courses. Concentrations are available in Bible, Biblical Languages, Cross-Cultural Studies, Practical Theology, Christian Education, and Youth Ministry in addition to a composite major chosen from Christian Studies courses. This major may be a significant component in preparation for bi-vocational Christian ministry.

The **Business Administration major** is a 36-hour major composed of various required courses offered in the School of Business.

The **Criminal Justice major** is a 30-hour major composed of an 18-hour core and 12 hours of Criminal Justice electives chosen from a specific list of courses

The specific requirements of each major or composite major may be found in that department’s section of the catalog.

Liberal Arts and Sciences Major under the Bachelor of Arts Degree

The Liberal Arts and Sciences major is an interdisciplinary degree program devoted to the integration and synthesis of classical disciplines addressing the concerns of humanity. The major seeks to build upon the knowledge and skills base of the general education core by allowing the student to pursue a broader spectrum of coursework in the humanities tradition. The liberal arts and sciences major is particularly relevant for those students seeking a broad-based degree which stresses critical thinking, problem-solving, effective communication and reflective thought of the human experience.

The Liberal Arts and Sciences major is a 36-hour major comprised of three academic discipline areas. Two of the three areas must be in academic disciplines offered within the School of Music and Fine Arts, the School of Science and Mathematics, and/or the School of Humanities. The third area may be in any academic discipline from any school (except teacher certification in the School of Education). The 12 hours in each academic discipline must be in addition to the courses required for the general education core (no “double-dipping”) and six hours in each area must be upper division (3000/4000).

Since the Liberal Arts and Sciences major leads to a Bachelor of Arts degree, the student is required to take 12 hours of a modern foreign language or 12 hours of biblical languages. Additionally, liberal arts and sciences majors are required to develop a related minor consisting of: PTH 1311 Introduction to Theological Reflection; PTH 3321 Theology and Culture; and 12 hours in any academic discipline (except teacher certification); a minimum of six hours must be upper division. The structure of this major, coupled with the minor related area, gives the student four areas of concentration and a foreign language.

Those students interested in pursuing a graduate degree should check with the respective graduate program to verify possible prerequisite course work.

Major:

Area #1	—	12 hours in any academic discipline from the School of Humanities, the School of Music and Fine Arts, or the School of Science and Mathematics; six hours must be upper division.
Area #2	—	12 hours in any academic discipline from the School of Humanities, the School of Music and Fine Arts, or the School of Science and Mathematics; six hours must be upper division.
Area #3	—	12 hours in any academic discipline from any school (except teacher certification in the School of Education); six hours must be upper division.
<hr style="width: 20%; margin-left: 0;"/>		

Total Hours - 36

Minor Related Area:

PTH 1311	—	Introduction to Theological Reflection
PTH 3321	—	Theology and Culture
Area #4	—	12 hours in any academic discipline from any school (except teacher certification in the School of Education); six hours must be upper division.
<hr style="width: 20%; margin-left: 0;"/>		

Total Hours - 18

Choosing a Minor

Minors are optional. Choosing a minor must be done in consultation with the academic advisor and approved by the head of the department minor. Some programs may propose additional specific requirements or recommendations for their majors. A student choosing a traditional minor should check the introductory statements of the appropriate department for the required courses. Traditional minors, when completed and upon graduation, will be noted on the official record of the student. Most traditional minors are composed of courses chosen with the same departmental prefix; however, composite minors, composed of courses from different departmental prefixes, are available in some departments.

Sources of Academic Credit

Howard Payne University accepts transfer and limited other means of achieving academic credit, based on the *Principles of Accreditation* of the Southern Association of Colleges and Schools. These sources for achieving academic credit are described below. References in several locations in the Howard Payne University Catalog describe in more complete detail the university's policies and limitation on credit from sources other than Howard Payne University.

- **Credit for ACT/SAT Scores.** Credit will be awarded to beginning freshmen that enroll at Howard Payne University their first semester following high school graduation if the student's scores fall within the range determined by the university.
- **Transfer credit.** Academic and technical/vocational credits may be transferred from post-secondary institutions accredited by one of the six regional accrediting associations, or from institutions accredited by a professional accrediting association approved by the Council on Higher Education Accreditation (CHEA).
- **Credit by examination.** Credit may be earned through tests administered by one of the nationally recognized testing agencies such as CLEP, DANTES, Excelsior (Regents College of New York), etc.
- **Departmental challenge examinations.** The faculty in various departments within the university may prepare and administer credit examinations for specific courses in the Howard Payne University curriculum in those instances where a national examination that corresponds to the academic content of the specific course is unavailable.
- **Assessed credit.** Education achieved in a non-collegiate setting such as military service school or certain civilian employer training programs may be assessed for appropriate academic credit. The assessment is based on recommendations of organizations generally recognized as an authority by the higher education community. The American Council on Education (ACE) and the Texas Commission on Law Enforcement Officers Standards and Education (TCLEOSE) are examples of such organizations.
- **International Baccalaureate Diploma Programme.** Credit may be awarded for higher level (HL) International Baccalaureate courses completed with a grade of 5 or higher by students who complete the IB Diploma Program and submit a transcript of their grades.
- **International transfer credit.** Credit proposed to be transferred to Howard Payne University from an educational institution outside the United States must be evaluated by a service provider that specializes in the evaluation of international transcripts. Such an evaluation will produce a translation of the original transcript, an evaluation of the educational level of all coursework, and other information that is necessary to make appropriate transfer decisions. The evaluation of international transcripts must be course-by-course.

Academic Information

Credit for ACT/SAT Scores

Credit will be awarded to beginning freshmen who enroll at Howard Payne University their first semester following high school graduation if the student's scores fall into the following categories:

ENGLISH ACT: 30 - 36 ENG 1311 (3 semester hours)	VERBAL SAT I: 610-800 ENG 1311 (3 semester hours)
MATHEMATICS ACT: 28 - 36 MAT 1351 (3 semester hours)	MATHEMATICS SAT I: 570-800 MAT 1351 (3 semester hours)
READING ACT: 26 or above - 3 semester hours of elective credit	SCIENCE REASONING ACT: 26 or above - 3 semester hours of elective credit

Transfer of Credit

Howard Payne University will award transfer credit (semester hour credit only) for courses passed at the granting institution provided the grade meets the standard set by the equivalent course at Howard Payne University. Most General Education and Elective courses may count toward the degree with a grade of "D" or better. Most courses within the Major and Minor, including prerequisites, count toward the degree only with a grade of "C" or better. (See Program and/or Course Descriptions for specific grade requirements.)

To complete Howard Payne University degree requirements, transfer students must complete **a minimum of 62 non-junior college hours**. Non-junior college hours may include senior college or university hours, ACE Guide Credit, military credit, civilian training credit, Advanced Placement Credit, CLEP testing, DAN TES testing, and Regents College testing. **No more than 104 hours** from any other institution or institutions (senior college and junior/community college hours combined) will be counted toward a degree and no more than thirty semester hours will be accepted from an accredited theological seminary. **A maximum of 66 junior or community college hours** may be used toward a student's degree completion.

To earn a degree at Howard Payne University, transfer students are required to complete **a minimum of thirty-two hours in residence**. **At least eighteen** of the thirty-two in residence hours must be upper-division (3000-4000 level) with the additional requirement that **a minimum of twelve** of the eighteen hours must be completed in the major. If a transfer student chooses to complete a minor, six of the eighteen upper-division hours in residence must be completed in the minor. Junior college hours cannot be accepted for upper-division credit.

All work accepted from another college or university becomes a part of the student's permanent academic record at HPU. Coursework transferred or accepted for credit toward a degree must be completed at an institution accredited as degree-granting by a post-secondary regional accrediting commission at the time the student completed the coursework. Subject to specific degree requirements, work may or may not be acceptable toward a degree. If HPU requires a minimum grade for a course, the same minimum grade will be required for transfer work.

General Education courses applicable to degrees offered by Howard Payne University may

be transferred from other post-secondary institutions as long as they are acceptable toward the general education requirement of the institution where the course was taken, and match the general education criteria found on page 83 of the 2011-2012 Catalog. A listing of courses, which meet general education requirements at Howard Payne University, offered by Texas community colleges and universities, is available in the **Appendix** under **Texas Common Course Numbering System**.

Current Howard Payne students, who wish to take coursework at another college or university and transfer the credit back to Howard Payne, must obtain written approval prior to enrolling in the other college or university. Students must complete a **Request for Transfer Course Approval** form and obtain the signature of their advisor and the Registrar's Office. Howard Payne University is under no obligation to accept or apply the transfer credit toward the student's degree if the student fails to obtain approval prior to enrolling in the transfer course.

The Request for Transfer Course Approval is critical for Howard Payne University students who need to repeat a course or courses at another college or university. To be counted as a repeat, the transfer course must be an exact match to the HPU course that needs to be repeated. If a student wishes to repeat courses taken at Howard Payne University in order to raise their cumulative grade point average, the courses must be repeated at HPU. Courses repeated at other institutions will be accepted as semester hours only.

If additional information concerning repeated coursework is needed, review the catalog section titled "Repeated Courses."

Transfer work taken at another college or university while a student is academically suspended from Howard Payne University will not be accepted.

Concurrent Enrollment at Other Institutions

Current students with individual hardship situations, which might be improved by their having concurrent enrollment at another college or university, may request permission for concurrent enrollment through proper academic channels. Students must complete a **Request for Transfer Course Approval** form and obtain the signature of their advisor and the Registrar's Office prior to concurrently enrolling in another institution. If permission is granted, the credit hours earned, but not the grades or grade points, may be applied toward degree requirements at Howard Payne University. Semester course load limits at HPU are not waived for students seeking concurrent enrollment. (Concurrent enrollment includes distance learning and/or in-residence coursework taken for credit at another college or university while enrolled at Howard Payne University.)

Vocational/Technical Courses

Vocational/Technical courses will be accepted from degree-granting institutions recognized by one of the six regional accrediting agencies or a professional accrediting body responsible for freestanding institutions within a specialty. Credit will not be awarded from unaccredited technical schools or commercial colleges.

Vocational/Technical credit may not be applied to the general education, major, or minor requirements in any degree program. Vocational/Technical credit will be accepted only as elective credit in the Bachelor of Applied Arts and Sciences degree.

Credit by Examination

Howard Payne University encourages academically gifted students by providing a system of earning credit through examination. These examinations do not satisfy residence requirements and will not be made a part of the student's transcript until the student has successfully completed twelve semester hours of college work at Howard Payne University. Students who have taken or plan to take such advanced standing examinations as Advanced Placement, CLEP, ACT, SAT, DANTES or other nationally-recognized examinations are encouraged to submit scores or contact the Office of the Registrar. A maximum of 30 semester hours from CLEP, APP, and SAT/ACT scores may be applied toward a degree. A list of CLEP and APP Subject tests and required scores may be found in the Appendix of this catalog.

College Level Examination Program (CLEP)

1. Any student enrolled in Howard Payne is eligible for the tests which are subject to approval by the specific school and department in which the subject appears.
2. **No subject attempted in class may be repeated by advanced standing examination.**
3. An unacceptable score on an advanced standing examination requires that the student take the appropriate class if it is required on the degree audit.
4. Howard Payne University does not accept CLEP general tests.
5. Tests are administered by Howard Payne University's academic testing services.
6. Credit will be granted for examination scores that are equivalent to a grade of "C" or better. A grade of "CR" will be given, not a letter grade. The student has the option of refusing credit on any test. If the student elects not to accept credit for such a test, he/she must do so in writing within fifteen days after notification of scores is received. After a decision is made either way, it cannot be changed. The student's request will be on file in the Office of the Registrar.
7. Test fees are determined by the testing service providing the test.
8. If a student is not given credit after taking the test, the test cannot be repeated.

Departmental Challenge Tests

1. Departmental challenge tests may be taken in areas where the CLEP test is not available.
2. **No subject attempted in class may be repeated by departmental challenge tests.**

Procedure:

1. Present the approved permission card to the Registrar's Office who will schedule the examination.
2. Pay the cashier \$50 per semester hour of credit sought.
3. Present the approved examination schedule card to the head of the department on the day the examination is to be taken.

4. Department head will send the card to the Registrar's Office, showing the grade within three days after the examination.
5. If the examination is passed with a grade of "C" or better, a grade of "CR", not a letter grade, will be given for the course and recorded as such on the transcript.
6. If the grade is less than "C", the examination fee will not be returned, nor may it be applied to the student's account since this fee is for the examination purposes only.

The material for the examination and the grade for the course will be determined by the department giving the examination.

International Transfer Credit

To be considered for transfer credit, official international transcripts must be evaluated by one of the following service providers before being submitted to Howard Payne University. This evaluation is required in addition to the submission of an official international transcript to Howard Payne University. The evaluation of international transcripts must be course-by-course.

Assessed Credit College Credit for Military and Civilian Training

College credit may be gained by students who have completed military service schools or certain civilian training programs such as the law enforcement training program under the Texas Commission on Law Enforcement Officers Standards and Education (TCLEOSE). Credit for college work is based upon the recommendations found in "A Guide to the Evaluation of Educational Experiences in the Armed Services" and "The National Guide to Educational Credit

Academic Information

for Training Programs.” Such credit is applicable to Howard Payne University degree programs in a similar manner to transfer courses. The applicable semester hours earned and a grade of "CR" will be entered on HPU's official transcript. The credit does not satisfy residence requirements.

Any person honorably discharged from the military may receive up to four semester hours of credit for six months active duty (Basic Training). This credit may be used to fulfill the General Education-Exercise and Sport Science activity course requirement. A copy of VA Form DD-214 and an official transcript (such as AARTS or SMART) of training from the military branch in which the student served must be on file in the Registrar's Office before credit may be granted.

Attendance

In-Residence Attendance Policy

There is no system of free absences at Howard Payne University. **To ensure that students do not miss significant instructional material that jeopardizes their success in class, students are expected and urged to attend all class sessions.** Students have full responsibility for accounting to their instructor for absences. Absences are counted from the first day the class meets, not from the date the student registers. A student must attend class a minimum of 75% of the sessions in order to receive credit for the course. **Students who exceed the "allowable absences" automatically fail the course even if their work in the class is satisfactory.** The instructor in each course is expected to state an attendance policy in the course syllabus. Each student is expected to familiarize himself or herself with this policy at the beginning of each course. EACH INSTRUCTOR MAY ESTABLISH A MORE STRINGENT ABSENCE POLICY IF IT IS OUTLINED IN THE COURSE SYLLABUS. All absences, excused or unexcused, are counted as classes missed. Work missed for an excused absence may be made up but the absence is still considered in the total count. Students are expected to report for class on time. Habitual tardiness may, at the discretion of the instructor, be considered in computing class attendance.

The following chart shows the number of allowable absences for students using the current attendance policy:

Class	Total Class Meetings	75% Attendance	Allowable Absences
MWF	41-42 plus exam prep. & exam	31-32	10
TTh	28 plus exam prep. & exam	21	7
Once weekly	15 plus exam prep. & exam	12	3
5 days weekly	69 plus exam prep. & exam	52	17
3 week term	15 including exam	12	3
4 week term	20 including exam	15	5

When a student's number of absences (excused or unexcused) for any course exceeds 25% of the total class sessions, a grade of "WF" may be given for that course. Instructors have the prerogative to drop or withdraw students who exceed the university's absence policy or the more stringent absence policy outlined in the course syllabus.

The sponsor of an organized group chosen to represent the university off campus shall present to the provost, one week prior to an activity, a list of students who will be absent from

class. The list shall include departure and return dates. Approval of this list by the provost qualifies the absence as an excused absence.

Online Course Attendance Policy

Initial Online Course Participation

Howard Payne University is required by the U.S. Department of Education to ensure student financial aid recipients have commenced initial participation in coursework to be eligible for financial aid. In order to meet this requirement, Howard Payne University requires that all instructors report *by the eighth class day (official census day) of Fall and Spring classes and by the second day (official census day) of Summer classes* the participation (= attendance) of each student. Class participation or class attendance can be based on participation in a discussion board; finding, reading and taking a quiz based on the syllabus of the course; on having submitted an assignment, or having taken a quiz. Instructors must submit an attendance report even if all the students have attended/participated. By not recording initial course participation, the instructor could affect the student's financial aid eligibility and result in billing and collection problems for the student and Howard Payne University.

Online Course Attendance Policy

Online courses follow the University's attendance policy. Professors count attendance based on submission of assignments by specific due dates, by discussion board participation, or other academic-related activities (quiz, homework, sign-in sheet, etc.). Additional attendance monitors include logging on to a course on a regular basis (a minimum of once a week) and completing assignments on time. Deadlines for submitting assignments are treated like attendance in regular classes. A student's failure to complete a task will be considered an absence and will be treated in accord with University policies.

Attendance policies for a course are defined by instructors in the course syllabus. The last date of attendance will be determined by the student's most recent participation in course activities. Instructors whose courses are taught through Blackboard have access to Blackboard Course reports located within a course's Control Panel. Blackboard technical support recommends using the Access/Date area in the Overall Summary Report for identifying the last day of attendance for Census Dates, course withdrawal dates, etc.

Repeated Courses

Courses may be repeated at Howard Payne University to improve a grade. While all coursework taken remains part of the student's permanent academic record, only the highest grade earned for the course at Howard Payne University shall be counted toward University grade points and graduation recognition.

Courses may be repeated at another institution for transfer credit toward the degree but the grade earned at Howard Payne University remains calculated in the University grade point average and toward graduation honors unless and until replaced by repeating the course at Howard Payne University.

An exception to the above policy is as follows: When credit is transferred from another

Academic Information

institution for a course failed (a grade of "F") at Howard Payne University, the grade earned at Howard Payne University shall remain a part of the student's permanent academic record but shall not count in the calculation of University cumulative grade point average.

No University grade points shall be awarded for courses completed at another institution.

Howard Payne students who wish to take coursework at another college or university must obtain written approval prior to enrolling in the other college or university. Students must complete a Request for Transfer Course Approval form and obtain the signature of their advisor and the Registrar's Office. Howard Payne University is under no obligation to accept or apply the transfer credit toward the student's degree if the student fails to obtain approval prior to enrolling in the transfer course. The Request for Transfer Course Approval is critical for Howard Payne University students who need to repeat a course or courses at another college or university. To be counted as a repeat, the transfer course must be an exact match to the HPU course that needs to be repeated.

If a student wishes to repeat courses taken at Howard Payne University in order to raise their cumulative grade point average, the courses must be repeated at HPU. Courses repeated at other institutions will be accepted as semester hours only.

Double-Counting Courses

While courses may be used to fulfill two requirements, the hours **may not** be counted twice; therefore, additional hours must be planned to bring the total semester hours earned to the 124 or 128 hours needed to graduate.

Second or Subsequent Majors and/or Minors

A student may complete an additional major or majors or an additional minor or minors by fulfilling the following requirements.

- Students completing additional majors, each major must include at least 24 semester hour credits of coursework that do not count towards any other major or minor. All requirements for the second major must be completed including the minimum 12 advanced hours in residence required. A maximum of 6 hours required in the first major may be used to fulfill requirements in the second major.
- Students completing additional minors, each minor must include at least 15 credits of coursework that do not count towards any other major or minor. All requirements for the second minor must be completed including the minimum 6 advanced hours in residence required. A maximum of 3 hours required in the first minor may be used to fulfill requirements in the second minor.

NOTE: Student may be required to take additional hours if their chosen major and minor require the same courses.

Pursuing Additional Degrees

Students may qualify for a second, and different, bachelor's degree by completing additional hours in residence after the first degree has been awarded. Any student holding a baccalaureate degree from Howard Payne University may earn a second baccalaureate degree differing in basic academic subject area and concentration from the first degree by completing the following requirements:

- A minimum of an additional 24 semester credit hours in residence above the total hours required for the first degree. Twelve of the additional semester credit hours must be advanced (3000 or 4000 level courses).
- Any additional requirements of the department approving the respective degree plan.
- All other University requirements for the degree sought.
- The major for the second degree must differ from the first.
- If a student wishes to seek a minor on a second degree, it must be in a different field from the major or minor on the first degree and must include a minimum of twelve additional hours taken in residence beyond the hours in that field taken on the first degree. At least six of the additional hours must be advanced. All the basic requirements for all minors also apply.

Grades and Grade Points

At the end of each semester and summer term final grades are made available to students electronically through CampusConnect and are recorded on their permanent record in the Office of the Registrar. Grade reports are no longer mailed to students.

The system of grading and of calculating grade points is as follows:

GRADE	INTERPRETATION	GRADE POINTS
A	Excellent	4 per semester hour
B	Good	3 per semester hour
C	Average	2 per semester hour
D	Passing	1 per semester hour
F	Failing	0 per semester hour
I	Incomplete	0 per semester hour
P	Passing	0 per semester hour
WP	Withdrew passing	0 per semester hour
WF	Withdrew failing	0 per semester hour
WA	Administrative withdrawal	0 per semester hour
NG	No grade	0 per semester hour
AU	Audit	0 per semester hour
WAU or WD	Withdrew from Audit	0 per semester hour

The lowest passing grade is a D. Incomplete grades must be removed by the end of the next regular semester, exclusive of summer school, or they will be changed automatically to an F. Grades are decided by the instructor. Any change or re-evaluation of a grade can only be done by the instructor, or as an outcome of the academic appeals process.

No grade change can be made after the lapse of one calendar year unless there is a petition made by the instructor to the Dean's Council.

Academic Information

Incomplete Grade (I) or No Grade (NG)

The decision to give an “incomplete” can be given under conditions that are beyond control of the student such as illness, injury, or death in the family. Forms for requesting an “incomplete” are available to students in the Office of the Registrar. Incomplete grades must be removed by the end of the next regular semester (Fall or Spring), exclusive of summer school, or the **I** grade will be changed to an **F**.

A student receiving an **NG**, no grade, from an instructor has one regular semester (Fall or Spring), exclusive of summer school, to remove it or the **NG** will be changed to an **F**.

Pass/Fail Grading Option

Up to six semester hours, in addition to the required exercise and sport science activity courses, may be taken in the major or minor as pass/fail if specified in the course description, or if the course is an elective.

This option may not be chosen for general education courses or to repeat a course for which a grade was given. Once chosen, the option to have a course graded as a pass/fail cannot be changed.

In order to receive a “pass,” the work in the course must be equivalent to a grade of “C” or better. A “pass” does not affect the grade point average in any manner, while a “fail” will be calculated in the grade point average as an “F.”

Dropping a Course

A student may withdraw from a class at any time during the semester **up to but not including examination week**. Class withdrawal forms, which must be submitted by the student, are available in the Office of the Registrar. A withdrawal grade request is sent to the instructor for a grade of **WP** or **WF** depending upon whether the student is passing or failing the course at the time of withdrawal.

A grade of **WP** will not affect the grade point average; however, a **WF** carries the same value as a grade of **F**. If the student has already failed a course because of absences, the instructor may assign a grade of **F** or **WF**.

A student may withdraw from a class in summer school up to **five class days prior** to the final examination. A **WP** or **WF** will be recorded just as it is for a regular semester.

Withdrawal from the University

Any student who finds it necessary to withdraw from the university during a semester should arrange for his official withdrawal through the Office of the Registrar. In the event of an emergency withdrawal, the student must notify the Office of the Registrar in writing of his/her intention to withdraw as soon as possible. The official date of withdrawal will be the date the request is received.

The university reserves the right to process an administrative withdrawal in the following circumstances:

- Disciplinary reasons
- Failure to meet admission requirements or contracts
- Failure to meet the terms of a financial contract
- Failure to meet the terms of an academic contract

The university refund schedule is applicable to administrative withdrawals. An administrative withdrawal is indicated on the student's transcript by the designation **WA**. An administrative withdrawal can only be given by the provost.

Voluntary withdrawal from school will result in a **WP** or **WF** being recorded. If a student fails a course due to lack of success in the course or as the result of the absence policy and withdraws, a grade of **WF** will be given.

Absence from class does not constitute official withdrawal from the class or from the University. A student must initiate withdrawal from the class or from the University in the manner prescribed. If a student fails to officially withdraw from the university, he will continue to be enrolled and will receive a grade of **F** for his courses. This may result in his being suspended and could block his way if he desires to continue college work.

No refunds or reductions from fees will be made unless the withdrawal is officially completed. An official withdrawal may result in some refund. (See Financial Information.)

Student "Leave of Absence" Policy

Should a student be required to leave the university as a consequence of being called to active duty or other military service outside the student's control, the student may take a leave of absence. The student may choose between two options, whichever works best for the student.

Option 1: Withdraw from the university with 100% refund (excluding meal plans).

Option 2: Take an incomplete (I) in the enrolled courses until he/she can complete the coursework when he/she returns.

Academic Information

Course Numbering System

Courses are numbered using four digits. The explanation is as follows:

The first digit indicates level:

- 0—Pre-collegiate
- 1—Freshman
- 2—Sophomore
- 3—Junior
- 4—Senior

The second number indicates semester hour credit:

- 0—0 hour credit
- 1—1 hour credit
- 2—2 hours credit
- 3—3 hours credit, etc.

The third number is to denote courses within a department.

The fourth number is used to indicate a different course within the discipline.

The Texas Common Course Numbering System (TCCNS) is a voluntary, co-operative effort among Texas community colleges and universities to facilitate transfer of freshman- and sophomore-level general academic coursework. The TCCNS provides a shared, uniform set of course designations for students and their advisors to use in determining both course equivalency and degree applicability of transfer credit on a statewide basis. The list of Howard Payne courses equivalent to TCCNS courses may be found in the Appendix on page 347 of the 2011-2012 catalog. A comparison of course equivalencies at TCCNS member schools is available on an online matrix at <http://www.tccns.org>.

Through SPEEDE, a technology used in administrative areas of education, student academic records may be moved electronically between colleges and universities. Howard Payne has the ability to send and receive electronic transcripts.

Academic Year

Howard Payne University defines an academic year as consisting of two long semesters (Fall and Spring) with a full-time undergraduate student required to enroll in and complete a minimum of 12 credit hours per semester for a total of no less than 24 credit hours over 30 weeks (15 weeks per long semester).

HPU offers three summer terms (May-Term, Summer I, and Summer II). A full-time undergraduate student in a summer term must enroll in no less than 6 credit hours. The academic year begins on June 1 (Summer I) and ends on May 31 (May-Term).

The summer is divided into two sessions. A maximum of two courses and an exercise and sport science activity course may be taken during each session.

This definition will apply to all eligible programs, including graduate programs, and will be used when administering all Title IV financial aid programs.

Minimum and Minimum Class Load

A semester hour represents one hour of classroom work per week per semester. The normal student load during a long semester is sixteen semester hours. A full-time student is one registered for twelve or more semester hours in a fall or spring semester. After their first semester of enrollment, a student who has a grade point average of 3.0 (B) or better may enroll in over eighteen hours if he desires **and** receives written approval from their advisor and the school dean of the student's major. Students will not be allowed to take more than twenty-one semester hours in any one semester. The overload approval must be presented to the Office of the Registrar.

A normal course load for a student enrolled in a four-week summer session is six semester hours. During the summer sessions, the student's advisor and the dean within the student's major must approve enrollment over seven hours. The maximum load for a student enrolled in the three-week May Term is six semester hours. Students must obtain written approval from their advisor and the dean within the student's major for enrollment exceeding six hours during May Term.

Auditing

A student desiring to benefit from the instruction in a course may audit the course if the space is available. An auditor is not entitled to have work evaluated by the instructor and the degree of participation is determined by the instructor. No credit or grade is received. The decision to audit must be done at registration and cannot be changed after the close of the registration period. Applied music courses (private lessons) may not be audited.

Special Studies

Each department within the university offers special studies courses of individualized work. These courses are designed for independent or group study in a field not often offered. Conference courses, directed studies, and courses not a part of the regular curriculum but offered on an irregular basis are considered to be special studies courses.

Special studies will be assigned a department designation, course number and prerequisites by the dean of the school in which the course is taken. The dean of the school and the provost must approve all special studies.

No more than six semester hours of special studies may be taken in a student's major, and no more than twelve hours of special studies may be applied to a bachelor's degree.

Honors Courses

Any course, with the approval of the dean of the school in which the course is offered and the provost, may be taken as an "honors" course. These courses involve a more intensive study of the subject than the same course taken regularly.

Academic Information

Classification

Students are classified as follows:

Freshmen	—	Students with less than thirty semester hours credit.
Sophomores	—	Thirty semester hours.
Juniors	—	Sixty semester hours.
Seniors	—	Ninety semester hours.

Academic Forgiveness

Academic Forgiveness gives students the option of electing to have course work, taken ten or more years prior to the starting date of the semester in which the student seeks to enroll, either to be counted as usual or to be ignored for admission purposes. Students who elect to apply for admission under Academic Forgiveness, and who are admitted, select the term at which Academic Forgiveness begins. Academic Forgiveness applies to all courses taken during the term selected, regardless of the grade earned, and to all courses taken prior to the term chosen. The academic work forgiven will remain on the student's permanent academic record but will not be included in the calculation of the cumulative grade-point average and will not be counted in the cumulative hours earned.

To request academic forgiveness, the student must submit a written request to the provost. The request must be submitted when making application for admission to the University. After consideration of the request, the provost will approve or deny the request and advise the Registrar's Office of the decision.

Academic Honors Recognition

Academic Honors Lists

The academic honors lists compiled at the end of a semester show the names of undergraduate students whose grade records are considerably above average. In order to provide the recognition these students have earned, the academic honors lists are distributed throughout the University community as well as to various other media.

The Honor Roll

Those outstanding undergraduate students who attain a grade point average of 3.50 to 3.64, with no grade of F, NG, or I, for all courses attempted while earning not less than twelve semester credit hours of academic coursework during the fall or spring semester.

The Dean's List

Those outstanding undergraduate students who attain a grade point average of 3.65 to 3.99, with no grade of F, NG, or I, for all courses attempted while earning not less than twelve semester credit hours of academic coursework during the fall or spring semester.

The President's List

Those undergraduate students who achieve a grade point average of 4.0 in all coursework

attempted while earning not less than twelve semester credit hours of academic coursework during the fall or spring semester attain the distinction of being included on the President's List. A special citation goes to this group of students. The names of those students achieving the highest attainable grades denoting academic excellence comprise the President's Honor Roll and are released at the conclusion of each semester.

Honor Roll Students in Travel Classes

To qualify for each of these lists, students must attempt and earn a minimum of 12 semester hours with no incomplete grades ("I" or "NG") or failing grades for the semester. One exception to this requirement is students who enroll in classes which require a travel component that occurs after the close of a semester. The grade of "NG", submitted at the end of the term, is changed after completion of the trip and the submission of required reports, journals, etc. Instructors are required to submit final grade changes for the travel classes by February 1 for fall semester classes and August 1 for spring and summer semester classes. Semester grades will be reviewed a second time on February 1 and August 1 to determine if students enrolled in the travel classes qualify for the Honor Roll, Dean's List, or the President's List.

Graduating with Honors

Graduation honors recognition will be calculated solely on the basis of grades earned at Howard Payne University. In order to qualify for graduation honors, a student must complete a **minimum of 60 semester hours of coursework at Howard Payne University**, including 18 upper-division hours within the major. Graduation honors will be as follows, according to the grade point average calculated by the Registrar: **Cum Laude**-a cumulative grade point average of 3.55 to 3.69; **Magna Cum Laude**-a cumulative grade point average of 3.70 to 3.84; **Summa Cum Laude**-a cumulative grade point average of 3.85 to 4.0.

Academic Probation and Suspension

All students will be placed on academic probation at the end of any semester in which the cumulative grade point average does not meet the following conditions:

- A grade point average of 1.6 or above when a student has attempted thirty (30) or less semester hours.
- A grade point average of 1.8 or above when a student has attempted thirty-one (31) to sixty (60) semester hours.
- A grade point average of 2.0 or above when a student has attempted over sixty (60) semester hours.

Academic Probation

Students will be placed on academic probation at the end of any semester that the cumulative grade point average does not meet the published level noted above for each classification. Probation will be imposed only after the student has attempted a minimum of twelve semester hours. Students placed on academic probation are students in "academic peril" and the University is committed to assisting these students. A variety of academic support services are made available such as content tutoring, workshops, advising, and supplemental instruction.

Academic Suspension

Academic suspension is an indication that a student may need to re-evaluate the academic demands of college. Students who are placed on academic suspension will be notified by mail at the end of a fall or spring semester. As a result of an academic suspension, a student is required to sit out the following long semester and may not take additional classes at Howard Payne until readmitted. **Every student who has been placed on academic suspension has the opportunity to apply for readmission.** Students are encouraged to use the time away to develop a plan which will maximize their opportunity for success when their studies are resumed.

Academic suspension is imposed under the following circumstances.

- If at the end of that probation period a student has not been removed from probation, he/she will be suspended for one long semester, exclusive of summer school.
- If a student fails to earn any semester hour credit, except in skills courses such as ESS activity courses or applied/private music, the student will be immediately suspended for one long semester.

Only those courses for which credit is awarded are counted as completed courses or earned hours. Courses with a final grade of **F, WP, WF, I or NG** will not be used in computing earned hours.

- A student who has not officially withdrawn from the university and fails to earn any credit, except in skills courses such as ESS activity courses or applied/private music, will be suspended for one long semester.
- A student who has officially withdrawn from the university and whose final grades are **WF** for all classes, except in skills courses such as ESS activity courses or applied/private music, will be suspended for one long semester.

- Any student who has been withdrawn from all of their classes by the faculty due to excessive absences, excluding skill courses such as ESS activity courses or private music, shall immediately be suspended from the university and will, at that time, no longer be eligible to participate in extracurricular activities, or live in the dormitories, or be eligible to participate in the food service program. Refunds, if any, will be based on the schedule published in the university catalog.

A student whose final grades are a combination of **WF and WP** for all classes, except in skills courses such as ESS activity courses or applied/private music courses, **will not be academically suspended**.

Students under suspension may not participate in any activity; such as but not limited to academic or extracurricular activities; fraternity or sorority organizations. Coursework taken at another institution while on academic suspension from Howard Payne is not transferable to Howard Payne University.

Students may reapply for admission after the period of suspension has been completed. If re-admitted, the student must improve the cumulative grade point average sufficiently so that he is not on probation or the process begins again.

Satisfactory Academic Progress

Students are considered to be in good academic standing if they are making satisfactory progress toward a degree. Students will be notified of their failure to meet the requirements for Satisfactory Academic Progress. Students who are not making satisfactory progress may not represent HPU in extracurricular activities.

This Satisfactory Progress policy does not apply to co-curricular activities. "Co-curricular activities" are activities in which participation is required by enrollment in a course that counts toward graduation requirements. The criteria of satisfactory progress for good academic standing follow.

Satisfactory academic progress will be evaluated at the end of each fall and spring semester. Students are evaluated on both a qualitative component and a quantitative component.

Qualitative Component / Cumulative Grade Point Average

30 or less semester hours attempted: cumulative GPA of 1.60 or above

31 to 60 semester hours attempted: cumulative GPA of 1.80 or above

Over 60 hours attempted: cumulative GPA of 2.00 or above

Quantitative Component

The University's satisfactory progress policy specifies the rate of progression required to ensure that student's complete their degree program within an acceptable time frame and that the rate is measured at each evaluation. The rate of progression is calculated by dividing the **total hours completed** by the **total hours attempted**.

The rate of progression required to meet the satisfactory progress requirement at Howard Payne University is **75%**. This is applicable at any enrollment status - full-time or part-time.

Academic Information

Attempted Hours

All hours are included in the attempted hours unless they are dropped by the census date. Repeated courses are counted in attempted hours for the purpose of determining the rate of progression percentage. Credit hours (including repeats) transferred from another school that are accepted toward the student's program are counted as both attempted and completed hours. Courses that are assigned a grade of "I", "NG", "WF", and "WP" are included in hours attempted.

Completed Hours

Only those courses for which credit is awarded are counted as completed courses. Credit hours (including repeats) transferred from another school that are accepted toward the student's program are counted as completed hours. Courses with a grade of "F", "W", "WP", "WF", "I", or "NG" will not be counted as completed hours.

Dual-Credit, Advanced Placement, ACT/SAT Score Credit, CLEP Credit

Academic credit/hours earned through dual-credit, advanced placement, ACT/SAT score credits and CLEP credit are considered in both "attempted" and "completed" hours when calculating a student's rate of progression.

Notification of Unsatisfactory Progress

The Office of the Registrar will notify students in writing of the results of a Satisfactory Progress review.

Appeals Process

Academic Suspension and Unsatisfactory Academic Progress

Howard Payne University requires that all students make satisfactory academic progress towards a degree, diploma or certificate to remain in good academic standing. The University believes that students are responsible for their own academic progress and for seeking assistance when experiencing academic difficulty. However, occasionally a student's failure to make satisfactory academic progress is due to extenuating circumstances; therefore, an appeal process has been developed for these situations.

Appeals will be considered for extenuating circumstances that may include, but are not limited to, the following reasons:

- Working full-time
- Illness of student or family member
- Separation or divorce
- Involved in an accident or natural disaster
- Death in immediate family
- Personal problems that affected attendance and/or grades
- Change of major or have declared double majors.

APPEAL PROCESS AND CHECKLIST

1. **Appeal Form with detailed information submitted by the student.** Appeal forms are available in the Office of the Registrar.

The student must clearly state on the appeal form the extenuating circumstance(s) contributing to the academic situation. In addition to the appeal form, the student must provide documentation of those circumstances, a description of what has changed to allow the student to make satisfactory progress, steps the student has already taken to address the issues, and the student's suggested plan of action for raising his or her GPA.

2. **Student Requested Letter from the Student's Advisor** - The student's advisor can provide insight about the student's academic performance as well as their recommendation about approving or denying the appeal and why. **The letter from the advisor is to be submitted directly to the Student Services and Academic Standing Committee. The letter may be in the form of an email directed to Glenda Huff, Director of Student Aid or Lana Wagner, Registrar.**

NOTE: If the student's advisor fails to submit the requested letter, the appeal will still be reviewed; **however**, the student must have requested the letter. Proof of the student's request, **such as a copy of the letter to the advisor or a copy of an email to the advisor**, must be submitted.

3. **In addition to the advisor's letter**, students have the option of asking another faculty member or staff member to write a letter to the Committee in support of the appeal.

DUE TO THE AMOUNT OF TIME INVOLVED PREPARING AN APPEAL, STUDENTS CANNOT EXPECT TO BEGIN GATHERING THE REQUIRED SUPPORTING DOCUMENTATION ON THE FINAL SUBMISSION DATE AND STILL HAVE THEIR APPEAL REVIEWED.

The **Student Services and Academic Standing Committee** will review all appeals submitted. Should the committee determine that an extenuating circumstances contributed significantly to the student's academic deficiencies, **and** there is evidence of an adequate plan to address these circumstances, they will approve the appeal and will recommend that the student be reinstated on academic probation. The student will receive a letter that outlines the conditions of the appeal.

The decision of the Committee is final and may not be appealed.

The listing below indicates where to submit particular appeals. Additional information related to student appeals may be found in the current Student Handbook.

STUDENT LIFE APPEALS - 1) Vice President for Student Life and Dean of Students;
2) Student Life Appeals Committee

ADMISSION APPEALS - 1) Student Services and Academic Standing Committee

FINANCIAL AID APPEALS - 1) Financial Aid Appeals Committee

ACADEMIC SUSPENSION and/or

UNSATISFACTORY PROGRESS - 1) Student Services and Academic Standing Committee

ACADEMIC AFFAIRS - 1) Department Head; 2) Dean of School; 3) Provost;
4) Dean's Council

Transcript Requests

A transcript of college work is an official copy of a student's permanent academic record bearing the college seal and the signature of the Registrar. A transcript is available only at the written request of a student to the Office of the Registrar. No one may pick up a transcript for another person without the written consent of the owner of the transcript (FERPA - Family Rights and Privacy Act-1974).

To request a transcript, a student may come directly to the Registrar's Office for assistance. If the student is not in the Brownwood area, the form on HPU's website must be completed, printed, signed, and mailed to the Office of the Registrar, 1000 Fisk Street, Brownwood, Texas 76801 or faxed to 325-649-8909. The transcript fee of \$5.00 for each official transcript may be paid by check, money order, or credit card.

Students should allow a period of at least one week for delivery of the transcript after the request has been submitted. All financial obligations to Howard Payne must be paid and all loan notes (institutional, Federal, and State) must be current before a student's record may be released; therefore, transcript requests must be forwarded to other offices for verification of status. Additional processing time should be allowed for requests submitted during peak periods such as registration and graduation.

Official transcripts are mailed to the address or addresses provided on the request form unless the college or university to which the transcript is to be sent participates in SPEEDE. SPEEDE is a technology used in administrative areas of education to electronically move student academic records between colleges and universities.

Student enrolled after 1990 may view and print their unofficial transcript through *CampusConnect*; the web-based interface with HPU's student information system. Detailed information regarding *CampusConnect* is available in the Appendix of this catalog. Students enrolled prior to 1990 may request an unofficial transcript of their college work using the same process described above for official transcripts. Unofficial transcripts are provided at no charge to the student.

Additional Academic Opportunities

Various Howard Payne University courses involve domestic or international travel as an integral component of the learning experience. Interested students should check course offerings each semester.

Opportunities for study abroad are available to students through the Council for Christian Colleges and Universities. Students may participate in a variety of off-campus study opportunities to broaden their understanding of God's world and their place in it. Course descriptions for semester and summer academic programs administered by the CCCU are available through BestSemester.com which is the portal for the off-campus study programs offered by the Council for Christian Colleges & Universities (CCCU). There are a total of eleven semester programs and one summer program designed to serve the academic interests of CCCU member institutions.

The Council for Christian Colleges & Universities is a higher education association of more than 150 intentionally Christ-centered institutions around the world. There are 111 member campuses in North America and all are fully-accredited, comprehensive colleges and univer-

sities with curricula rooted in the arts and sciences. In addition, 70 affiliate campuses from over 20 countries are part of the CCCU. The Council's mission is to advance the cause of Christ-centered higher education and to help its institutions transform lives by faithfully relating scholarship and service to biblical truth.

Additional study abroad opportunities are available through the Consortium for Global Education (CGE). CGE is a consortium of private U.S. colleges and universities, united by a commitment to international education, service, and sharing. CGE was organized as a consortium to assist in the development of international education. CGE has over 40 private U.S. universities and colleges, all on the cutting edge of higher education. Working as individual universities and colleges and as cohort groups, CGE member institutions have established an estimated 241 mutually beneficial partnerships with some of the world's most prestigious universities in more than 80 countries.

For additional information regarding international programs, students may contact the dean of the School of Christian Studies at 325-649-8408.

LONDON SEMESTER - Through the London Program, students will experience a semester of international study that will enrich their academic experience and make their undergraduate degree even more exceptional. The program requires a commitment of money and time, but the pay-off is tremendous. For a semester, London becomes a student's classroom and home. Students will study with both British and American professors utilizing the city of London as their classroom. Students reside at The Pickwick Hotel in Central London, only two blocks from the British Museum. The program includes excursions in London, a number of day trips out of London and a spring break tour of England, Scotland and Wales.

Participants are selected on the basis of the following criteria: cumulative grade point average of 2.5 or better; evaluations of two faculty members; academic and extracurricular achievements. Up to ten students are selected to participate in the London Program during the spring semester. Applications are reviewed by the London program director to determine which applicants are most qualified. The goal is to choose students who have demonstrated the following characteristics: they perform well in classes; they are dependable, cooperative and considerate; they are disciplined and prompt; they are intellectually curious and flexible; they are persons of integrity.

The London Semester is custom designed to offer students a stimulating academic study and a rich cross-cultural learning experience with London as their classroom. Courses are taught by American and British faculty. Students learn British history and literature, study in London's museums and galleries, attend London theatre, read London newspapers, visit the British Parliament and take guided walks to sites in Westminster, the City and the South Bank. These experiences all become part of the art, theatre and culture courses taught by British professors. During the semester, the students make at least 30 excursions, all covered by the program fee. Classes meet once a week, Monday through Friday, at locations stipulated by the professor of the given class. Work will also involve going to museums, galleries and historical sites. All the courses taught in London are designed to make London (and Great Britain) the classroom. Students may register for twelve to fifteen hours of credit.

For additional information regarding the London Semester program, students may contact the dean of the School of Music and Fine Arts at 325-649-8500.

Academic Advisement

Each student, upon enrolling at Howard Payne University, is assigned a first-year advisor. After the first two semesters of enrollment at HPU, when a major is declared, the student will be assigned to an advisor from the school in which that major is offered. Students who have not declared a major will be assigned to a special advisor until a major is chosen.

If a student decides to change his major, the dean of the school in which his new major is offered should be contacted for assignment of the student's new advisor.

University Seminar

University Seminar (UNS 1001) is a foundational course for first-year students designed to help them be more successful at Howard Payne University. A framework for Christian learning is explored in an interactive small-group format in which the instructor also serves as the student's academic advisor and mentor. UNS 1001 will be offered during the fall and spring semesters.

University Seminar uses alternative assessment methods for all first-time incoming students. First-time first-year students are required to take the course. Students transferring to Howard Payne University with less than 24 semester hours completed are required to complete the course. Transfer students who have taken a similar course are exempted from the HPU course.

Students required to complete FUL 1301 Foundations of University Life due to their Provisional Admission Status will not be required to complete UNS 1001 University Seminar.

Career Services

Career services are also part of The Collegium and provide students with assistance with many career and employment issues. Students desiring part-time or seasonal employment off-campus while attending school, and students seeking resume or interview skills help to pursue career positions upon graduation, may contact career services for assistance. Workshops and job fairs are held throughout the year to provide students with opportunities to prepare for life beyond their university experience. For information regarding any of these services, please contact The Collegium at 325-649-8616 or collegium@hputx.edu.

Academic Testing Services

Through The Collegium, Howard Payne University administers the following tests. Contact The Collegium at 325 649-8616 for information about the test center location and testing.

ACT (American College Testing): Offered on national test dates only

CLEP (College Level Examination Program): Please contact The Collegium for additional information regarding scheduling a CLEP exam. The exam fee is established by CLEP and is a minimum of \$77. A \$15 proctoring fee will be required of all non-Howard Payne University students. Howard Payne University students pay a one-time testing fee that covers the proctoring fee for the CLEP. Fees may be paid at the time the exam is taken. Personal checks and credit cards are accepted for payment of CLEP fees.

SAT I/II (Scholastic Aptitude Test): Offered on national test dates only

TEXES (Texas Examination of Educator Standards): To receive a teaching certificate in Texas, one must pass the appropriate TEXES tests. Applications for these tests are available from the HPU School of Education. The tests are offered on state test dates only.

The Collegium also offers secured testing facilities available to faculty who need to test a student outside of regularly scheduled testing times.

Tutoring

Tutoring is available to all Howard Payne students through The Collegium. Times for services vary but are posted around the tutoring center and on The Collegium website accessed through the University home page (www.hputx.edu) under "Current Students".

Services to Students with Physical Disabilities or Learning Differences

Students with disabilities requiring accommodation should contact the Learning Assistance Coordinator at (325) 649-8618 immediately following admission to the University or as soon as possible after discovering the need for accommodation.

In order to gain accommodations for disabilities, a student will need to have the disability documented by a physician, psychological examiner, or licensed diagnostician, whose credentials are recognized by the University. Appropriate documentation will include a recent diagnosis of the disability, specific recommendations for accommodation which connect the disability to the accommodation, a statement of similar accommodations given in any previous setting, and a summary of all relevant data. The student should have the physician or other documenter send this material to:

The Collegium
Attn: Landry Blackstock
Howard Payne University
1000 Fisk Street
Brownwood, Texas 76801
(325) 649-8618

Accommodation Policy for Students with Disabilities

It is the policy of the university to provide reasonable accommodations pursuant to all applicable laws for students with disabilities, including students with learning disabilities, health impairments, and other disabling conditions.

Admission requirements for disabled students are the same as for all other students. The university is very concerned that students with disabilities who consider attending the university be competitive in this academic environment. Therefore, reasonable accommodations will be made upon proof both of disability and need for the accommodation. It must be understood that accommodations for disabilities are meant to equalize educational opportunities. Admission to the university and accommodations do not guarantee success. Therefore, in addition to accommodations, the university encourages utilization of auxiliary services available to all students to maximize opportunities for success.

It is the responsibility of the student who requests educational accommodations to provide documentation prepared by a professional qualified to diagnose disabilities as required by the university, including, but not limited to those appropriately certified or licensed as physician, educational diagnostician, learning disability specialist, or psychologist. The university does not offer students with disabilities the following:

- Diagnostic evaluation for disabilities;
- A reduced standard for academic performance;
- Exemption from essential graduation requirements; or
- Credit for effort in place of demonstrated competence in the content.

University programs and activities are conducted in such a manner that no otherwise qualified disabled individual shall, solely by reason of a disability, be excluded from participation in, be denied the benefits of, or be subject to discrimination under any such program or activity. Notifications and inquiries regarding disabled student services should be directed to The Collegium.

Relocation Policy

Although most classrooms are wheelchair accessible, in the event that a student is unable to access a class in which he/she has registered, the relocation of classes can be a viable option. In the event that a student needs to register for a class that is not accessible to him/her, the student should, prior to registering for the class, contact The Collegium. The university will then work with the student to make arrangements for class accessibility.

Developmental Studies

Wendy McNeeley, Ph.D. - Head

FACULTY: Landry Blackstock, M.Ed.; Tom Johnson, M.S.; Shawn Matlock, M.Ed.

PART-TIME/ADJUNCT FACULTY: Cindy Proud, M.Ed.

The developmental studies program provides academic training in the fields of English, mathematics, reading, and study skills for students who are admitted to the university on a provisional basis.

A developmental studies program is available to students who need to improve English, mathematics, reading, and study skills before entering regular university-level courses. Students may be required to complete certain courses in this program based upon test scores, faculty recommendations, past performance, or department head's approval.

FOUNDATIONS OF UNIVERSITY LIFE 4101. TEACHING ASSISTANT FORUM.

This course is designed to assist students in leadership positions, specifically those upper classmen serving as teaching assistants in the Foundations of University Life program. During the semester the students will be introduced to leadership principles and styles. This course will familiarize the student with the uniqueness and importance of Christian servant leadership. The course will also provide teaching assistants the forum to discuss their work in the FUL program and receive pertinent information to assist them in that work.

School of Business

LESLIE PLAGENS, Ed.D, Dean

FACULTY: Charles Boland, M.B.A.; Tim Cooper, M.S.; Trissa Cox, M.S.; Mike Daub, M.B.A.; Mike Dillard, M.B.A.; Jennifer McNiece, M.A., M.P.A.; Lois Patton, Ph.D.; Mark Patton, D.B.A.; Shawn Shreves, M.S.; Lester Towell, M.S.

PART-TIME/ADJUNCT FACULTY: Larry Meadows, M.A., J.D.; Priscilla Monson, M.S.

The School of Business offers the following degree programs:

- * Bachelor of Business Administration Degree with majors in Accounting, Management, Marketing, and Management Information Systems.
- * Bachelor of Science Degree with majors in Business Administration and Computer Information Systems.
- * Bachelor of Applied Arts and Sciences Degree with a major in Business Administration.

The School of Business offers a quality educational experience within a Christian environment. Students will learn the language, techniques, and functions involved in today's business environment. They will develop critical thinking skills, oral and written communication skills, and analytical skills for business applications in a societal context from a Christian perspective. Students will gain an understanding and appreciation for the American Free Enterprise System as the force that has made possible the opportunity and realities of growth that American business has experienced.

The School of Business offers a Bachelor of Business Administration (BBA) and a Bachelor of Science (BS) degree. A student may choose to major in four areas which lead to a BBA degree: accounting, management, marketing, and management information systems. Additionally, a student majoring in management will choose either finance or marketing emphasis. A student may choose to major in business administration leading to a Bachelor of Science (BS) degree or a Bachelor of Applied Arts and Sciences (BAAS) degree. The BBA degree programs and the business administration major under the BS and BAAS degrees are accredited by the International Assembly for Collegiate Business Education.

The School of Business also offers minors in the following business related areas: accounting, business, computer information systems, economics, interdisciplinary international business, marketing, and small business management.

All students seeking the BBA degree, regardless of their major, are required to take a 36 semester hour business core which consists of: ACC 2311 and 2321, BUS 1311, 3311, 3335, 3351, and 4351; CIS 2310;

Business

FIN 2341 and 3301; MGT 3303 and MKT 2302. BUS 4351 Business Strategy is a capstone for the business curricula and should be taken immediately before completion of degree requirements.

Certificate in International Business Program

The Certificate in International Business is a program for students majoring in a business field who have a desire to broaden their scope of knowledge and experience in today's global business environment. This is an interdisciplinary program which allows students the flexibility to customize their own individual program. Certificate requirements of 18 semester hours include:

- International business: 9 semester hours including BUS 3335, MKT 3352, and 3 semester hours from either an approved internship or special studies related to international business
- Foreign language and/or international culture:
9 semester hours including 6 hours of university-level foreign language coursework in the same language and 3 hours from the list of approved international culture courses
OR
9 semester hours from the following courses related to international culture: ENG 2353, 4336, HIS 2320, 4303, POS 3321, 3361, or SOC 3301
- International experience: An approved 4 weeks, minimum, of international experience or study abroad.

Teacher Certification

Students interested in teaching business subjects at the secondary level as outlined by the State Board for Educator Certification (SBEC) should review the requirements of the Teacher Education Program listed in the School of Education. An application for admission for the Teacher Education Program should be made to the dean of the School of Education thirty days prior to the beginning of the semester in which the student plans to begin education courses.

Students seeking secondary teacher certification in business may choose the BS degree with a major in business administration. Electives need to include the required education courses (see certification requirements in the School of Education section) and the following business courses: BUS 3321, BUS 2332, and MGT 4311. Students must be jointly advised by their major advisor and the teacher certification officer.

Students seeking teacher certification in technology applications must be jointly advised by their CIS advisor and the teacher certification officer. The required courses are listed in the School of Education section of this catalog.

Minors in Business-related Areas

The following minors are offered through the School of Business.

Accounting - 21 semester hours to include: ACC 2311, 2321, 3311, 3321, 4311, plus 6 hours of upper-division accounting hours.

Business - 24-hour composite minor to include: ACC 2311, 2321, 3 hours from ECO 1311, 2302 or 2301, MKT 2302, FIN 2341, MGT 3303, BUS 3311, and 3 hours of advanced credit from the School of Business.

Computer Information Systems - 18-24 semester hours of CIS coursework chosen in consultation with the head of the CIS department.

Business

Economics - 21 semester hours chosen from: ECO 1311, 2301, 2302, 2350, 3320, 3351, 3391, and 4390.

Department of Accounting

Charles Boland, M.B.A. - Head

The purpose of the accounting major is to prepare students to understand what accounting is, what accountants do, and how to use accounting information to make business decisions. Students majoring in accounting will be prepared to enter the accounting profession, work in related fields, or be able to enter graduate school. Technical and analytical skills will be developed. Students will be able to utilize accounting information to make business decisions. They will also be introduced to current accounting practices/techniques to enhance their understanding as well as employability.

The educational requirements for accountants to become a certified public accountant has increased to 150 credit hours due to the passage of the Accountancy Act of 1991. The department of accounting recognizes that not all accounting majors desire the designation, CPA. The department of accounting offers the Bachelor of Business Administration (BBA) in accounting.

Accounting (30 hours)

The BBA accounting major consists of ACC 3311, 3321, 3331, 3341, 3351, 3361, 4311, and 4331, BUS 3321, and three hours of upper-division (4000-level) accounting.

A minor in accounting consists of ACC 2311, 2321, 3311, 3321, 4311 plus six (6) upper-division accounting hours.

150 Hour Requirement for the Certified Public Accountant Prospect

The Texas State Board of Public Accountancy, since September 1, 1997, has required that anyone applying to sit for the CPA exam must have completed 150 hours of college study with at least 36 hours in accounting and an approved ethics course at the time of application. The additional hours above the normal bachelor degree requirements may be attained at either the undergraduate or graduate level and may be outside the accounting curriculum.

Department of Computer Information Systems

Lester Towell, M.S. - Head

The purpose of the computer information systems department is to serve the university in two major capacities. The department strives to prepare students for professional careers in computer information systems. Also, the department must prepare the general student body to become productive participants in our information society.

Students majoring in computer information systems will learn the language, techniques, and functions involved in information systems. Students will be prepared for an information technology position, for advanced studies in computer science, software engineering, or computer information systems, and to continue in the information technology profession.

The department of computer information systems offers the Bachelor of Business Administration (BBA) degree with a major in management information systems and the Bachelor of Science (BS) degree with a major in computer information systems.

Students seeking a Bachelor of Business Administration degree with a major in Management Information Systems (MIS) must complete the thirty-six (36) semester hour business core and thirty-three (33) semester hours of CIS courses. Required CIS courses are: CIS 1359, 2329, 2378, 3319, 3329, 3369, 3381, 3389, 4321, 4341, and 4351.

Students seeking a Bachelor of Science degree with a major in Computer Information Systems (CIS) must complete twenty-seven (27) semester hours of core CIS courses and fifteen (15) semester hours of directed elective courses chosen in consultation with the head of the computer information systems department. Required courses are: CIS 1359, 2329, 2348, 2389, 3319, 3329, 4321, 4341, and 4351. To fulfill the directed electives portion of the CIS major the following are provided as examples: **Systems Development** (CIS 2369, 3309, 3339, 3369, and 4348) and **Multimedia** (CIS 3334, 3338, 3379, 4319, and 4339). Additionally, CIS majors for the BS degree must take MAT 1365 and 2342.

All prerequisites must carry a grade of "C" or better and CIS majors and minors must carry a grade of "C" or better in all CIS courses.

CIS 4351 (Systems Analysis and Design) is a capstone course required of all majors, and is taken during their last semester.

CIS 1339 (Introduction to Information Technology) is part of the general education requirements and does not count as part of the CIS or MIS major.

A minor in computer information systems will not require any specific courses, but will be 18 to 24 hours chosen in consultation with the head of the computer information systems department.

Computer Information Systems

COMPUTER INFORMATION SYSTEMS 1101-4609. SPECIAL STUDIES.

Special courses in computer information systems not a part of the regular schedule but offered on an irregular schedule.

Prerequisite: Consent of department head.

One to six semester hours

COMPUTER INFORMATION SYSTEMS 1339. INTRODUCTION TO INFORMATION TECHNOLOGY.

An introductory course in computer information systems and computer literacy. Topics include: hardware, software, computer history, word processing, spreadsheets, the Internet, data base management systems and a basic introduction to programming languages. There will be hands-on operation of micro-computers. Fall, Spring, Summer.

Prerequisite: None.

Three semester hours

COMPUTER INFORMATION SYSTEMS 1359. PROGRAMMING LOGIC. (COSC 1309)

This course is designed to develop logic concepts and designs. The algorithms are used to develop programs in advanced programming courses. This course does not count as a "programming language." Fall, Spring.

Prerequisite: CIS 1339.

Three semester hours

COMPUTER INFORMATION SYSTEMS 2310. BUSINESS APPLICATIONS IN EXCEL.

A study of advanced features of Microsoft Excel including those assessed in the Core MOUS exam. Students will expand their knowledge and develop spreadsheets that will address typical situations they would encounter in the business world. Fall, Spring.

Prerequisite: CIS 1339.

Three semester hours

COMPUTER INFORMATION SYSTEMS 2329. WEB DESIGN.

This course introduces students to the many components of the Internet. Some of the topics covered will include: TCP/IP, FTP, HTML, HTTP, CGI, Telnet, Internet, e-mail and page design. The student learns to design, construct and maintain Web pages and a Web site.

Prerequisite: CIS 1339 or the equivalent work experience.

Three semester hours

COMPUTER INFORMATION SYSTEMS 2348. INTERNET AND GAME PROGRAMMING.

Overview of current web authoring programming languages: Perl/CGI programming, VBScript, XML, Active X, Action Script, DHTML, C#, and/or ASP. Emphasis is placed upon the appropriate use of the programming tools introduced. The student will create dynamic Web pages and an electronic portfolio. Fall.

Prerequisite: CIS 1359 or the equivalent work experience.

Three semester hours

COMPUTER INFORMATION SYSTEMS 2349. PASCAL PROGRAMMING.

A detailed course in the structure, logic and formal writing of applications programs in Pascal. Heavy emphasis is placed on problem solving, "top-down" design, and modular programming techniques as they relate to the current concept of structured programming. Fall.

Prerequisite: CIS 1359 or consent of instructor.

Three semester hours

COMPUTER INFORMATION SYSTEMS 2369. ANALYSIS OF ALGORITHMS.

Design of computer algorithms for numeric and nonnumeric problems; relation of data structures to algorithms; analysis of time and space requirements of algorithms, complexity and correctness of algorithms. Fall.

Prerequisite: CIS 1359 and MAT 1365, 2342.

Three semester hours

COMPUTER INFORMATION SYSTEMS 2378. ENTERPRISE RESOURCE PLANNING SYSTEMS.

Fundamentals of enterprise resource planning (ERP) systems concepts, and the importance of integrated information systems in an organization. All components of an ERP system will be examined. In addition, other aspects of integrated business applications such as Supply Chain Management (SCM), Customer Relationship Management (CRM), and Business-to-Business (B2B) E-business will be explored. Fall.

Prerequisite: None.

Three semester hours

Computer Information Systems

COMPUTER INFORMATION SYSTEMS 2389. OBJECT-ORIENTED PROGRAMMING I.

A study of the power and portability of current object-oriented languages from Microsoft and Oracle. A detailed course in the writing of application programs in object-oriented programming languages such as JAVA. Emphasis is placed on modular development. Fall.

Prerequisite: CIS 1359.

Three semester hours

COMPUTER INFORMATION SYSTEMS 3309. OBJECT-ORIENTED PROGRAMMING II.

A study of the power and portability of current object-oriented languages from Microsoft and Oracle. Advanced object-oriented design and program development will be encouraged using exercises that range from lengthy programming assignments to major projects. Spring.

Prerequisites: CIS 2389.

Three semester hours

COMPUTER INFORMATION SYSTEMS 3319. PROJECT MANAGEMENT.

Use of project management techniques and software to manage business activities. Students will use the PMBOK guide as a framework and starting point for project management and extend their understanding via hands-on applications. Current project management software will be used to assist in project scope, time, cost, human resources, and communication management. The course may be used as a resource for preparation toward PMP certification. Fall.

Prerequisite: CIS 1339.

Three semester hours

COMPUTER INFORMATION SYSTEMS 3329. VISUAL PROGRAMMING.

A course designed to develop visual programming skills. The focus will be on programming in Microsoft's Visual BASIC and Oracle's Power Objects. Projects will explore the human-computer interface of interactive visual programming. Spring.

Prerequisite: CIS 1359.

Three semester hours

COMPUTER INFORMATION SYSTEMS 3334. FUNDAMENTALS OF LAYOUT AND DESIGN.

A preliminary course for designing with the computer. A study of layout and design techniques including typography, copy fitting, picture editing, color reproduction and the production of camera-ready art. Emphasis will be given to the use of design elements in advertising, magazines and newspapers. Cross-credited with ART 3334 and JOU 3334. Only three credit hours will be given for ART 3334, JOU 3334 or CIS 3334. Spring.

Prerequisite: None.

Three semester hours

COMPUTER INFORMATION SYSTEMS 3338. DIGITAL IMAGE MANIPULATION.

An introductory course that will cover the fundamentals of digital manipulation. Photo retouching, scanning, image capture, and image creation will be emphasized as well as coverage of layers, filters, masking, and channels. This class will culminate with the rendering of a professional portfolio component. Cross-credited with ART 3339 and COM 3339. Only three credit hours will be given for ART 3339, COM 3339, or CIS 3338. Fall.

Prerequisite: None.

Three semester hours

COMPUTER INFORMATION SYSTEMS 3339. DATA STRUCTURES.

Methods for organizing data; design of algorithms for efficient implementation and manipulation of data structure. Various data sorting and data searching techniques will be examined. Spring.

Prerequisite: CIS 2369.

Three semester hours

COMPUTER INFORMATION SYSTEMS 3369. DATA BASE MANAGEMENT SYSTEMS.

A course concentrating on issues central to the design, implementation, and management of relational database systems. Topics include: Entity Relationship Modeling, SQL, rules, triggers, stored procedures, forms, reports, client/server development environment and integration with WWW. DBMS projects will incorporate current modeling and development software from Oracle and Microsoft. Spring.

Prerequisite: CIS 1359.

Three semester hours

Computer Information Systems

COMPUTER INFORMATION SYSTEMS 3379. MULTIMEDIA TECHNOLOGY.

This course covers current interactive multimedia technology, aesthetics, and pedagogical issues of communication using interactive multimedia and hypermedia; techniques for authoring interactive multimedia projects using current digital media tools. Students apply principles and procedures of digital art, design, communication, and software authoring while working on integrated media projects. Spring.

Prerequisite: CIS 1359, CIS 3338, CIS 4339.

Three semester hours

COMPUTER INFORMATION SYSTEMS 3381. DECISION SUPPORT SYSTEMS.

An examination of the use and application of information systems to support the decision-making process. Topics will include knowledge-based systems, neural networks, data mining, and intelligence systems as a basis for designing and developing highly effective decision support systems. Spring.

Prerequisite: CIS 3389.

Three semester hours

COMPUTER INFORMATION SYSTEMS 3389. MANAGEMENT INFORMATION SYSTEMS.

An introduction to and an overview of the concepts utilized to design and implement a computerized management information system. Topics will include, but are not limited to, types of organizations, management styles, types of information systems, and the ways in which these are combined to create an efficient information system. Spring.

Prerequisite: CIS 1339.

Three semester hours

COMPUTER INFORMATION SYSTEMS 4319. DIGITAL VIDEO MANIPULATION.

This course includes the theory and application for developing videos using computer-based audio and video editing tools. Areas of study include the pre-production, production and post-production process of creating videos. Students will learn to import and manipulate digital audio, video, and graphic elements into computer applications to produce digital videos for use in a variety of media environments. This class will conclude with the creation of a video project that can be used as a professional portfolio component. Fall.

Prerequisite: CIS 3338.

Three semester hours

COMPUTER INFORMATION SYSTEMS 4321. OPERATING SYSTEMS.

This course is designed to cover the general functions of an operating system, regardless of the hardware environment. Many specific operating systems will be examined: MS DOS, OS/2, Windows NT, UNIX, VAX/VMS, and IBM/MVS. Algorithms for CPU scheduling, memory and general resource allocation; process coordination and management will be covered. Fall.

Prerequisite: One programming language.

Three semester hours

COMPUTER INFORMATION SYSTEMS 4331. COMPUTER INFORMATION SYSTEMS INTERNSHIP.

A course allowing individual study outside the academic environment, but under the guidance of the instructor. The purpose is to allow the advanced computer information systems student to obtain "real world" experience in the development and implementation of applications or systems programming projects. Openings at present are limited by the number of employment opportunities and projects that are available. Fall, Spring.

Prerequisite: 21 hours of computer information systems and approval of department head.

Three semester hours

COMPUTER INFORMATION SYSTEMS 4339. DIGITAL ILLUSTRATION.

Students will receive specialized training in the creation of computer-generated compositions through the use of a vector-based computer illustration application. Attention will be placed on corporate branding and logo design for the use in both print and screen print. This class will culminate with the rendering of a professional portfolio component. Cross-credited with ART 4339 and COM 4339. Only three credit hours will be given for ART 4339, COM 4339, or CIS 4339. Spring.

Prerequisite: None.

Three semester hours

Computer Information Systems

COMPUTER INFORMATION SYSTEMS 4341. NETWORK DESIGN AND ADMINISTRATION.

An in-depth study of the concepts which govern network designs, and guided hands-on work with actual network installation and administration. This course is intended to prepare the student for Novell and Microsoft Network Certification. Spring.

Prerequisite: CIS 1359 and 4321.

Three semester hours

COMPUTER INFORMATION SYSTEMS 4348. COMPUTER AND INFORMATION SECURITY.

Principles, theory and practice of computer security and data protection. Topics will include the security aspects and implications of databases, telecommunication systems, and software, along with techniques used to assess risk and discover abuses of systems. Fall.

Prerequisite: CIS 4341.

Three semester hours

COMPUTER INFORMATION SYSTEMS 4351. SYSTEMS ANALYSIS AND DESIGN.

Techniques and methods currently used in system analysis and design of information systems. Design methodology, project management, system design, program development, testing, documentation, and implementation techniques are covered in lectures and laboratory. Spring.

Prerequisite: Twenty-one hours of computer information systems courses.

School of Christian Studies

DONNIE AUVENSHINE, Ph.D., Dean

FACULTY: Art Allen, Th.D.; Mary Carpenter, M.A.; Bill Fowler, Ph.D.; Gary Gramling, Derek Hatch, Ph.D.; Russell Wheelington, Ed.D.

PART-TIME/ADJUNCT FACULTY: Donald Fawcett, M.A.; Chuck Gartman, M.Div.; Brett Levy, M.A.; Vicki Vaughn, D.Min.

The School of Christian Studies is designed to make the practice of the Christian faith more relevant for our world. It shall always have as its primary goal the thorough training of the Christian student to be equipped to fulfill the command of Jesus Christ to make disciples and to teach them what He commanded. Therefore, the School of Christian Studies is dedicated to help students understand that the church is God's minister to His world and to help them live out their Christian faith as they confront the religious, moral, intellectual and social decisions of life, both now and later.

Purpose

All students seeking a degree from Howard Payne University will receive an introduction to the Bible. In addition, those students majoring in Christian Studies will be prepared for ministerial and church-related vocations and/or graduate studies.

Outcomes

The expected learning outcomes of the School of Christian Studies are as follows:

1. All students will gain knowledge of and appreciation for the Bible and the Christian life.
2. Students will examine issues from a variety of perspectives in the pursuit of truth.
3. Ministry students will acquire a basic overview of Christian ministry and gain a better understanding of themselves and their potential for ministry.
4. Students will be encouraged and guided toward spiritual growth and the development of their God-given gifts for the work of the ministry.
5. Majors and entry-level students will develop an understanding of the historical and organizational development of the local Baptist church and other associations of Baptists.

Christian Studies

- 6. Majors will be equipped to examine critically Christian teachings.
- 7. Majors will be equipped with the necessary tools to interpret critically the biblical materials.
- 8. Majors will develop the research skills necessary to continue lifelong learning.

Three degrees and a certificate are offered by the School of Christian Studies:

Bachelor of Arts (BA)124 hours
Bachelor of Applied Arts and Sciences (BAAS)128 hours
Associate in Ministry (AM)64 hours
Certificate in Ministry Training18 hours

The program is designed so that each level of education becomes a stepping stone to, and is incorporated into, the next step. The 18 hours of the certificate can become a part of the 64-hour associate degree, and the 64 hours of the associate degree can become a component of the 124-hour bachelor degrees.

The School of Christian Studies strongly recommends that traditional ministerial students seek a Bachelor of Arts degree and major in the School of Christian Studies as the best preparation for graduate study and/or vocational ministry. Students may choose from six majors: Bible, Biblical Languages, Christian Education, Cross-Cultural Studies, Practical Theology, and Youth Ministry. All six majors build on a core of courses designed to provide a broad-based foundation for all types of Christian ministry.

Students pursuing a major in the School of Christian Studies are not required to complete a minor. It is recommended that the Exercise and Sport Science minor be considered to complement their major.

The School of Christian Studies offers minors in the following areas: Bible, Biblical Languages, Christian Education, Cross-Cultural Studies, Practical Theology, and Youth Ministry.

Ministerial Scholarship

Students who receive the ministerial scholarship from the Baptist General Convention of Texas are required to take the following courses: BIB 1303, 1304, 4391, PTH/CED/YMN 1100, CCS/PTH/CED/YMN 3200, PTH 3311, 4300. (Most of these classes are already required for students who major in the School of Christian Studies.) Scholarship students are also required to attend Ministerial Alliance meetings. The ministerial scholarship may be denied for moral, doctrinal, or behavioral reasons.

Bachelor of Applied Arts and Sciences in Christian Studies

The School of Christian Studies offers a 36-hour major within the Bachelor of Applied Arts and Sciences degree composed of a 24-hour core and a 12-hour concentration. This major may be a significant component in preparation for bi-vocational Christian ministry.

Certificate in Ministry Training

In response to the mission needs of churches in Texas, Howard Payne University offers an eighteen credit hour entry-level Certificate in Ministry Training. The typical student served has experienced a call into ministry, is older, employed full-time, and desires to provide ministerial leadership to a church organization. The courses offered provide entry-level preparation and equipping for ministry service, but are also designed to allow for continued study toward a baccalaureate degree.

Admission to the Certificate in Ministry Training program is not dependent on high school graduation or exam equivalent, but does require demonstration of competence in reading and writing. Students desiring to continue into other programs of the university will be required to meet all regular admission requirements to the university.

In order to receive a Certificate in Ministry Training, a student must successfully complete MIN 1111, 1112, 1113, 1114, 1115, 1116, and 12 additional ministry courses selected by the student with the advice of a faculty mentor. Up to four special studies hours may be taken toward the Certificate in Ministry Training. These include up to two special studies in BIB (MIN 1133), and up to two special studies in Ministry (MIN 1134). The special studies Ministry courses may be repeated if the topic is different.

All courses taken in the Certificate in Ministry Training program are applicable to degree programs of the university, either through a substitution in degree audits or as electives. The following lists the courses in the certificate program and how they apply to degree programs of the university. A minimum grade of "C" is required in each course to be applied to a degree program.

Learning Center

Howard Payne University operates a learning center in El Paso, Texas. The center offers ministerial education and Christian training on site; therefore, these centers are a functioning branch of the School of Christian Studies.

The curriculum offered at the centers is the same curriculum taught on the Brownwood campus, although the learning centers may offer only a portion of the curriculum available. The courses follow the same syllabi, utilize the same methods, receive the same credit, are taught by qualified, experienced faculty and are evaluated for direct comparability with the courses on the Brownwood campus.

General Education:

Students in Howard Payne's off-campus centers are required to meet the general education requirement for the bachelor's degrees as described beginning on page 92 of the 2011-2012 catalog or for the Associate in Ministry degree as described on page 150 of the same catalog. In El Paso general education courses are offered by Howard Payne University or may be taken at local colleges and universities.

Teacher Education Program

The Teacher Education Program at Howard Payne University prepares preservice teachers to meet professional standards as prescribed by the State of Texas, by the university, and by the practicing profession itself. Moreover, the university seeks to prepare teachers to serve as Christian role models in both public and accredited private schools.

The Teacher Education Program has identified the following as goals toward which the program must strive if this mission is to be attained:

1. To provide a teacher education curriculum which will insure articulation throughout the department of education and throughout the other academic departments of the university.
2. To provide the best possible foundation of general education, subject-matter specialization, and professional education and growth.
3. To encourage critical and reflective thinking, intellectual curiosity, and professional competence and zeal.
4. To provide well-planned professional laboratory experiences. This part of the program is a product of cooperative planning by the university and participating school districts.
5. To encourage a vital, satisfying, and continuously growing personal and spiritual life.
6. To encourage more gifted students to consider teaching as a career.

7. To encourage gifted students to continue professional studies at the graduate level.
8. To develop cognitive and affective understanding and competence in preservice teachers so that 90 percent pass the state proficiency TExES in professional development and related endorsements.
9. To continue to refine the preservice preparation of teachers to insure that all teachers educated at Howard Payne University for service in Texas achieve or exceed the passing score of whatever teacher appraisal system is in current adoption in Texas.

In addition, the Teacher Education Program has identified the following learner outcomes as desirable expressions of these goals:

1. To acquire a broad foundation in the liberal arts reflective of a well-educated individual.
2. To demonstrate competence in those tasks of lesson planning, lesson presentation, and assessment representative of the teaching profession.
3. To become intellectually curious, reflective thinkers.
4. To become comfortable and confident interacting in the public school environment.
5. To demonstrate a commitment to continuous personal growth and lifelong learning.
6. To demonstrate the qualities of and capacity for leadership in the school environment specifically and in the community at large.
7. To embody in their relationships with students, parents, and colleagues the commitment and compassion of the Model Teacher.
8. To pass the state's professional proficiency exams with scores that meet or exceed state standards.
9. To commit to teaching not as an interim endeavor but as a lifelong calling.

Requirements for the Teacher Education Program

Admission to the Teacher Education Program (TEP) requires fulfilling the following two phases:

Phase I

1. Completion of thirty semester hours.
2. Schedule and complete a Teacher Education Program interview. Contact the School of Education to obtain additional information about the interview process.

Phase II

1. Completion of sixty semester hours.
2. Submission of an application for admission to the Teacher Education Program in the Office of the Dean of Education by **March 31** for beginning the professional education course sequence in the summer or fall semesters or by **November 15** for beginning in the spring semester. (Applications may be obtained from the Office of the Dean of the School of Education.)
3. A **cumulative** grade point average of *at least 2.5* and a grade point average of *at least 2.5* in **each** of the candidate's teaching fields or concentrations and majors. To remain in the program, the student must maintain the 2.5 GPA.

Education

4. A passing score on all three parts of the Texas Higher Education Assessment (THEA) or Texas Academic Skills Program (TASP) tests. The tests are in reading, mathematics, and writing. No student may take any professional education course without having passed all three parts of the THEA or TASP or without having been exempted from the THEA or TASP. The following are the only THEA or TASP exemptions:
 - a. 1,200 or higher on the Scholastic Achievement Test (SAT), with scores of at least 550 on the verbal and math sections; or,
 - b. 29 or higher on the American College Test (ACT), with a minimum score on the English and math sections of 27 required; or,
 - c. Minimum Texas Assessment of Knowledge and Skills (TAKS) performance scores of 2200 in Reading and Math, and a Writing score of at least 3 or minimum Texas Assessment of Academic Skills (TAAS) performance with a Texas Learning Index (TLI) of X-90 in reading and X-87 in mathematics, and 1,800 scale score in writing. (Note: For exemption purposes, TAKS or TAAS scores are valid for three years after the high school graduation date; SAT and ACT scores for five years.)
5. Completion of College Algebra with a grade of at least "C."
6. Endorsement from the dean of students.
7. Departmental endorsements from a faculty member from each of the teaching fields or concentrations. The endorsement forms may be obtained from the Office of the Dean of the School of Education. Students who transfer to HPU at the junior level or beyond may obtain endorsements from faculty members of colleges or universities attended prior to admission to HPU. All endorsements must be received by **March 31** for students taking their first education course in the summer or fall semesters or by **November 15** for those beginning in the spring semester.
8. Approval by the Teacher Education Council. Students denied admission to the Teacher Education Program are entitled to appeal their status to the council.
9. Depending on the current rules of the State Board for Educator Certification (SBEC), students may be required to pay a fee for a national criminal history check. Students should be aware that public schools working with the university during teacher preparation may check to see if a student has a criminal record. Any teacher education student with a criminal record should see the dean of the School of Education. Most criminal records preclude one from obtaining teaching certification in Texas.
10. Students must fulfill all requirements outlined in the School of Education *Student Teacher/Internship Handbook*.

Admission to student teaching or the year-long internship requires the following:

1. Prospective student teachers must be within 9 semester hours of graduation, exclusive of student teaching, the semester in which student teaching is scheduled. The internship is open only to students who have already graduated and have a degree in hand.
2. Submission of an application for admission to student teaching or internship in the Office of the Dean of the School of Education by **March 31** if the student teaching/internship is to begin in the fall semester or by **November 15** if student teaching/internship is to begin in the spring semester.
3. A cumulative grade point average of at least 2.5, a grade point average of at least 2.5 in each teaching field or area of concentration, and a grade point average of at least 2.5 in professional education courses. Teaching fields or concentrations must be completed prior to student teaching. Education courses, with the exception of EDU 4375 (for elementary teaching candidates), must be completed prior to student teaching.

4. Completion of the 45-clock-hour field experience requirement associated with EDU 3310 and EDU 3330 prior to the beginning of student teaching.
5. Endorsement from the dean of students.
6. Departmental endorsements from faculty in each of the teaching fields or concentrations. The endorsement forms may be obtained in the Office of the Dean of the School of Education. Students who transfer to Howard Payne at the junior level or above may obtain endorsements from faculty members of colleges and universities attended prior to admission to HPU. All endorsements must be received by **March 31** if the student teaching/internship is to begin in the fall semester or by **November 15** if student teaching/internship is to begin in the spring semester.
7. All education course prerequisites and required grade point averages must be attained **prior to** student teaching or the internship. This applies *to all* students regardless of which catalog is being followed.
8. All candidates to have passed EDU 4000, TExES Review, *prior to* being admitted to student teaching. This applies regardless of which catalog is being followed. (Students should note that EDU 4000 is offered only in the fall and spring long semesters and may **not** be taken by conference.)
9. All candidates must have passed the 4000-level TExES Reviews offered in their teaching fields *prior to* being admitted to student teaching. This requirement applies regardless of which catalog is being followed. Note: Not all teaching fields offer a TExES Review.
10. Approval by the Teacher Education Council. Students denied entrance to student teaching are entitled to appeal their status to the council.
11. Students must fulfill all requirements outlined in the School of Education *Student Teacher/Internship Handbook*.

Note 1: No student teacher may enroll for more than 9 semester hours during the student teaching semester. Student teachers may not leave their regular student teaching assignments to return to the Howard Payne campus for another class or to participate in other HPU activities except for the student teaching seminars scheduled each Wednesday afternoons from 4:00 to 5:00 PM.

Note 2: Student teaching is available only during the regular fall and spring long semesters. Student teaching is not available during the summer semesters.

Note 3: Student teaching can only be completed in schools in the Brownwood area, i.e., schools in reasonable proximity to Howard Payne University.

Post-Baccalaureate Certification Program

The HPU School of Education offers individuals who already have a qualifying college degree the opportunity to pursue teacher certification. Such individuals may pursue certification in any fields offered at HPU. The Certification Officer in the School of Education will develop an individualized deficiency plan which will outline the specific requirements necessary to be completed in order to be certified in the desired field. Please contact the Certification Officer at 325-649-8203 for additional information.

Education

Teacher Certification

In the State of Texas, all teacher certification programs, requirements, and structures are subject to the approval of the State Board for Educator Certification (SBEC) and are, therefore, subject to modification at any time to maintain compliance with SBEC rules and regulations. SBEC is currently engaged in an extended and protracted review of educator certification, and final guidelines related to certification requirements are not available in all teaching fields.

Because of the volatile and uncertain nature of certification requirements at this time, teacher candidates are advised to check periodically with the Office of the Dean of the School of Education for updates that might impact their preparation program and status; and teacher candidates must acknowledge their obligation to comply with the latest certification requirements regardless of which catalog was in place when the student's degree audit was filed.

Note 1: Teacher preparation requirements referenced in other sections of this catalog are also subject to modification as SBEC regulations might require.

Note 2: The department of education courses and the reading courses listed in this catalog are also subject to modification and deletion, and additional courses may be added, as necessitated by changes in certification requirements.

Program Accreditation

The Howard Payne University teacher education program is fully accredited by the Texas Education Agency. For the 2009-2010 academic year, Howard Payne students who completed the teacher education program posted a summary pass rate of 95 percent.

State Proficiency Examinations

All candidates applying for initial or additional teacher certification are required to pass the appropriate Texas Examination of Educator Standards (TExES) test(s). Persons seeking additional content endorsement or delivery systems certificates must pass proficiency tests in the field of certification or endorsement. Those being certified in a modern foreign language, e.g., Spanish, French, German, etc., must also pass the Texas Oral Proficiency Test (TOPT). Students are required to obtain approval from the Office of the Dean of the School of Education to register for TExES or TOPT examinations for initial certification recommended through Howard Payne University.

Elementary School Teaching

The university offers an elementary school teacher preparation program for early childhood through grade six (EC-6).

Middle School Teaching Fields

The university offers middle school teacher preparation programs (grades 4-8) in English language arts and reading, mathematics, science, and social studies.

High School Teaching Fields

The university offers high school teacher preparation programs (grades 8-12) in business education, English language arts, history, life science, mathematics, physical science, social studies, Spanish,

speech, technology applications, and theatre arts.

All-level Education Teaching Fields

Howard Payne also offers all-level academic specializations in Art, Music, Spanish, Theatre Arts, and Physical Education.

Application for Certificate

All eligible students must file a certificate application on-line with the State Board for Educator Certification, making appropriate fee payment directly to them. Applications cannot be processed until proof that the student has passed the appropriate TExES tests has been provided by the appropriate testing agency. Students may not “challenge” the TExES in an additional subject area for which they may or may not have university credit until an initial certificate has been obtained from SBEC.

Advisors

Students seeking elementary certification will be assigned an advisor from the department of education faculty. Students pursuing middle school, high school, or all-level certifications will be jointly advised by an academic advisor from their teaching field(s) and by a member of the department of education faculty. Middle school, high school, and all-level degree audits must bear the signatures of all advisors.

Minors

A list of minors offered by the School of Education is available in the Exercise and Sport Science department area. No minors are available in the Education department.

Should the student so desire, he or she may apply elective hours toward meeting the additional academic requirements necessary for middle school certification.

MIDDLE SCHOOL: GRADE 4 – GRADE 8 DEGREE REQUIREMENTS

Middle school certification at Howard Payne University builds on a foundation of elementary certification. To the requirements spelled out in the elementary degree audit, middle school certification requires one additional professional education course and from 3 to 20 additional academic hours, depending on the particular academic specialization sought.

EDU 4319, Middle School Foundations, focuses on adolescent development, middle school philosophy, and middle school curriculum and methods.

Howard Payne offers the following middle school academic teaching fields: (* = Courses are also part of the elementary certificate subject area core.)

Education

EDUCATION 1101-4609. SPECIAL STUDIES.

Special courses not a part of the regular schedule but offered on an irregular schedule.

Prerequisite: Dean’s approval. One to six semester hours

EDUCATION 3310. FOUNDATIONS I (Psychological).

This course is the prerequisite to all other education courses and must be taken first. It is a study of the principles and theories of the psychology of learning and teaching and the study of the developmental characteristics of learners birth through adulthood. The principles of special education and of measurement and evaluation of student achievement are included. Must do 22 clock hours of field experience in an SBEC accredited school. Fall (2 sections), Spring (1 section), Summer (1 section).

Prerequisite: Sixty semester hours and admission to the Teacher Education Program. Three semester hours

EDUCATION 3314. EDUCATION OF THE YOUNG CHILD.

A survey of history and philosophy of early childhood education with a comparison to current trends and issues. Topics include characteristics of pre-kindergarten through fourth grade, dimensions of diversity, state standards, principles of learning, techniques of evaluation, integrating instructional technology and cooperation with parents/community in meeting developmentally appropriate practices. Fall only.

Prerequisite: EDU 3310 (EDU 3310 may be taken concurrently) and admission to Teacher Education Program. Three semester hours

EDUCATION 3330. FOUNDATIONS II (Philosophical).

The teaching-learning process as applied to diverse populations is studied from various philosophical viewpoints. The legal and ethical requirements of the public school system are included as well as multicultural aspects of education. Must do 23 clock hours of field experience in an SBEC accredited school. Fall (1 section), Spring (2 sections), Summer (1 section).

Prerequisite: Sixty semester hours, EDU 3310 or concurrent enrollment in 3310 and admission to the Teacher Education Program. Three semester hours

EDUCATION 4000. TExES REVIEW — PROFESSIONAL DEVELOPMENT.

This is a course which must be taken and passed the semester just prior to student teaching admission. Designed to help students pass the all-level professional development sections of the Texas Examination of Educator Standards (TExES). Free of charge; pass/fail. Fall and Spring only.

Prerequisite: EDU 3310, 3330, admission to Teacher Education Program. No credit hours

EDUCATION 4108, 4208, 4408, 4608. INSTITUTE WORKSHOP.

One to six hours credit designed for a special short-term concentrated course for a specific need.

Prerequisite: EDU 3310 and admission to the Teacher Education Program. One to six semester hours

EDUCATION 4204. TEACHING SCIENCE IN THE ELEMENTARY SCHOOL.

A study of content, materials education and methods will be applied to the elementary science curriculum; required of students seeking credentials in the elementary school. At least 5 hours of field experience in elementary science classes will be required in addition to regular class times. Field-based course. Fall, Spring.

Prerequisite: EDU 3310 and 3330 (or EDU 3310 and 3330 may be taken concurrently); and admission to the Teacher Education Program. Two semester hours

Education

EDUCATION 4205. TEACHING MATHEMATICS IN THE ELEMENTARY SCHOOL.

A study of mathematical thinking, including concepts, computational skills, problem solving and lesson plan development as applied to the elementary school. Field-based course. Fall, Spring.

Prerequisite: EDU 3310 and 3330 (or EDU 3310 and 3330 may be taken concurrently),

MAT 1351, 1371, 3321 (or MAT 3321 may be taken concurrently);

and admission to the Teacher Education Program.

Two semester hours

EDUCATION 4206. TEACHING SOCIAL STUDIES IN THE ELEMENTARY SCHOOL.

A course to emphasize the role of the elementary school teacher in planning, developing and utilizing educationally sound approaches in the teaching of social studies. Pre-service students will deal with traditional and innovative practices used in providing children with life experiences. Field-based course. Fall, Spring.

Prerequisite: EDU 3310 and 3330 (or EDU 3310 and 3330 may be taken concurrently);

admission to the Teacher Education Program.

Two semester hours

EDUCATION 4319. MIDDLE SCHOOL FOUNDATIONS.

This course focuses on the transitional distinctiveness of the middle school experience as distinguished from both the elementary and high school years. Moreover, the middle school as an instructional unit is also clearly distinguished from the junior high. Special attention is paid to such issues as developmentally appropriate curriculum and instruction, academic teaming, adolescent social development, and student advising. Spring.

Prerequisite: EDU 3310, 3330 (or EDU 3330 may be taken concurrently),

and admission to the Teacher Education Program.

Three semester hours

EDUCATION 4329. SECONDARY METHODS AND CURRICULUM.

This course is an exploration of curricular issues (such as state curriculum standards, curricular design, scope and sequence and principles of curriculum development) coupled with secondary instructional methodology. Classroom management and discipline will be related to the various strategies. Field-based. TO BE TAKEN THE SEMESTER PRIOR TO STUDENT TEACHING. Fall, Spring.

Prerequisite: EDU 3310 and 3330 (or EDU 3330 may be taken concurrently)

and admission to the Teacher Education Program.

Three semester hours

EDUCATION 4339. SECONDARY EDUCATIONAL TECHNOLOGY.

This is a course in methodology and application. Development of an electronic portfolio, including an interdisciplinary unit. Educational computer technology, media and multimedia will be explored so students will be able to utilize current technology in the process of teaching all-level and secondary students. To be taken the semester before student teaching. Fall, Spring.

Prerequisite: EDU 3310 and 3330 (or EDU 3330 may be taken concurrently)

and admission to the Teacher Education Program.

Three semester hours

EDUCATION 4344. STUDENT TEACHING IN THE ELEMENTARY SCHOOL EARLY CHILDHOOD.

Directed observation and participation in the public schools at the early childhood level. Fall and Spring only.

Prerequisite: Admission to student teaching.

Three semester hours

EDUCATION 4349. ELEMENTARY INSTRUCTIONAL RESOURCES.

A course to include the development of aims and objectives of instruction and the preparation of the software to accomplish these goals. Special emphasis will be given to classroom management, unit planning, daily lesson planning and resources available to the classroom teacher. Field-based course. Fall, Spring.

Prerequisite: EDU 3310, 3330 (or EDU 3330 may be taken concurrently) and

admission to Teacher Education Program.

Three semester hours

EDUCATION 4354. LANGUAGE ACQUISITION AND DEVELOPMENT.

Examination of teaching strategies, questioning techniques, and learning theories in the development of children's emergent literacy by identifying problems through the language arts. Language development will be analyzed through investigation of developmental stages, prior experience, and individualization of diverse learners. Spring only.

*Prerequisites: EDU 3310, 3330 (or EDU 3310 and 3330 may be taken concurrently),
and admission to the Teacher Education Program. Three semester hours*

EDUCATION 4365/4370. STUDENT TEACHING IN THE ELEMENTARY SCHOOL.

Directed observation and participation in the public schools at the elementary level is required of students majoring in elementary education. Fall, Spring.

Prerequisite: Senior standing; admission to student teaching. Three semester hours each 7-1/2 weeks

EDUCATION 4365/4380. STUDENT TEACHING IN THE MIDDLE SCHOOL.

This course emphasizes directed observation and participation in the public school program at the middle school level. Required for middle school certification. Fall and Spring only.

*Prerequisite: EDU 3310, 3330; senior standing;
admission to student teaching. Three semester hours over a 7 1/2-week span.*

EDUCATION 4365/4390. STUDENT TEACHING IN ALL GRADES.

Directed observation and participation in the public school at both the elementary and secondary levels. Required of students applying for all-level certification. Fall, Spring.

*Prerequisite: EDU 3310, 3330; senior standing; Secondary—Three semester hours and
admission to student teaching. Elementary—Three semester hours*

EDUCATION 4375. PORTFOLIO AND TECHNOLOGY APPLICATIONS.

Students will complete their own professional portfolios using advanced technology. State-of-the-art technology and software will be utilized by elementary student teachers during the fifteen week student teaching program. This is the capstone seminar for assimilating all coursework and student experiences. Fall, Spring.

*Prerequisite: EDU 3310, 3330, admission to the Teacher Education Program
and senior standing; suggest it be taken during elementary student teaching. Three semester hours*

EDUCATION 4385/4390. STUDENT TEACHING IN THE SECONDARY SCHOOL.

This course emphasizes directed observation and participation in the public school program at the secondary level. Required for secondary certification. Fall and Spring only.

*Prerequisite: EDU 3310, 3330; senior standing;
admission to student teaching. Three semester hours each 7-1/2 weeks*

EDUCATION 4391. INTERNSHIP FOR TEACHERS I.

A supervised teaching internship of one semester in public or accredited private schools. The intern may be a teacher of record drawing pay at one of the certification levels and/or early childhood endorsement. Current Texas certification standards must be met.

*Prerequisite: Permission of dean/certification officer and
admission to student teaching. Three semester hours*

EDUCATION 4392. INTERNSHIP FOR TEACHERS II.

A second semester of a supervised teaching internship in public or accredited private schools. The intern may be a teacher of record drawing pay at one of the certification levels and/or early childhood endorsement. Current Texas certification standards must be met.

*Prerequisite: Permission of dean/certification officer and
admission to student teaching. Three semester hours*

Reading / Exercise and Sport Science

Reading

READING 4345. TEACHING READING IN THE ELEMENTARY SCHOOL.

The theory and practice of the reading process is emphasized. Research-based, best practice principles are applied to effective literacy instruction. Students develop a balanced literacy framework incorporating social and affective aspects, plus metacognitive, discourse, syntactic, vocabulary, and decoding knowledge **For education majors only.** Fall, Spring.

Prerequisite: Junior standing; Admission to the Teacher Education Program. Three semester hours

READING 4346. TEACHING READING IN THE CONTENT AREAS.

The importance of each teacher stressing reading in academic areas and techniques which can be used in content areas to improve reading. **For education majors only.** Fall, Spring.

Prerequisite: Junior standing; Admission to the Teacher Education Program. Three semester hours

READING 4347. TEACHING DEVELOPMENTAL READING.

A course designed to introduce techniques for the development of comprehension, vocabulary, rate, diagnosis, motivation, and evaluation used in teaching developmental reading. A special focus will be given to multicultural approaches and remedial procedures. Students will be required to participate in clinical reading experiences. **For education majors only.**

Prerequisite: REA 4345; Admission to the Teacher Education Program. Three semester hours

READING 4348. DIAGNOSIS AND REMEDIATION OF READING DIFFICULTIES.

The purpose of this course is to survey various types of reading assessments and examine reading difficulties, their cause, and correction. Special emphasis will be given to formal and informal instruments of assessing reading skills. Students will be required to conduct a case study with an elementary child who is reading below grade level. **For education majors only.**

Prerequisite: REA 4345; Admission to the Teacher Education Program. Three semester hours

Department of Exercise and Sport Science

Rick Beelby, Ed.D. - Head

FACULTY: Curly Cox, M.S.; Scott Owen, M.A.; Kimberly Rosato, M.S.; Mike Terrill, M.S.

PART-TIME/ADJUNCT FACULTY: Teresa Cavitt, B.A.; Justin Crossland; James Darby; Minessa Mesic; Jerome Nowowiejski, B.S.; Susan Oliver, M.Ed.

The department of exercise and sport science (ESS) serves the university in two unique ways. The department provides a general education physical activity program for all students and professional preparation programs for students interested in careers in human movement studies (additional information in the Glossary).

General Education Physical Activity Program

The general education physical activity program provides opportunity for students to fulfill the general education requirement of two physical activity hours: one Class A and one Class B or two Class A activities. The student is expected to demonstrate a level of competency commensurate with lifetime physical activity that allows for 1) physical fitness appropriate for maintaining good health, 2) neuromuscular skills and knowledge of physical activity appropriate for maintaining continued involvement in lifetime recreational activities, and 3) the understanding of the value of human movement as it relates to beneficial psychological and spiritual health.

A variety of activities are offered in an attempt to meet expected outcomes, as stated above, for a diverse

student population. Activities are classified A, B or C. Class A activities emphasize health-related physical fitness. Class B activities emphasize psychomotor skills and social-psychological learning experiences that are specific to participation in dual and team activities. Class C activities are varsity athletics and do not fulfill the general education requirement for graduation but may count, one time only, as an elective credit. The credit value of each exercise and sport science physical activity class may be one or two credit hours; however, only one credit hour may be credited toward the graduation requirement for successful completion of the two activity courses.

Graduation Requirements. All students are required to successfully complete two activity courses (two class A, or one class A and one class B). Activity courses cannot be repeated for credit. No more than four hours of physical activity, including varsity athletic credit, can be counted toward a degree. When required as part of a major, minor, or area of interest such as those in Exercise and Sport Science, more than four hours of physical activity classes may be counted toward a degree. Varsity athletic credit may be used only once as an elective credit.

Professional Preparation Programs

Fulfillment of the General Education Exercise and Sport Science requirement for physical activity may be satisfied by taking ESS 2340 with the exception of those students wishing to take the Physical Education All-Level Certification area of interest. Students with an interest in All-Level Teacher Certification within the ESS major should take ESS 3130 and ESS 3140 to satisfy the General Education physical activity credit.

Through courses in exercise and sport science, students will be given the opportunity to develop knowledge and skills necessary for successful careers in physical education, exercise and sport management, coaching, personal training, recreation, and athletic training. Additionally students will be able to prepare for the rigorous physical fitness demands required for those seeking careers in emergency and disaster response, police work, firefighting, and the military. The programs are multidisciplinary in nature.

Bachelor of Science in Exercise and Sport Science Areas of Interest

The Bachelor of Science Degree in Exercise and Sport Science consists of 36 to 39 hours depending on the student's area of interest. The major includes an 18 hour core consisting of ESS 1301, 2110, 2259, 3303, 3304, 3325, 4305 and a 3-hour capstone course of ESS 4306. An additional 15 to 18 hours in exercise and sport science complete the requirements for the major. The capstone course unifies the exercise and sport science major and provides a forum in which the student's mastery of the major can be demonstrated. Students may elect one of the following five areas of interest:

Physical Education with All-Level Teacher Certification: 19 hours consisting of ESS 1351 or 1352, 2340, 2400, 3327, 4000, 4326, and 4328.

Physical Education: 15 hours consisting of ESS 1351 or 1352; 2 hours from ESS 2210, 2212, 2214, 2216, 2217, 2218, 2220, 2222, or 2224; 2 hours from ESS 2262, 2263, or 2264; 3130 and 3140; 1 hour from 4129, 4130, or 4131; 4331; and 2 hours from the Class A or Class B physical activities.

Exercise and Sport Management: 16 hours consisting of ESS 1351 or 1352; 3130 or 3140; 2 hours from ESS 2210, 2212, 2214, 2216, 2217, 2218, 2220, 2222, or 2224; 4 hours from ESS 2262, 2263 or 2264; 3 hours from 4130 and/or 4131; and 4331.

Coaching: 17 hours consisting of ESS 1351 or 1352; 4 hours from ESS 2210, 2212, 2214, 2216, 2217, 2218, 2220, 2222, or 2224; 2 hours from ESS 2262, 2263 or 2264; 2260; 2261; 4130; and 4331.

Personal Trainer: 15 hours consisting of ESS 1351; 4234; 4333; 1209; 1110; and 4 hours from the Class A or Class B physical activities.

Exercise and Sport Science

Exercise and Sport Science Minors

Exercise and Sport Science General Minor: 24 hours consisting of ESS 1301; 1351 or 1352; 2340; 2259; 2260; 2261; 3325; and 6 elective ESS hours.

Exercise and Sport Science Coaching Minor: 24 hours consisting of ESS 1301; 1351; 2110; 2259; 2260; 2261; 4331; 4 hours from ESS 2210, 2212, 2214, 2216, 2217, 2218, 2220, 2222, and 2224; and 2 hours of ESS electives.

Exercise and Sport Science Soccer Minor: 24 hours consisting of ESS 1301; 1351; 2110; 2217; 2264; 2259; 2260; 2261; 4130; 4331; 3 hours of ESS electives.

Exercise and Sport Science for Youth Ministry Minor: 24 hours consisting of ESS 1101; 1115; 1351 or 1352; CED 2342; ESS 2259; 2261; 3270; 4306; 2 hours from ESS 2210, 2212, 2214, 2216, 2217, 2218, 2220, 2222, and 2224; 2 hours from ESS 2262, 2263, or 2264; and 3 hours from the Class A or Class B physical activities.

Exercise and Sport Science Outdoor Recreation Leadership Minor: 23-24 hours consisting of ESS 1101; 1103; 1116; 1351 or 1352; 2260; 2261; 3270; 3271; 3272; 4131; 4306; 3 hours from 1 of the following 4 series: (1) 1101, 1120, 1105; (2) 1116, 1117, 1118; (3) 1102, 1104, 1106; or (4) 1125, 1126, 1127; and 1 or 2 hours ESS elective.

Exercise and Sport Science Intramural Recreation Leadership Minor: 24 hours consisting of ESS 1116; 1351 or 1352; 2260; 2261; 2262; 2263; 3140; 4131; 4306; 4331; and 4 hours from the Class A or Class B physical activities.

Program Requirements

Laboratory science requirements for all ESS areas of interest and ESS minors are BIO 2489 and 2499.

Varsity athletic credit (Class C) may be used for elective credit only and only one semester hour of varsity credit may be used in meeting degree requirements.

Students taking a two credit hour physical activity course may receive only one hour of credit toward General Education-Exercise and Sport Science activity course requirement.

Any person who has been honorably discharged from the military may receive two semester hours of credit for six months active duty. This credit may be used to fulfill the General Education-Exercise and Sport Science activity course requirement. A copy of VA Form DD-214 must be on file in the Registrar's Office before credit may be granted.

Exercise and sport science majors and minors are required to successfully complete each ESS course with a grade of "C" or better.

Program Admission

A. Enrollment in advanced ESS courses (3000 and 4000 level) for ESS majors or ESS minor is contingent upon:

1. a minimum grade of "C" in: ESS 1301, 1350 or 1351 or 1352, 2110, 2340 or 2260 or 2261.
2. completion of an application for admission and an interview with ESS faculty.

B. **Other Majors.** Students in other programs with required advanced ESS courses (pre-physical therapy, elementary education) must meet the admission requirements of that program and should consult their major advisor before enrolling.

Physical Education Teacher Certification Admission to Teacher Education Program (TEP)

Exercise and sport science majors whose area of interest is all-level physical education, and who seek teacher certification, must be recommended by the faculty of the department of exercise and sport science to the Teacher Education Program (TEP) and to student teaching or internship. Criteria for recommendation are published in this catalog beginning on page 168 and in the Teacher Education Handbook.

Athletic Training Education Program

The Athletic Training Education Program (ATEP) is designed for the purpose of preparing students for careers in the field of athletic training. All athletic trainers who wish to practice in the State of Texas must be licensed by the Texas Department of Health, Advisory Board of Athletic Trainers. Students of Howard Payne University seeking to become eligible to sit for the athletic training licensure exam must meet the requirements listed below.

1. Earned baccalaureate degree;
2. Successful completion of BIO 2489, BIO 2499, ESS 2259, ESS 3303, ESS 3304, ATR 1351, ATR 1352, ATR 2351, ATR 3351, ATR 3354, and ATR 4351. A minimum grade of "C" is required for all courses.
3. Successful completion of an apprenticeship program directed by the Howard Payne University ATEP Director, which consists of 1800 clock hours completed during at least five fall and/or spring semesters;
4. Current certification in standard first aid and adult Professional CPR.

All students wishing to pursue this program must complete the following requirements before enrolling in ATR 2351 and beyond:

1. Submission of an application, high school and college (if applicable) academic records, a resume, and 2 letters of recommendation to the ATEP Director*
 2. Provide documentation of a current medical / health history and physical examination*
 3. Interview with the ATEP Director or designee*
 4. Successfully complete ATR 1351, 1101, and BIO 2489 with a grade of "C" or better
- * Students are encouraged to complete numbers 1-3 before enrolling in ATR 1351.

The HPU Athletic Training Program is currently pursuing accreditation by the Commission on Accreditation of Athletic Training Education (CAATE). Once CAATE accreditation is granted, students who have completed the CAATE accredited ATEP will be eligible to sit for the National Athletic Trainer Association Board of Certification (NATABOC) exam.

Students pursuing careers as athletic trainers are encouraged to complete the requirements for teacher certification in the subject concentration of their choice.

The Bachelor of Science Degree in Athletic Training consists of 48 hours. The major includes a 24 hour core consisting of ATR 1351, 1352, 2251, 2252, 2253, 3351, 3354, 3355, and 4351, as well as a minimum of 6 academic hours of ATR practicum class taken sequentially one per semester. An additional 8 hours in exercise and sport science, ESS 2259, ESS 3303, and ESS 3304, and 8 hours of biology, BIO 2489 and BIO 2499 complete the requirements for the major.

Exercise and Sport Science / Athletic Training

The Athletic Training Minor consists of 38 hours to meet the minimum course requirements set forth by the Texas Department of Health, Advisory Board of Athletic Trainers. The minor includes a core of 17 ATR hours consisting of ATR 1351, ATR 1352, ATR 2251, ATR 3351, ATR 3354, and ATR 4351, as well as a minimum 5 academic hours of ATR practicum class taken sequentially one per semester. An additional 8 exercise and sport science hours, ESS 2259, ESS 3303, ESS 3304, and 8 hours of Biology, BIO 2489, BIO 2499 complete the requirements for the minor. The Texas Department of Health, Advisory Board of Athletic Trainers, requires that all minor course work be completed with a minimum grade of "C".

Students electing to earn a baccalaureate degree at Howard Payne University with the intent of becoming a certified athletic trainer should prepare themselves to enter a CAATE accredited, entry-level graduate athletic training education program upon graduation.

ESS Activity Courses - Class A

EXERCISE AND SPORT SCIENCE 1101. BEGINNING ALPINE SKIING/SNOWBOARDING.

Alpine Skiing is open to all students. The class accommodates those who have never skied as well as those at beginner through expert level. The lecture series covers the history of skiing, ski equipment, ski clothing, ski technique, and ski safety. The lab activity is conducted at a ski resort in Colorado and consists of three days of skiing using a rustic mountain cabin as the base camp. Students experience opportunities for leadership and the development of social interaction skills while maintaining the cabin and in preparing the meals. Fall.

Basic canoeing introduces the student to the fundamentals of safe canoeing. Students are instructed in basic canoe paddle strokes, small craft safety, and the navigation of lakes and Class I and II rivers. Fall.

Prerequisite: None.

One semester hour

EXERCISE AND SPORT SCIENCE 1105. ADVANCED ALPINE SKIING/SNOWBOARDING.

The student is expected to improve on leadership and skills acquired in ESS 1101 and 1120 through classroom presentations, ski trip organization, development of Alpine Skiing manual, and on the mountain ski pedagogy appropriate to the student's skill level. The student who successfully completes this course of instruction will receive an HPU-ESS Certification declaring that the student has successfully completed training in the Alpine Skiing leadership program. Fall.

Prerequisite: ESS 1120.

One semester hour

EXERCISE AND SPORT SCIENCE 1110. AEROBICS INSTRUCTOR PRACTICUM

The student will intern as an apprentice under the supervision of the aerobics instructor to develop skills and experience as an aerobics leader and instructor. Spring.

Prerequisite: ESS 1209.

One semester hour

EXERCISE AND SPORT SCIENCE 1111. WALKING AND JOGGING.

The purpose of this course is to provide the student with the opportunity to improve cardiovascular endurance by walking, jogging or running. The student will learn the appropriate ways of warming-up, cooling-down, and determination of target heart rate.

Prerequisite: None.

One semester hour

EXERCISE AND SPORT SCIENCE 1112. AEROBIC DANCE.

The purpose of this course is for the student to obtain knowledge pertaining to lifetime fitness (i.e. nutrition, injury prevention, heart rate monitoring). Students will participate in every phase of the aerobic activity segments and develop a broad base of knowledge concerning exercise activity.

Prerequisite: None.

One semester hour

EXERCISE AND SPORT SCIENCE 1113. WEIGHT TRAINING.

The purpose of this course is to provide the student with a foundation of current knowledge and practice in beginning weight training.

Prerequisite: None.

One semester hour

EXERCISE AND SPORT SCIENCE 1114. WATER AEROBICS.

The purpose of this course is to provide students the opportunity to improve cardiovascular endurance through aquatic resistance exercises. The student will learn how to move in the aquatic environment safely while efficiently using water as a resistance modality for enhancing muscular and cardiovascular fitness.

Prerequisite: None.

One semester hour

EXERCISE AND SPORT SCIENCE 1116. BEGINNING ROCK CLIMBING.

The purpose of Beginning Rock Climbing is to provide an opportunity for students to learn and adopt safe climbing methods and skills. The course will focus on assisting the student in developing practical techniques and introduce them to professional standards.

Prerequisite: None.

One semester hour

EXERCISE AND SPORT SCIENCE 1117. INTERMEDIATE ROCK CLIMBING.

The purpose of Intermediate Rock Climbing is to provide an opportunity for students to advance their skills and knowledge of safe climbing methods beyond the beginner level and to learn the fundamentals of leadership as a rock climbing guide.

Prerequisite: ESS 1116 or consent of instructor.

One semester hour

EXERCISE AND SPORT SCIENCE 1118. ADVANCED ROCK CLIMBING.

The purpose of Advanced Rock Climbing is to provide advance development of skills and knowledge of safe climbing methods. Successful completion of the class will allow the student to challenge the HPU Certification Test as a Top Rope Manager for Wall Climbing.

Prerequisite: ESS 1117 or consent of instructor.

One semester hour

EXERCISE AND SPORT SCIENCE 1119. GENERAL GYMNASTICS.

Students will practice fundamental elements of gymnastics, emphasizing floor work and tumbling. Flexibility, strength training, and the development of agility and balance will be the major emphasis of this class. The class is open to beginning through advanced levels and students will practice at their own level of achievement.

Prerequisite: None.

One semester hour

EXERCISE AND SPORT SCIENCE 1120. INTERMEDIATE ALPINE SKIING/SNOWBOARDING.

The student is expected to gain leadership experience through classroom presentations and on the mountain ski pedagogy appropriate to the student's skill level and to continue the process of gaining knowledge and skill of Alpine Skiing as a healthful lifetime sport. Fall.

Prerequisite: ESS 1101.

School of Humanities

JUSTIN D. MURPHY, Ph.D., Dean

The School of Humanities offers programs leading to the Bachelor of Arts or Bachelor of Science degrees to students having interests or career objectives involving individual and community relationships. Majors are available in the following disciplines: criminal justice, English, family studies, history, political science, psychology, social work, social studies composite, Spanish, teaching English to speakers of other languages, and the Academy of Freedom Honors Program (multidisciplinary). School of Humanities departments that offer minors include English, Modern Languages, History, Political Science, Psychology, Family Studies, Criminal Justice and Sociology. Teacher certification is available in English and language arts, Spanish, history and social studies composite. (See the School of Education section of the catalog.)

LEGAL STUDIES PROGRAM

Normally, the sole specific academic requirements for admission to law schools are a baccalaureate degree and acceptable scores on the law school admission test. Thus, students may qualify for law school admission with a major concentration in any academic field or any baccalaureate degree program.

However, the law schools in Texas and other states, and many of the colleges which prepare students for them, stress as desirable a broad background, usually with concentration in one of the humanities or communications areas. They also recommend specific fields where familiarity is important, as, for example, logic, writing ability, and philosophy. Howard Payne University offers a pre-law specialization in political science emphasizing all three.

The Douglas MacArthur Academy of Freedom is predicated on those principles. It seeks to give breadth of background in many areas, including those noted above, to students who will probably not have opportunity for formal training in those areas during the highly specialized law school years. It includes only a minimum of specifically law-oriented courses on the assumption that much of this will be covered later. In short, it aims to complement the specialized law training with a broad-based undergraduate grounding in areas relevant to the lawyer's task.

At the same time, this program can be useful to those who ultimately choose to work in other areas, such as government service. In place of the usual major and minor concentrations, it substitutes a broader field of study that opens many paths to professional and personal growth. For these reasons, the Douglas MacArthur Academy of Freedom is highly recommended for students anticipating law school.

Students in general-education English courses will become adept at using information technology and at developing research skills, will improve their vital language skills, and will enrich their appreciation of the beauty and value of our literary heritage. English majors and minors will further build and refine these cognitive and affective skills.

A Bachelor of Arts degree in English requires thirty to thirty-six semester hours including: ENG 1311, 1312, and up to six hours at the 2000-level. Of the remaining semester hours, all may be at the 4000-level and are chosen in consultation with the English faculty. If the student elects to take 3000-level courses, only six semester hours may be counted toward the first thirty semester hours of the major.

Students seeking secondary teaching certification may choose a Bachelor of Science composite degree in Secondary English Language Arts and Reading. This composite degree includes the following courses: ENG 1311, ENG 1312, six hours of sophomore surveys (chosen from ENG 2351, ENG 2353, or ENG 2373), COM 1310, REA 4346, ENG 3304, ENG 4360, and ENG 4000. In addition, choose from the following groups: nine hours of skills/developmental classes (ENG 3302, 4302, 4303, 4304, 4308, or 4336); nine hours of literature (ENG 4312, 4313, 4315, 4316, 4321, 4322, 4323, 4324, or 4325); and six hours of media knowledge/writing classes (COM 1311, 1312, 3353, ENG 3303, 3305, 3306 or JOU 2312). In the media knowledge/writing group, no more than three hours may be in English. This comprises 36 hours of English and twelve hours of related fields for a 48-hour program.

A minor in English requires eighteen to twenty-four semester hours including: ENG 1311, 1312, and

three hours at the 2000-level. Of the remaining nine to fifteen semester hours, three more may be taken at the 2000-level. Only six hours of 3000-level courses may be taken without the permission of the head of the English department.

Students who score 14 or below on the English section of the ACT test (11 or below on the pre-1989 ACT) or 260 or below on the SAT (340 or below on the SAT I effective April 1995) are required to pass ENG 1304, a preparatory course, prior to enrollment in ENG 1311. Students with ACT scores between 15 and 17 (between 13 and 15 on the pre-1989 ACT) or between 270 and 330 on the SAT (350-410 on the SAT I) or who have no ACT or SAT scores are required to take a departmental proficiency test to determine more accurately which freshman writing course best suits their skills.

Writing Minor

Students who are not majoring in English but who want potential employers and professional and graduate schools to note their ability to communicate may decide to minor in writing.

A writing minor consists of 18-24 semester hours to include:

ENG 1311 English Composition I

ENG 1312 English Composition II

Sophomore English — 3 semester hours

A minimum of 9 semester hours chosen from:

ENG 3304 Advanced Grammar

Modern Languages

Department of Modern Languages

Danny Brunette-Lopez, Ph.D. - Head

FACULTY: Carla Hawkins, M.A.

Majors and minors in Spanish will be able to communicate effectively in both oral and written Spanish. They will be familiar with Hispanic culture. Majors will become conversant with the major authors and movements of Hispanic literature. Students with a teaching field in Spanish will be able to pass the required State exams. Students in the General Education sequence in Modern Languages will be able to communicate above the low intermediate level according to the ACTFL guidelines.

Courses in the modern languages department are designed to help students develop communication skills through listening, speaking, reading and writing. Courses in Spanish may be taken to fulfill the foreign language requirement for the Bachelor of Arts degree.

Students who have had previous instruction in foreign languages should arrange to take the CLEP test to determine their level of proficiency. This examination should be taken before students enroll in class, since students may not receive credit through examination for a class in which they are simultaneously enrolled. The examination is administered by the university's director of academic testing several times each year, including summers. Through CLEP, students may receive up to twelve semester hours of credit in a foreign language. Credit received in this manner may be counted in the total number of language hours required for the Bachelor of Arts degree or for a language major or minor.

The modern languages department offers a major in Spanish, consisting of thirty to thirty-six semester hours. Depending on their goals and interests, students may plan their individual programs of study with an emphasis on culture, literature or teaching. Required courses include: SPA 1411, 1412, 2411, or their equivalent, SPA 3350, and fifteen to twenty-one advanced hours of Spanish chosen in consultation with a faculty advisor. Students taking the required courses have access to a native speaker as a conversation partner.

Students seeking a minor in Spanish are required to take twenty-one to twenty-four semester hours including: SPA 1411, 1412, 2411, or their equivalent, SPA 3350, and six to nine advanced hours of Spanish chosen in consultation with a faculty advisor.

Students seeking teacher certification in Spanish must take thirty-five semester hours, including: SPA 1411, 1412, 2411, or their equivalent, SPA 3350, 3352, 4210, 4311, 4000, and twelve additional advanced hours of Spanish, which must include 6 hours of study abroad in a Spanish-speaking country. For additional information, see the School of Education section of this catalog.

Study Abroad

The university requires that students seeking a degree in Spanish Education complete a minimum of 6 semester hours of Spanish in a recognized university program in a Spanish-speaking country.

Department of History, Political Science, and Geography

Matthew McNiece, Ph.D. - Head

FACULTY: Samuel Greene, M.Phil.; Mandy Locker, J.D.; Robert G. Mangrum, Ph.D.; Jennifer McNiece, M.A., M.P.A.; Justin D. Murphy, Ph.D.; John Nickols, M.A.

Through studying history, political science, and geography, students will develop an enhanced comprehension of current events, a better appreciation of art, architecture, ideas, and politics, and an improved understanding of their fellow human beings and their activities.

Students taking the general education course in history will develop the skills required to seek knowledge, analyze complex issues and present conclusions in a clear and thoughtful manner as well as have an improved understanding of American history or world history.

Students taking the general education course in political science will develop the skills required to seek knowledge, analyze complex issues and present conclusions in a clear and thoughtful manner as well as learn the basic theoretical and philosophical tenets of politics and the American political system.

History

The word history comes from the Greek and Latin terms for inquiring and knowing. It describes a branch of study in which we seek to learn about human life over time. Since present-day concerns often inspire the study of the past, historians debate concepts and theories about why humans have acted in specific ways, which leads to an understanding not only of the past but also of the present, while also providing a guide for the future. The study of history provides students with the skills required to seek knowledge, analyze complex issues, and present conclusions in a clear and thoughtful manner. A major in history prepares students for professional careers in teaching, research, journalism, and government service.

The history curriculum offers course work leading to the Bachelor of Arts degree. There are two capstone courses for the history major: HIS 4381 Issues in Contemporary American Society and HIS 4303 Europe Since 1919. Together these two courses unify the history major and provide a forum in which the student's mastery of the major can be demonstrated.

The **Bachelor of Arts Degree** in History requires 36 hours, which includes a 15 hour core consisting of HIS 1310, 1320, 2310, 2320, and 2330, 6 hours from the two capstone courses HIS 4303 and HIS 4381, and 15 advanced hours in history. Students may elect one of the following two areas of emphasis:

American History: 12 hours selected from HIS 3303, 3310, 3322, 3332, 3340, 3355, 4311, 4325, 4351 or 4366 and 3 additional advanced hours of history from outside the emphasis area.

Modern European History: 12 hours selected from HIS 3303, 3343, 3381, or 3391 and 3 additional advanced hours of history from outside the emphasis area.

The department recommends that students majoring in history take 12 hours of Spanish to meet their language requirement for the Bachelor of Arts degree. In addition, students who intend to pursue a graduate degree in history are strongly recommended to take HIS 3303.

Students seeking **Teacher Certification in History** must take HIS 4000 and HIS 4311 as part of the major.

The Department also offers a major in Social Studies in the Bachelor of Arts or Bachelor of Science for students seeking Teacher Certification in Social Studies or a multidisciplinary degree in the social sciences. There are two capstone courses for the social studies major: HIS 4303 Europe Since 1919 and POS 4381 Issues in Contemporary American Society. Together these two courses unify the social studies major and provide a forum in which the student's mastery of the major can be demonstrated.

The **Bachelor of Arts and Bachelor of Science degree in Social Studies** requires 54 hours as follows:

History Core: 15 hours (HIS 1310, 1320, 2310, 2320, and 2330)

Political Science Core: 6 hours (POS 2311 and POS 2322 or 2340)

Geography Core: 6 hours (GEG 2310 and GEG 3300 or 3320)

Economics Core: 6 hours (ECO 2301 and ECO 2302, or ECO 2350 and ECO 4390)

Advanced History: 6 Hours

Advanced Political Science: 9 Hours (POS 3321, 3361, 3371, 3381, 4303, 4351, 4389, 4391, or 4392)

Capstone: 6 Hours (HIS 4303 and POS 4381)

Students seeking Teacher Certification in Social Studies must take HIS 4000 and HIS 4311 within the major and must take PSC 1429 Meteorology, Earth Science, and Chemistry to meet 4 hours of the lab science requirements in general education. The department strongly recommends that students take 12 hours of Spanish to meet their language requirement for the Bachelor of Arts degree.

Student seeking a minor in history must take 24 semester hours consisting of HIS 1310, 1320, 2310, 2320, 2330, and 9 advanced history hours.

All prerequisites must carry a grade of "C" or better, or consent of the head of the department.

As the primary Institutional Effectiveness tool utilized by the history department, each history major and social studies composite major **MUST** take a departmental exam in history prior to graduation and must take the departmental survey in the two capstone courses of HIS 4303 and POS 4381.

Political Science

The political science program is designed to introduce the students to the basic theoretical and philosophical tenets of politics; to provide the opportunities to gain practical research experience using contemporary techniques of political analysis; to help the students gain a better perspective of the American political system in an international context; and to provide background training for such professional fields as law, policy research, teaching, journalism, management, government service, and diplomatic service.

The program has a specific four-fold purpose and goal.

1. To prepare political science majors for graduate study in law and political science leading to professional careers in such areas as college teaching, the legal profession, international diplomacy, public administration, or other governmental-type work.
2. To provide all students seeking a degree with the skills necessary for understanding and participating intelligently in the political life of the community.
3. To help all students taking political science courses, including students entering other professions, develop the skills necessary for sophisticated prediction, criticism and interpretation of political behaviors and the interactions within and among nation states.
4. To prepare students for entry-level work in political science-related career fields.

The political science curriculum offers course work leading to the Bachelor of Arts Degree or Bachelor of Science Degree in Political Science. The capstone course for the political science major POS 4392 Christianity, Ethics, and Politics unifies the political science major and provides a forum in which the student's mastery of the major can be demonstrated.

The Bachelor of Arts and Bachelor of Science Degree in Political Science requires 36 hours, which includes a 15 hour core consisting of POS 2311, 2322, 2350, 3381, and 4390, 3 hours from the capstone course of POS 4392, and 18 hours in political science. Students may elect one of the following three areas of emphasis:

International Studies: 12 advanced hours selected from POS 3300, 3303, 3321, 3361, 3371, or 4389 and 6 additional hours of political science from outside the emphasis area or up to 6 additional hours selected from BUS 3335, or CCS 4341.

Prelaw: 12 advanced hours selected from POS 3301, 3311, 3341, 3361, 3391, 4354, 4355, or 4361 and 6 additional hours of political science from outside the emphasis area.

American Politics: 12 advanced hours selected from POS 3303, 3340, 3371, 4303, 4381, 4391, or 4399 and 6 additional hours of political science from outside the emphasis area or up to 6 additional hours selected from BUS 3351, ECO 3320, COM 3353, and MGT 3303.

The department recommends that students pursuing the Bachelor of Arts Degree choose Spanish as their language requirement, and that students pursuing the Bachelor of Science Degree choose MAT 3321 Introduction to Probability and Statics as their higher math requirement in the general education degree. In addition, the Department recommends that political science majors take HIS 2310 and HIS 2320 as electives.

A minor in political science shall consist of 18-24 hours, including POS 2311, 2322, 2350, 4392, and 6-12 hours of political science chosen in consultation with the head of the department.

Students may take POS 3100 International Organizations up to three times as part of their political science major or minor. Any hours taken beyond that will count toward electives.

Students may take POS 3161 Moot Court up to three times as part of their political science major or minor. Any hours taken beyond that will count toward electives.

Department of Psychology and Family Studies

Keith Mask, Ph.D. - Head

FACULTY: Athena Bean, Ed.D.; Jennifer Clement, Ph.D.

The Department of Psychology and Family Studies offers programs leading to both the Bachelor of Arts and Bachelor of Science degrees. Undergraduate degrees in psychology and family studies are primarily designed to prepare students for graduate programs in the behavioral sciences and/or employment in the mental health and the family services field.

Psychology

Psychology is a multifaceted discipline that seeks to better understand the nature of human behavior. The undergraduate major in psychology at HPU will provide students with opportunities to: (1) explore the foundational content domains of psychology, (2) develop their skills in conducting and evaluating psychological research, and (3) learn how to evaluate the important theories and presuppositions in psychology from a Christian worldview.

In an effort to provide a comprehensive training program, the Psychology Department has chosen academic requirements that would support the needs of students wanting to pursue graduate training in psychology, counseling, marriage and family therapy and other related fields of study. In addition, the psychology major may function as a solid liberal arts degree for students wishing to pursue graduate or professional training in other fields such as medicine, law, theology, business, and education. The psychology degree may be chosen by students who plan to enter the job market following the completion of their bachelor's degree.

Students choosing a major in psychology must take thirty-one hours including PSY 1311, 2330, 2351, 3321, 3351, 3355, and 4439. In addition, students will choose nine hours of psychology electives in consultation with their faculty advisor. Students have the option of utilizing their nine hours of electives to create a specialty track in General Psychology, Counseling/Clinical Psychology, Family Psychology, or Psychology and Ministry. All psychology majors will be required by the end of their senior year to have taken a national subject area test in psychology. Students majoring in psychology may take COM 2320 or COM 2330 in lieu of COM 1310 for the general education requirement.

Specialty Tracks in Psychology - Students may take 9 hours in any one of the following tracks or they may select 9 hours of psychology electives:

General Psychology - 9 hours of psychology electives chosen in consultation with their Psychology faculty advisor.

Counseling/Clinical Psychology (choose 3 courses): PSY 4332 Intro to Counseling and Psychotherapy, PSY 3361 Psychological Testing, PSY 4371 Intro to Marriage and Family Therapy, PSY 4302 Health Psychology, PSY 3341 Social Psychology

Family Psychology (choose 3 courses): PSY 2311 Marriage and Family, PSY 4371 Intro to Marriage and Family Therapy, PSY 3342 Adolescent Psychology, PSY 4300 Human Sexuality, FST 3360 Parent-Child Relations

Psychology and Ministry (choose 3 courses): PSY 2311 Marriage and Family, PSY 3301 Integration of Psychology & Christianity, PSY 4332 Intro to Counseling and Psychotherapy, PSY 4371 Intro to Marriage and Family Therapy, PSY 4300 Human Sexuality, CED 4331 Intro to Christian Care and Counseling

A minor in psychology shall consist of PSY 1311, 3355, and twelve (12) additional semester hours chosen in consultation with a member of the psychology faculty.

All prerequisites must carry a grade of "C" or better, or consent of instructor.

Department of Criminal Justice, Social Work, and Sociology

Daniel Humeniuk, M.S.S.W. - Head

FACULTY: Lynn Humeniuk, M.A. - Program Director of Criminal Justice; Toni Damron, M.S.S.W.; Paul Lilly, M.S.; Mandy Locker, J.D.

PART-TIME/ADJUNCT FACULTY: David Balkum, J.D.; Kerri Fisher, M.S.S.W.; Chad Gann, M.A.

The department of criminal justice, social work and sociology offers programs leading to both the Bachelor of Arts and Bachelor of Science degrees. The needs of students requiring a substantive knowledge of criminal justice, social work and/or sociology for professional competence, graduate study, or personal enrichment are addressed by the department's program options and individual courses. Honor students in the Douglas MacArthur Academy of Freedom may choose the criminal justice or the social work major as their approved field of specialization. See the Academy of Freedom section of this catalog for details.

The range of substantive content in the discipline and the range of interests of students have resulted in two major options being provided in criminal justice and social work and a minor in sociology.

Criminal Justice

The criminal justice program offers degree choices in Bachelor of Arts, Bachelor of Science, or the Bachelor of Applied Arts and Sciences. To prepare majors in the field of criminal justice, emphasis will be placed on the roles of policing, courts, laws, and correctional systems at the local, state, federal and international levels. Sociological and psychological perspectives of offenders, victims, and professionals who interact in the criminal justice system will be explored and reviewed. Students taking introductory level courses in Criminal Justice will be able to understand the operations of the criminal justice system in social interaction as well as on an individual basis.

Students having a major in criminal justice must take 33-35 semester hours including CRJ 1310, 1320, 3301, 3330, 3360 and 4370. One three-hour class chosen from CRJ 2351, 3341, 3343, 3351 or 4361 must also be taken. Additional courses and internships will be decided in consultation with a faculty advisor depending on the career goals of the student. Students may also elect an area of emphasis in Restorative Justice or Forensic Science as described below.

Restorative Justice

The purpose of the courses in Restorative Justice is to provide students with an understanding of the basic principles of this particular field of criminal justice. Prevention and correctional programs are beginning to focus on providing an environment that will include victim, offender, families and communities. The appropriateness of this area of emphasis depends upon the student's vocational objectives and will seek to integrate the fields of Criminal Justice, Sociology, Social Work, and Communication Studies. This area of emphasis will not meet criteria for licensure or credentials in the vocation of professional mediator.

Students electing an area of emphasis in Restorative Justice will take CRJ 2392 Restorative Justice in the Juvenile System, CRJ 2390 Principles of Restorative Justice, CRJ 3320 Special Topics in Restorative Justice, and CRJ 3359 Restorative Justice and Conflict Resolution.

Forensic Science

The purpose of the courses in the Forensic Science is to offer a curriculum for criminal justice majors/minors to understand, communicate effectively and critically think through the practice of forensic science. The appropriateness of this area of emphasis is dependent upon the students' vocational objectives and will seek to integrate the areas of evidence and crime scene reconstruction, hands-on experience with field samples in a laboratory setting, become familiar with scientific technologies and techniques in criminal investigations, and study actual unsolved or hypothetical criminal cases.

Students electing an area of emphasis in Forensic Science will take CRJ 2479 Introduction to Forensic Science, CRJ 2489 Scientific Criminal Investigation, CRJ 3479 Crime Scene Analysis and CRJ 4279 Forensic Files Analysis.

A minor in criminal justice shall consist of CRJ 1310 and 1320 and 12-16 additional semester hours chosen in consultation with a member from the criminal justice faculty.

For the general education requirements, students must select the following course: BIO 2489 Human Anatomy and Physiology I.

All prerequisites must carry a grade of "C" or better, or consent of instructor.

The Douglas MacArthur Academy of Freedom

Justin D. Murphy, Ph.D., Director

As the multidisciplinary public policy honors program of Howard Payne University, the Douglas MacArthur Academy of Freedom is designed for academically gifted students who aspire to leadership roles in a variety of careers. The Academy program prepares students to read critically, think analytically, and communicate ideas effectively. Through a broad-based liberal arts education that emphasizes Judeo-Christian values, Western Civilization, Free Enterprise, and political awareness, the Academy explores the meaning and significance of traditional American values and seeks to understand the problems of contemporary society. Students develop critical thinking skills by analyzing current issues through the multidisciplinary Academy major, which includes courses from the School of Humanities and the School of Business.

The Academy major has been carefully designed to challenge the student intellectually and experientially. Through the expeditious selection of related and elective courses, chosen with the assistance of the student's academic advisors, thorough academic preparation for a specific career field can be acquired. The Academy Bachelor's Thesis, which is the product of ACA 4108, ACA 4109, and ACA 4110, serves as the capstone for the academic program by providing a theoretical as well as a practical application and demonstration of the student's mastery of the multidisciplinary aspects of the honors program as student's research, prepare, and defend a thesis on a public policy topic selected in consultation with the Academy Director.

General Information and Requirements

Degrees

The Bachelor of Arts, the Bachelor of Science, or the Bachelor of Business Administration Degree may be obtained with the Academy of Freedom program as the area of concentration.

The Academy Major

The Academy major provides a multidisciplinary course of study that has been carefully designed to challenge students intellectually and experientially by examining contemporary domestic and international issues, to prepare students to analyze, evaluate, and formulate public policy, and to produce graduates who will be leaders in their communities and within their career field.

SECOND MAJOR REQUIREMENTS

In addition to the Academy major, Academy Students must also choose a second major in an approved field of specialization. While not every major at Howard Payne is feasible for Academy students to pursue, the following majors are available:

- | | |
|-------------------------------|--------------------------------------|
| Accounting (BBA) | Forensic Science (BA, BS) |
| Bible (BA) | History (BA) |
| Biblical Languages (BA) | Management (BBA) |
| Biology (BA, BS) | Management Information Systems (BBA) |
| Business Administration (BS) | Marketing (BBA) |
| Christian Education (BA) | Mathematics (BA, BS) |
| Communication Studies (BA) | Political Science (BA, BS) |
| Criminal Justice (BA, BS) | Practical Theology (BA) |
| Cross-Cultural Studies (BA) | Psychology (BA, BS) |
| Elementary Education (BA, BS) | Social Studies Composite (BA, BS) |
| English (BA) | Social Work (BA, BS) |
| Family Studies (BA, BS) | Youth Ministry (BA) |

Membership

The Academy of Freedom is divided into two levels: an **honors level** for freshmen and sophomores, and a **scholars level** for juniors and seniors. Membership in the honors level is neither a prerequisite nor a guarantee for membership in the scholars level.

Members of the Douglas MacArthur Academy of Freedom must meet all requirements for admission to the university and the respective levels for which they are applying. Formal approval of the application for membership in the Academy program is the prerogative of the university administration acting through the Academy Admissions Committee. Membership is a privilege, not a right. Members are expected to fulfill all obligations as specified below or in the Academy Student Handbook to maintain the privileges of membership.

The Academy Admissions Committee may admit a student to either level of the program on a **conditional basis** for one semester. At the end of the semester the Academy Admissions Committee will evaluate the student's academic records to determine his or her future enrollment in the program.

Academy students who fail to maintain the required cumulative GPA's will be subject to one of the three following consequences: probation for one semester, suspension from the Academy with loss of Academy scholarships, or expulsion from the Academy. The Academy Admissions Committee will specify the requirements for lifting probation or suspension.

Academy students who fail to maintain their membership or who drop out for any reason at any time are not eligible to claim identification as an Academy graduate. Loss of membership does not affect credits earned during Academy membership and credits in Academy courses may apply toward regular graduation.

Honors Level

Admission to the honors level is limited to twenty-five students each year. To be considered for admission to the honors level, freshmen must score a composite of 24 or above on the ACT or a composite of 1100 or above on the Math and Critical Reading portion of the SAT. **The priority deadline for applications is February 1. All applicants must be interviewed by the Academy Admissions Committee, which will award scholarships by February 15. Students must schedule classes by June 15 and are required to enroll in one introductory honors course selected from HIS 1310, HIS 1320, POS 2311, and POS 2322 or an approved substitute each semester.** Applications received after February 1 will be considered if the 25 available openings are not filled by students meeting the priority deadline. Once all openings are filled, remaining applicants will be interviewed and placed on a waiting list in case openings become available.

Freshmen who score lower than a composite of 24 on the ACT or a composite of 1100 on the Math and Critical Reading portion of the SAT may be admitted conditionally without aid provided that they take one of the required introductory honors courses. If conditional students achieve a 3.25 GPA in the first semester, they will then qualify for admission and an Academy honors level scholarship (if funds are available) during the second semester of their freshman year.

Second-year students are required to enroll in the remaining honors sections listed above and take one additional class from the Academy major or an approved substitute. Second-year students are also required to serve as Academy tour guides to develop public-speaking skills.

Scholars Level

To be admitted unconditionally to the scholars level, students must have completed a minimum of sixty semester hours or be scheduled to complete a minimum of sixty semester hours before the start of the next long semester and have a minimum 3.25 cumulative GPA. Students must have completed HIS 1310, HIS 1320, POS 2311 and POS 2322 or approved substitutes or enroll in the appropriate course(s) in the semester in which they are admitted to the scholars level. (Transfer students must show equivalent cours-

es, be approved for course substitutions, or be subject to the same enrollment requirement.) In addition, students must file a degree audit with the Academy major prior to admission to the scholars level. Transfer students must file a degree audit during their first semester in the scholars level.

Students must submit an application for admission to the scholars level. Applications will require a brief biographical profile, a short essay over an assigned topic, four letters of recommendation (two of which must be from professors currently familiar with your academic achievements), and official transcripts of all college work. **The Academy Admissions Committee will review all applications and may schedule interviews to determine admission to the program and eligibility for scholars level scholarships depending upon the number of membership positions available.**

To maintain membership in the scholars level, students must maintain a minimum cumulative GPA of 3.25, select a career path and pursue a major and related courses approved by the faculty advisors, and remain free of disciplinary probation, suspension, or expulsion. In addition, students must enroll in ACA 4108 during the second semester in the scholars level. Each semester the Academy Director will evaluate each student's grades, progress toward a degree, and performance of Academy duties. An unsatisfactory review may result in probation, suspension, or expulsion from the Academy of Freedom.

Students in the scholars level are assigned specific service projects each semester as a condition of membership. These assignments include service as Academy tour guides, recruiters, departmental assistants, and a variety of assignments that are designed to prepare students for professional careers and instill the virtues of servant leadership. Failure to perform duties may result in fines, probation, suspension, or expulsion from the Academy of Freedom.

Academy Scholarship Packages

Academy scholarship Packages are for tuition only and are combined with other university scholarships as explained in the Financial Aid section of the catalog. Students must maintain a 3.25 cumulative GPA to retain their scholarships each semester. Failure to maintain the required GPA may result in probation, suspension or expulsion from the Academy program and the reduction or loss of Academy scholarships.

Hatton W. Sumners Foundation Scholarship Program

In the spring semester before a student's junior year, students may apply for the Hatton W. Sumners Foundation Scholarship. **Completed Sumners Applications must be received by March 15 to be considered by the Academy Admissions Committee, which will review all applications and may schedule interviews to determine the twelve students for nomination to the Hatton W. Sumners Foundation Trustees.** Nominees will be interviewed in April by the Sumners Trustees, who will select a minimum of four recipients each year.

Recipients of the Hatton W. Sumners Foundation Scholarship, which is currently \$5500 per semester for four semesters, may apply the Sumners Scholarship to the remainder of the recipient's tuition, fees, books, and room and board, but a recipient's total scholarship package may not, however, exceed the total cost of university attendance.

Additional Information

Further information concerning the Academy program, in addition to this catalog, will be found in *The Douglas MacArthur Academy of Freedom Student Handbook*, which is updated each year. Upon admission to the Academy, students are expected to meet all the requirements and fulfill all of the expectations established in the catalog and the student handbook. Failure to do so may result in probation, suspension, or expulsion from the Academy program and the loss of Academy scholarships.

School of Music and Fine Arts

ROBERT TUCKER, Ph.D., Dean

Department of Music

Robert Tucker, Ph.D. - Head

FACULTY: Corey Ash, M.M.E.; Lance Beaumont, D.M.A.; Celeste Church, D.M.A.; Gregory Church, D.M.A.; Monte Garrett, D.M.A.; Stephen Goacher, M.M.; Diane Owens, M.Ed.; Allen Reed, D.M.A.; Elizabeth Wallace, Ph.D.

PART-TIME/ADJUNCT FACULTY: Juan Alamo, D.M.A.; Deanna Erxleben, M.M.; Elisabeth Greene, D.M.A.; Danny Ingram, M.M.; Peter Neubert, D.M.A.

Students who major in music, as a result of their ensemble experiences, their applied lessons, and their theoretical and historical studies, will be able to combine their capabilities in musical performance with the aural, verbal, and visual analysis of music to engage in historically accurate and aesthetically satisfying musical endeavors. They will be knowledgeable about repertoire and history and should be able to form and defend value judgments about music. They will have a basic understanding of the interrelationships and interdependencies among the various professions and activities that constitute the musical enterprise.

The department of music is an accredited institutional member of the National Association of Schools of Music and seeks to prepare students for careers in the field of music performance, music education and church music.

In the department of music, performance is strongly emphasized, and students have a wide variety of opportunities to perform both in ensembles and as soloists. The choral and instrumental fields have extensive ensemble offerings, including Concert Choir, University Singers, Marching Band, Symphonic Band, Jazz Ensemble, Heritage Singers, and Winds of Triumph, in addition to several small ensembles.

General Requirements

Admission as a music major is by audition before the faculty. All entering freshmen music majors will take placement examinations in music theory, piano, and their applied area. These examinations are diagnostic in purpose, and they will be used in advising students of their deficiencies and in assigning them an applied music level.

Music

Students in the Bachelor of Music in Performance degree program with a concentration in voice, piano, organ, or instrument will be evaluated by the faculty at the end of the freshman year, when they will be advised as to whether or not continuation in this degree will be allowed. All music majors will be assessed at the end of their sophomore year (fourth semester of applied study) to determine advancement to junior standing.

Membership in a major ensemble is required each semester for students with a major in music. For piano majors, Piano Ensemble may serve as the major ensemble after two semesters in a choral or instrumental ensemble.

Music Organizations

Music ensembles include the following: Concert Choir, Heritage Singers, University Singers, Music Theatre/Opera Workshop, University Marching, Symphonic, and Concert Bands, Winds of Triumph, Jazz Ensemble and various other small ensembles. Professional organizations and fraternities include: Kappa Kappa Psi, Tau Beta Sigma, and Sigma Alpha Iota.

Regulations for All Music Degrees

1. General requirements for degrees as stated on page 103 apply to music degrees also.
2. Minimum recital requirements
 - A. Bachelor of Music - Performance
 1. Junior Recital (thirty minutes)
 2. Senior Recital (sixty minutes)
 - B. Bachelor of Music - Church Music and Worship
Senior Recital (thirty minutes)
 - C. Bachelor of Arts or Bachelor of Music - Music Education
Senior Recital (thirty minutes)
3. The final examination for all applied music courses is a jury performed at the close of each semester, unless the credit is elective, i.e. not required for a degree or taken as the General Education Fine Arts requirement. This jury is performed in the presence of a panel from the music faculty. The jury grade will partly determine the student's grade for the course. Students may or may not be required to perform a jury in the semester of their junior or senior recital at the teacher's discretion.
4. All students with a major in music, other than students with a concentration in keyboard, are required to pass the Piano Proficiency/Secondary Examination. Music majors with a concentration in keyboard are required to pass the Freshman Technique Exam, which satisfies the Piano Proficiency/Secondary examination requirement.
5. Applied music courses (private lessons) may not be audited.
6. All students, including transfer students, must pass sophomore assessment before enrolling for advanced (3000-4000) applied music.
7. MUS 4000 must be taken during the last semester of classroom study (the semester prior to student teaching for music education students) and concurrently with EDU 4000.
8. All graduating music majors will be required to take the Major Field Achievement Test (MFAT) in music.
9. Students who wish to take private lessons for elective or General Education Fine Arts credit may enroll for no more than ONE HOUR of credit per semester, unless approved by the dean of the School of Music and Fine Arts.

10. Students wishing to take private lessons for elective credit or Fine Arts credit may enroll with the consent of the teacher. Students with limited or no musical background may be better served enrolling for class instruction.
11. Students must be continuously enrolled in applied music up to and including the semester in which they give a recital.
12. Additional policies are given in the Music Student Handbook. Students are responsible for being familiar with and adhering to policies and procedures published in this handbook.

Degrees and Majors

The department of music offers four majors under the Bachelor of Music degree - Performance, Piano Pedagogy, Church Music and Worship, Music Education – and one major under the Bachelor of Arts degree – Music. While it is possible to complete the Bachelor of Music in Music Education degree in four years, most students will require five years to complete this degree.

Music Minors

General Music-18 hours: MUS 1301, MUS 1371, MUS 2353 (or 1353), MUS 3384, 2 hours of music electives not to include ensembles, Class Piano-2 hours or 1 hour + 1 hour Guitar (pianists should take applied piano) MUS 0070 (2 semesters). To receive a music scholarship, you must enroll in a major ensemble each semester.

Six (6) advanced hours (3000-4000 level courses) are not required for the minors in General Music or Music Performance.

Information on Music Advisement

Students must audition before being admitted as a music major. However, students may enroll in music courses prior to the audition, *with the understanding that they will contact the Music Office as soon as possible to schedule an audition at the beginning of their first semester.*

MUS 1192 University Band and MUS 1193 University Singers are open to any student without audition. MUS 1194 Concert Choir requires an audition. Interested students should enroll for MUS 1193 and then contact the Director of Choral Activities for an audition.

As a scholarship requirement, music minors **MUST** enroll for a major ensemble or the piano ensemble.

Department of Art

Ann Smith, M.F.A. - Head

FACULTY: Joshua Pickens, M.F.A.

PART-TIME/ADJUNCT FACULTY: Julie Mize, M.A.E.

The department of art offers the Bachelor of Arts and the Bachelor of Science degrees in studio art and art education.

Majors and minors in Studio Art will learn to combine traditional art courses with the latest imaging technology to produce solutions to contemporary visual problems. Art Education majors will learn to teach art in a comprehensive and sequential manner employing the disciplines of art history, art production, aesthetics, and art criticism. Students taking art courses for fine arts credit will learn to appreciate the contribution of the visual arts to world culture.

The studio art major requires 36 semester hours which combine a core of traditional art courses with courses in computer graphics. This major requires ART 1311, 1321, 1351, 2321, 2331; 3312; 3322, 3332, 3334, 3339, 4339 and 4349.

This program seeks to prepare students for art-related careers in printed communications, using both words and graphic images effectively in such areas as magazine, brochure, and newsletter production; display and merchandising design; and advertising in a variety of publications.

Students seeking a traditional minor in art should take twenty-four semester hours of art: ART 1311, 1351, 2321, 3312, 3322 and an additional nine hours of art.

Students should refer to the section, School of Education, for requirements for teacher education programs.

All studio art majors and art minors seeking teacher certification are required to participate in the designated museum trip each semester in which they are enrolled in an art class. A minimum of six such trips must be taken as a requirement for majors and four are required for those having a minor in art and those seeking teacher certification on the elementary level.

Studio art majors must take ART 1361 as one of the fine arts requirements.

The art department reserves the right to hold student work for one or two semesters for exhibition purposes.

Department of Communication and Theatre

Nancy Jo Humfeld, Ph.D. - Head

FACULTY: **Kim Bryant, M.A.; Nicholas Ewen, M.A.; Michael Lee, B.A.; Julie Welker, Ph.D.**

PART-TIME/ADJUNCT FACULTY: **Vannessa Stewart, M.S.**

Majors and minors in Communication and Theatre will learn to think critically, communicate effectively, and develop abilities constructively through a variety of media: theatre, print, broadcast, and verbal and nonverbal communication.

Students taking general education courses in Communication Studies will be able to learn effective communication skills in the context of public speaking, interpersonal communication, and small group communication.

Students taking general education courses in Theatre will be able to learn general information about theatre history, theatre architecture, stage terminology, play analysis, and different theatre genres and literature as well as some basic acting theory and techniques.

The department of communication and theatre offers programs leading to the Bachelor of Arts or the Bachelor of Science degree. Included in this department are the disciplines of communication studies and theatre.

Teacher certification is available in speech communication or theatre arts and the requirements are found in the section: School of Education. Secondary certification requires a major of thirty-three semester hours.

As part of departmental assessment, all communication and theatre majors in their last semester before graduation are required to participate in an exit interview with departmental faculty.

MAJORS

The department of communication and theatre offers two choices of majors:

Communication Major:

The communication major is a thirty-six hour interdisciplinary major which is comprised of a nine-hour core of communication classes, and a twenty-one-hour specialization core in communication courses, and six hours chosen in consultation with the faculty advisor. Under this major, students may pursue a Bachelor of Arts or a Bachelor of Science degree, and may pursue Texas teacher certification for speech communication.

The communication core consists of:

COM 1310	Fundamentals of Human Communication
COM 2350 or 2320	Nonverbal Communication or Interpersonal Communication
COM 4310	Communication Theories

Communication and Theatre

Areas of Specialization in Communication:

Organizational and Leadership Communication – COM 3320, 3341, 3360, 3313, 3324, 4343, 4100-4600 and 6 hours chosen from COM 2344, 2330, 3350, 3370, BUS 1311, MGT 3303, 4311, PTH 3331, or PTH 4371.

This major enable students to study the processes used to analyze the communication needs of organizations and social interaction, including the design of training to improve communication in the organization and corporate settings. The study of leadership communication examines the ways in which theory, technology, and practice can be used (or abused), and the ways in which leaders have performed and can perform at optimum levels - inspiring, empowering, managing and creating - in corporations, government and non-governmental organizations.

Public and Media Communication – COM 1312, 3333, 3334, 3339, 3353, 4353, 4100-4600 and 6 hours chosen from COM 2344, 3331, 3350, 4339, 4343, CIS 2329, MKT 2302

This major area reflects the trend in which organizations have merged the functions of public relations, advertising, marketing communication, fund-raising, recruitment, lobbying, and related endeavors. Public communication is the study of how to strategically communicate information to many segments of society, including consumers, government officials, community organizations, employees, investors and the media. Students will learn how to frame messages and communication strategies in ways that mutually benefit their organizations and the public. This major prepares students to deal with an organization's reputation, its role as an advocate, and its use of persuasive communication. All organizations, public and private, must maintain effective relationships with a wide variety of groups and individuals. These relationships require thoughtful use of print and spoken word.

Teacher Certification in Speech Communication – High School Grade 8-Grade 12 – COM 1310, COM 1311, COM 1312, COM 2320, COM 2330, COM 3312, COM 3324, COM 3333, COM 3341, COM 3350, COM 4310, COM 4343, COM 2344

Students desiring secondary certification to teach speech communication in Texas may major in communication and complete the requirements for high school teaching fields. The requirements are found in the School of Education section.

Theatre Major

A major in theatre leads to a Bachelor of Arts degree or a Bachelor of Science degree for those seeking teacher certification and requires thirty-three hours of theatre as follows:

Theatre: THR 1311, 2344, 2371, 2431, 3331, 3351, 4341, 4361, 4362, two hours of 1118 and three upper-division hours in theatre.

MINORS

Students may minor in communication studies, journalism or theatre by taking 18 to 24 semester hours as follows:

Communication Studies: 18-24 hours chosen in consultation with a communication faculty advisor.

Journalism: JOU 2312, JOU 3331, JOU 3334, JOU 3304, and any combination of the following courses that completes 6 semester hours: JOU 4100-4600, JOU 2140, JOU 2141, JOU 2142 or JOU 2151 (may be taken up to 3 times for credit).

Theatre: Two hours of THR 1118, 1311, 2344, 2371, 2431 and six additional upper-division hours in theatre.

One to six semester hours

Theatre

Within the department of communication and theatre, the theatre area encourages critical thinking, creative endeavor and the development of the multiple crafts of theatre through experiences explored in rehearsal, performance and in the classroom.

The theatre program introduces the student to the history, literature and production/performance philosophies, styles and techniques of theatre from the ancient Greeks to the present. Students receive a balance of theory and opportunities for performance/production work through an annual series of main-stage productions. This prepares students for careers in teaching, further study in graduate school, or careers in theatre or allied fields.

Theatre majors are required to work in a performance and/or production role on each main-stage production. Their progress is charted on a production planning sheet which is kept in their file and monitored by their advisor. All majors must successfully perform on-stage in at least two roles and have worked successfully on at least five different crews, three of these as crew head, during their academic stay. Students who choose theatre as their second teaching field must perform successfully on stage in at least two roles and successfully serve as crew head on at least three different crews during their academic stay.

THEATRE 1101-4609. SPECIAL STUDIES.

Special courses not a part of the regular schedule but offered on an irregular schedule.

Prerequisite: None.

One to six semester hours

THEATRE 1118. THEATRE ACTIVITY. (DRAM 1120)

Structured for all students who have any interest in the actual production of a play other than acting and directing. The students will be involved with set construction, painting, lighting, makeup, and costume construction, as well as all other aspects of play production. This course may be taken pass/fail. Two semester hours required for the theatre major. Two additional hours may be taken as electives. Fall, Spring.

Prerequisite: None.

One semester hour

Theatre

THEATRE 1196. MUSIC THEATRE CHOREOGRAPHY.

This course introduces the students to the basic choreography used in musical theatre. A lecture-demonstration and performance format will be observed. May be repeated for credit. Cross-credited with MUS 1196. Only one credit hour will be awarded for MUS 1196 and THR 1196. Fall.

Prerequisite: None.

One semester hour

THEATRE 1311. INTRODUCTION TO THE THEATRE. (DRAM 1310)

Required for the theatre major. A study that includes theatre history, theatre architecture, stage terminology, play analysis and theatre genres and literature. Fall, Spring, Summer.

Prerequisite: None.

Three semester hours

THEATRE 2344. VOICE AND DICTION. (DRAM 2336)

Acquaints and equips the individual with the means of learning proper pronunciation and articulation of the language and sounds of the standard American dialect. Cross-credited with COM 2344. Only three credit hours will be awarded for both THR 2344 or COM 2344. Spring.

Prerequisite: None.

Three semester hours

THEATRE 2371. FUNDAMENTALS OF ACTING. (DRAM 1351)

Basic technique of acting with emphasis on motivation for movement and emotion. Study of the theory and history of acting. Required for theatre majors. Fall.

Prerequisite: None.

Three semester hours

THEATRE 2431. STAGECRAFT.

Acquaints the student with the fundamental knowledge of technical theatre. Emphasis on scene construction and design. This course includes practical experiences, exercises and projects in design and construction. Required for the theatre major. Spring, even years.

Prerequisite: None.

Four semester hours

THEATRE 3311. STAGE MOVEMENT.

Stage movement will include units on pantomime, stage combat and basic choreography. The course is principally a practicum class and involves strenuous physical activity and exercises. Students will be required to perform several projects. Fall, even years.

Prerequisite: Sophomore standing or consent of instructor.

Three semester hours

THEATRE 3312. ORAL INTERPRETATION.

Development of the skills of communication through reading prose, poetry and dramatic works. Cross-credited with COM 3312. Only three credit hours will be awarded for THR 3312 or COM 3312. Spring, even years.

Prerequisite: Sophomore standing or consent of instructor.

Three semester hours

THEATRE 3321. STAGE MAKE-UP.

A study of stage make-up ranging from types of make-up available and application of make-up to the use of specific make-up techniques toward the creation of a number of specific styles of make-up. Fall, odd years.

Prerequisite: Sophomore standing or consent of instructor.

Three semester hours

THEATRE 3331. STAGE LIGHTING.

Acquaints the student with the fundamental knowledge of stage lighting. This course includes practical exercises and projects in design, maintenance and rigging. Required for the theatre major. Spring, odd years.

Prerequisite: Sophomore standing or consent of instructor.

Three semester hours

THEATRE 3351. ADVANCED STAGE ACTING.

Emphasis on the major styles and techniques of the actor's craft from the ancient Greek plays through contemporary theatre. Required for theatre majors. Spring, odd years.

Prerequisite: THR 2371 and Sophomore standing or consent of instructor.

Three semester hours

THEATRE 4108-4608. INSTITUTE WORKSHOP.

One to six hours credit designed for a special short-term concentrated course offered for a specific need.

Prerequisite: Junior standing or consent of instructor.

One to six semester hours

THEATRE 4131-4631. THEATRE INTERNSHIP.

Actual professional theatre experience for students under the personal supervision of a staff at a professional theatre company. This internship may be done in acting, management or technical production. Fall, Spring, Summer.

Prerequisite: Junior standing and consent of instructor.

One to six semester hours

THEATRE 4321. CREATIVE DRAMATICS.

A study of specialized approaches to theatre education including story as a telling, improvisation, readers' theatre, etc. Children's literature will be used as a medium in the application of these techniques. Fall, Spring.

Prerequisite: Junior standing or consent of instructor.

Three semester hours

THEATRE 4341. STAGE DIRECTING.

Emphasis on the director's media, use of the stage, movement, stage picture, imposed business, characterization, cast and rehearsals. Students will be required to direct a one-act play to be presented to the public. Required for the theatre major. Spring.

Prerequisite: THR 1311, 2371, 2431, 3331 and Junior standing or consent of instructor.

Three semester hours

THEATRE 4361. HISTORY OF THE THEATRE I.

A study of the historical development of the theatre from the Greeks through Shakespeare. Plays from each period will be discussed. Required for the theatre major. Fall, odd years.

Prerequisite: Junior standing or consent of instructor.

Three semester hours

THEATRE 4362. HISTORY OF THE THEATRE II.

A study of the historical development of the theatre from the restoration to the present time. Plays from each period will be discussed. Fall, even years.

Prerequisite: Junior standing or consent of instructor.

Three semester hours

School of Science and Mathematics

LYNN M. LITTLE, Ph.D., Dean

The purpose of the School of Science and Mathematics is to provide courses that contribute to the liberal arts and sciences general education foundation of all Howard Payne University graduates and to provide professional programs in the various departments.

The programs in the School of Science and Mathematics seek to provide students with the scientific background needed to function in an increasingly technical world. Emphasis is given to training students to become scientists, to enter professional schools of medicine and related fields, and to teach the sciences.

Students may earn a Bachelor of Arts degree in biology, chemistry, or mathematics, or a Bachelor of Science degree in biology, chemistry, or mathematics.

Pre-professional Studies

The School of Science and Mathematics offers a wide range of courses designed to meet pre-professional requirements for entrance to professional schools and programs in medicine, dentistry, veterinary medicine, nursing, pharmacy, physical therapy, dental hygiene, and other allied health sciences. Students should consult with their academic advisor as to selection of courses for their area of interest. Because entrance requirements to professional schools change from time to time, Howard Payne University cannot guarantee that it offers every course required for entrance into all professional school programs at all universities. Students should consult course Catalogs of universities that they may wish to attend to determine specific courses required for admission.

Pre-professional studies are not majors. To obtain a BS or BA degree from Howard Payne University through the School of Science and Mathematics, students must major in biology, chemistry, or mathematics and complete all general education requirements, plus all the course requirements for their major.

Pre-engineering

Students desiring an engineering degree can obtain a thorough background at Howard Payne University in math, physics, chemistry, computer information systems, English, and other basic courses prior to transfer to an engineering school. Students should consult with their academic advisor as to selection of courses for their area of interest. Because entrance requirements to engineering programs change from time to time, Howard Payne University cannot guarantee that it offers every course required for entrance into all engineering programs at all universities. Students should consult course Catalogs of universities that they may wish to attend to determine specific courses required for admission.

ASSOCIATE IN HEALTH SCIENCE

The Associate in Health Science degree program is designed to allow a student to complete prerequisites for entrance into a baccalaureate program at another university. Examples would include programs in nursing, dental hygiene or clinical laboratory science. Students should acquaint themselves with the admission requirements for their chosen professional program at the universities that they may wish to attend.

Teacher Certification

Students desiring to enter public school teaching in science or mathematics should check requirements listed in the School of Education in this Catalog.

Minors

In the School of Science and Mathematics, minors are offered in the following departments: Biology, Mathematics, Chemistry, and Forensic Science.

Science (Interdisciplinary Studies)

SCIENCE 2104, 2204, 2304. SCIENCE/MEDICAL INTERNSHIP.

Supervised work outside of the academic environment, but under the guidance of an instructor. Forty-five (45) clock hours of service per credit hour is required. The purpose is to provide students with scientific/medical experience in industrial, medical and governmental settings. May be repeated for credit. Fall and Spring.

Prerequisite: Consent of head of biology or head of physical sciences departments.

One, two, or three semester hours

SCIENCE 2318. INTRODUCTORY BIostatISTICS.

An introduction to basic statistical concepts and methods as applied to data taken from a wide variety of biological and health sciences. Includes descriptive techniques such as measures of central tendency, variability, hypothesis testing, analysis of variance, and simple linear regression. Three hours lecture. Fall.

Prerequisite: CIS 1339, MAT 1351.

Three semester hours

SCIENCE 2351. SCIENCE AND THEOLOGY: INTEGRATING CHRISTIANITY AND CONTEMPORARY SCIENCE.

This course is designed to promote critical thinking concerning the relationship between theology and science and how they impact our thinking about various issues. Cross-credited with PTH 2351. Only three credit hours will be awarded for PTH 2351 or SCI 2351. Spring, even years.

Prerequisite: BIB 1303 and 1304 and one university natural science course.

Three semester hours

SCIENCE 4109. CHEMISTRY RESEARCH PROPOSAL.

A course emphasizing library research, independent investigation, hypothesis formation and scientific proposal writing.

Prerequisite: Junior/Senior standing and consent of Instructor.

One semester hour

SCIENCE 4209. RESEARCH PROBLEMS IN CHEMISTRY.

A course emphasizing independent investigation using the scientific method to collect and analyze data in order to test the validity of a hypothesis. The conclusions determined will be presented and discussed in both a written and oral format. Fall, Spring.

Prerequisite: SCI 4109.

Two semester hours

Department of Biological Sciences

Harlan Scott, Ph.D. - Head

FACULTY: **Kristen Hutchins, Ph.D.; Amy Kresta, M.S.; Lynn Little, Ph.D.; Marilyn Mathis, Ph.D.**

The department of biological sciences offers a challenging curriculum leading to the degree of Bachelor of Science or Bachelor of Arts. The purpose of the department is to prepare well-educated biologists who will be competitive in their particular discipline: medicine, health professions, and graduate school. Also, the department offers courses to meet the general education requirements for the natural sciences.

Students seeking a major in biology should take thirty-six semester hours to include BIO 1459, 1469, 2429, 3429, 4439, plus at least one course from 2419 or 3479; one course from 3459 or 3489 and one course from 3469 or 4459. As the capstone experience, all biology majors are required to complete BIO 4211 and either BIO 4109 and BIO 4119, or a total of at least two hours of biology internship (BIO 4138, 4238 or 4338).

Biology majors will be required to take MAT 1351, SCI 2318, CHE 1479, 1489, 2331, 2139, 2341 and 2149. For a biology major considering post-baccalaureate study, ENG 3306, MAT 2345, 2351, PHY 1419 and 1429 are recommended.

Students must have a grade of “C” or better in all required courses (BIO, CHE, MAT, and SCI) for a biology major.

All graduating biology majors will be required to take the Major Field Achievement Test (MFAT) in biology as a condition for graduation. Results of this test will be used as an assessment tool for biology curriculum and will not have a bearing on graduation.

Students majoring in exercise and sport science, psychology, sociology, or social work should consider taking BIO 2489 and 2499 to meet the general education requirement for laboratory science.

Biology Minor - The Biology minor is for students who are interested in biology or who need to fulfill requirements for health profession schools, such as medical school, but who want to major in some other area. The minor will consist of 18 to 24 hours, including BIO 1459 and 1469, with additional hours chosen in consultation with the head of the biological sciences department. Courses that will not count towards a minor include BIO 1409, 1419, 2371, 2409, 2489, and 2499.

Health Science Minor - The Health Science minor will help to prepare students to enter some health profession fields, such as nursing. The minor will consist of 25 hours from BIO 2489, 2499, 2371, and 2409, CHE 1429 or 1479, PSY 1311 and 3355. **Students cannot use the same courses for two different minors.**

Biomedical Sciences Minor - The Biomedical Sciences minor gives students extra preparation for graduate and health profession schools, such as medical and dental schools. The minor will consist of 18 to 24 hours chosen from BIO 3419, 4372, 4429, CHE 4439, CHE 4449, and no more than 3 hours from SCI 2104, 2204, or 2304. Special studies biology courses may be used with the approval of the head of the department. **Students cannot use the same courses for two different minors.** All prerequisites for these courses must still be met and with a grade of "C" or better.

Biodiversity Minor - The Biodiversity minor gives students extra preparation for graduate school in areas such as wildlife management. The minor will consist of 18 to 24 hours chosen from BIO 3419 and courses not used for a student's biology major from BIO 2419, 3479, 3459, 3489, 3469, 4459, 4109, 4119, and no more than 3 hours from BIO 4138, 4238, or 4338. Special studies biology courses may be used with the approval of the head of the department. **Students cannot use the same courses for two different minors.** All prerequisites for these courses must still be met and with a grade of "C" or better.

Biology

Students majoring in biology and seeking teacher certification should refer to the School of Education section in this catalog.

All students seeking teacher certification in biology must be advised by both the biology faculty and the faculty of the School of Education.

All prerequisites must carry a grade of “C” or better.

BIOLOGY 1101-4609. SPECIAL STUDIES.

Special courses not a part of the regular schedule but offered on an irregular schedule.

Prerequisite: None.

One to six semester hours

BIOLOGY 1409. BIOLOGICAL SCIENCE. (BIOL 1408)

A study of the development of the principle concepts of biology and how they have influenced civilized man; a study of fundamental structure and function of biological systems. Contemporary problems will be discussed. **This course is designed for non-science majors.** Students will not be allowed credit for BIO 1409 and BIO 1419 or BIO 1459 or 1469 for the general education laboratory science requirement. Lecture and laboratory. Fall, Spring, Summer.

Prerequisite: None.

Four semester hours

BIOLOGY 1419. LIFE SCIENCE FOR ELEMENTARY EDUCATION.

Activity based course for elementary education majors only. Concepts covered are those recommended by Texas Essential Knowledge and Skills in Life Science. Course to meet 2 hours, 3 times per week. Students will not be allowed credit for BIO 1419 and BIO 1409 or BIO 1459 or BIO 1469 for the general education laboratory science requirement. Fall, Spring.

Prerequisite: Consent of instructor or teacher certification officer.

Four semester hours

BIOLOGY 1459, 1469. GENERAL BIOLOGY I, II. (BIOL 1406, 1407)

An in-depth study of the principles and concepts of biology. General Biology I will cover cell biology, genetics, evolution, and ecology. General Biology II will cover diversity and physiology of organisms, including microbes, plants, and animals. Field trips are required for BIO 1469. **These courses are designed for science majors.** Students will not be allowed credit for BIO 1459 or BIO 1469 and BIO 1419 or BIO 1409 for the general education laboratory science requirement. Three hours lecture, three hours laboratory per week. BIO 1459, Fall; BIO 1469, Spring.

Prerequisite: BIO 1459 with a grade of “C” or better prerequisite for BIO 1469.

Four semester hours each

BIOLOGY 2114, 3114, 4114. BIOLOGY TEACHING ASSISTANT INTERNSHIP.

A course designed to give Biology majors teaching experience in a classroom setting under the supervision of a participating instructor. Forty-five (45) hours of service is required and may include time in, preparation before, and clean up after class. Fall, Spring, Summer.

Prerequisite: BIO 1459,1469 and consent of instructor and participating instructor. One semester hour

BIOLOGY 2371. NUTRITION.

A thorough study of human nutrition covering digestion and utilization of the basic nutrient groups. The adequacy of the typical diet of various age groups will be studied. Diet planning will be examined, and current topics on nutrition will be discussed. Spring, even years.

Prerequisite: None.

Three semester hours

BIOLOGY 2409. FUNDAMENTALS OF MICROBIOLOGY. (BIOL 2420)

Fundamental concepts of the biology of microorganisms will be taught. Emphasis will be principally on bacteria, fungi, and viruses causing human disease and impacting human health through their effects on the environment. Three hours of lecture and two two-hour laboratories per week. Spring, odd years.

Prerequisite: PSC 1429 or CHE 1429 or 1479.

Four semester hours

BIOLOGY 2419. PLANT DIVERSITY.

Field and laboratory studies of native nonvascular plants with emphasis on classification, identification and life cycles. Field trips required. Three hours lecture and three hours laboratory per week. Fall, even years and Spring, even years.

Prerequisite: BIO 1459, 1469.

Four semester hours

BIOLOGY 2429. COMPARATIVE VERTEBRATE ANATOMY. (BIOL 2428)

A comparative study of the origin and development of vertebrate organ systems. Three hours lecture, and one three-hour laboratory. Fall.

Prerequisite: BIO 1459, 1469.

Four semester hours

BIOLOGY 2489, 2499. HUMAN ANATOMY AND PHYSIOLOGY I and II. (BIOL 2401, 2402)

A correlated study of the structure and function of the human body. BIO 2489, Fall and Summer I; BIO 2499, Spring and Summer II.

Prerequisite: BIO 2489 with a grade of "C" or better prerequisite to BIO 2499.

Four semester hours each

BIOLOGY 3419. MICROBIOLOGY.

An introduction to the structure, function and economic relationship of bacteria, fungi, and viruses. Three hours lecture and two two-hour laboratories per week. Spring, even years.

Prerequisite: BIO 3429.

Four semester hours

BIOLOGY 3429. CELL BIOLOGY.

A detailed study of the structure and function of cells and cell structures. Regulation and mechanisms will be stressed. Three hours of lecture and three hours of laboratory per week. Spring.

Prerequisites: BIO 1459, 1469; CHE 2331, 2139, 2341, 2149 or concurrent enrollment in CHE 2341 and 2149.

Four semester hours

BIOLOGY 3459. GENERAL ENTOMOLOGY.

An introduction to the study of insects and the identification of families in the principle orders. Three hours lecture and three hours laboratory per week. Field trips required. Fall, odd years.

Prerequisite: BIO 1459 and 1469.

Four semester hours

BIOLOGY 3469. GENERAL ECOLOGY.

A study of organisms in relation to environment. Three hours lecture and a three hour laboratory per week. Field trips required. Fall.

Prerequisite: BIO 1459 and 1469, or 1409, or 1419.

Four semester hours

BIOLOGY 3479. PLANT TAXONOMY.

Field and laboratory studies of native vascular plants, with emphasis on classification and identification of representative species found in Central Texas. Three lecture hours and one three-hour laboratory. Field trips required. Spring, odd years.

Prerequisite: BIO 1459, 1469.

Four semester hours

BIOLOGY 3489. INVERTEBRATE NATURAL HISTORY.

A study of the natural history of the invertebrates involving habitats, life histories and classification. Three lecture hours and three laboratory hours per week. Field trips required. Spring.

Prerequisite: BIO 1459, 1469.

Four semester hours

BIOLOGY 4000. TEXES REVIEW FOR SECONDARY TEACHERS.

This course is designed to help students pass the biology section of the Texas Examination of Educator Standards (TEXES). Free of charge; pass/fail. Fall, Spring.

Prerequisite: Concurrent enrollment in EDU 4000.

No credit hours

BIOLOGY 4109. RESEARCH PROPOSAL.

A course emphasizing hypothesis formation, writing the research proposal and searching the scientific literature.

Prerequisite: Junior/Senior standing and consent of instructor.

One semester hour

Biology

BIOLOGY 4119. RESEARCH.

A course emphasizing independent investigation, experimental design, collecting and analyzing data and drawing logical conclusions based on the data.

Prerequisite: BIO 4109.

One semester hour

BIOLOGY 4138, 4238, 4338. BIOLOGY INTERNSHIP.

Supervised work inside or outside of the academic environment, but under the supervision of an instructor. Forty-five (45) clock hours of service per credit hour is required. The purpose is to provide students with scientific experience in industrial, academic and governmental settings. May be repeated for credit. Fall, Spring.

Prerequisite: Junior/senior standing and consent of head of department of biological sciences.

One, two or three semester hours

BIOLOGY 4211. SENIOR THESIS AND ASSESSMENT.

This is the culmination of the educational experience for biology majors. Students will demonstrate the ability to communicate about biology by writing a scientific paper, preparing a scientific poster, and giving a scientific presentation. By attending and participating in presentations, students will develop skills in listening and questioning. Students will also be assessed on their knowledge about biology and general laboratory skills and competencies. Students will prepare a resume and cover letter. This course will be team-taught by biology faculty members. Spring.

Prerequisite: BIO 4109 and 4119 or at least two hours of BIO 4138 or 4238.

Two semester hours

BIOLOGY 4372. IMMUNOLOGY.

An introduction to the basic principles of immunity including the molecules, cells, and organs of the immune system, their interactions, and their regulation. Spring, odd years.

Prerequisite: BIO 4439.

Three semester hours

BIOLOGY 4429. GENERAL PHYSIOLOGY.

A study of the function of the animal organs and organ systems and how these enable organisms to live in their particular environment. Three lecture hours and three hours laboratory per week. Fall, odd years.

Prerequisite: BIO 1459, 1469, 3429.

Four semester hours

BIOLOGY 4439. GENETICS.

A study of the theories, principles and mechanics of inheritance, including the latest molecular knowledge of DNA and RNA. Three hours of lecture and three hours of laboratory per week. Fall.

Prerequisite: BIO 1459, 1469, 3429; CHE 2331, 2139, 2341, 2149.

Four semester hours

BIOLOGY 4459. BIOGEOGRAPHY.

A study of the factors determining the natural distribution of plants and animals in space and time. Three hours lecture and three hours laboratory per week. Spring, odd years.

Prerequisite: BIO 1459 and 1469 or 1409 or 1419.

Four semester hours

Department of Mathematics

Kenneth Word, Ph.D. - Head

FACULTY: Brett Coulter, Ph.D.; Wendy Grooms, M.S.; Tonya Horner, M.S.T.; Tom Johnson, M.S.; José Romero, Ph.D.

PART-TIME/ADJUNCT FACULTY: Mickey Sargent, M.S.

The mathematics department serves the university in two major capacities. The department prepares mathematicians to serve in education and industry and/or enter advanced study in mathematics. In addition, the department meets the needs of the general student body by giving special attention to the areas of business, computer information systems, and the natural sciences.

Courses are taught with the intent of increasing the understanding of the basic concepts of mathematics and improving competency in the application of these concepts to mathematical problem solving.

The Bachelor of Arts and the Bachelor of Science degrees are available from the department of mathematics.

A major in mathematics requires a minimum of 30 semester hours including: MAT 2351, 2361, 3302, 3311, 3361, 4311, and either 4351 or 4361 and nine semester hours chosen from MAT 3322, 3381, 4341, 4471 and either 4351 or 4361 if not chosen as one of the required courses or other junior/senior level courses as approved by the head of the mathematics department.

Some students will need to take MAT 1351 and 2345 as prerequisites for MAT 2351. Mathematics majors must complete six semester hours in programming courses (CIS 1359 and MAT 4471 may count as programming courses). It is recommended that the laboratory science requirement be met by taking the major's classes in biology, chemistry or physics.

All secondary teacher certificate programs with a major or teaching field in mathematics must include MAT 3322, 3381, 4000 and 4341.

A minor in mathematics will consist of eighteen to twenty-four semester hours chosen in consultation with the head of the mathematics department and must include: MAT 2351, 2361 and six advanced semester hours of mathematics.

MAT 1303 is required of students who score 16 or below on the mathematics section of the ACT test (12 or below on the pre-1989 ACT), 340 or below on the SAT (390 or below on the SAT I) and may be required of students who do not successfully pass the mathematics proficiency test or whose past performance indicates a need for improved mathematics skills. MAT 1303 may count only as an elective and does not satisfy the general education requirement for mathematics.

No credit will be given for either MAT 1303 or 1321 on the basis of ACT or SAT scores.

All mathematics majors will be required by the end of their senior year to have taken a national area test in mathematics.

See the School of Education for additional information concerning teacher certification in mathematics.

All prerequisites must carry a grade of "C" or better.

MATHEMATICS 1101-4609. SPECIAL STUDIES.

Special courses not a part of the regular schedule, offered on an irregular schedule.

Prerequisite: None.

One to six semester hours

Mathematics

MATHEMATICS 1303. DEVELOPMENTAL MATHEMATICS.

A study of the basic computational functions, including factors, decimal notations, percentages, and elementary algebra. This course requires two one-hour mathematics labs per week. Does not satisfy the mathematics requirement for any degree. Fall, Spring.

Prerequisite: Appropriate ACT/SAT or placement test score.

Three semester hours

MATHEMATICS 1321. INTERMEDIATE ALGEBRA.

Intermediate algebra reviews many of the topics covered in high school algebra such as real numbers, linear equations, polynomials, rational expressions, exponents, radicals, graphing functions, quadratic equations, systems of equations and inequalities which prepare the student for college algebra. (developmental course - elective credit only; does not satisfy the mathematics requirement on any degree) Fall, Spring.

Prerequisite: Appropriate ACT/SAT or placement test score.

Three semester hours

MATHEMATICS 1351. COLLEGE ALGEBRA. (MATH 1314)

Functions, quadratic equations, and inequalities, radical equations, polynomial and rational functions, exponential and logarithmic functions, systems of linear equations, matrices, sequences, series, and the binomial theorem are studied. Fall, Spring, Summer.

Prerequisite: Two years of high school algebra and a satisfactory ACT score, or MAT 1321.

Three semester hours

MATHEMATICS 1365. FINITE MATHEMATICS.

A course designed for business majors and minors. Topics studied include linear programming, matrices, the simplex method, mathematics of finance, Markov Chains, and an Introduction to Calculus. This course does not meet the general education mathematics requirement. Fall, Spring.

Prerequisite: MAT 1351.

Three semester hours

MATHEMATICS 1371. MATHEMATICS FOR ELEMENTARY TEACHERS I. (MATH 1350)

Problem solving, sets, number systems, mathematical systems, natural numbers, real and complex numbers are studied. This course requires two hours per week of mathematical laboratory. Required for elementary teacher certification. Fall.

Prerequisite: MAT 1351.

Three semester hours

MATHEMATICS 2342. INTRODUCTION TO PROBABILITY AND STATISTICS.

A beginning course studying frequency distributions, probability, binomial and normal distributions, random sampling, testing hypothesis, confidence intervals, and the Chi-Square distribution. Fall, Spring, Summer.

Prerequisite: MAT 1351.

Three semester hours

MATHEMATICS 2345. PRECALCULUS: TRIGONOMETRY AND ANALYTIC GEOMETRY. (MATH 2312)

Trigonometric functions, solutions of right and oblique triangles, logarithms, identities, trigonometric equations, polar coordinates, graphical interpretation of the equations of plane curves, straight lines, conic sections, parametric equations and introduction to analytical geometry will be discussed in this course. Fall, Spring.

Prerequisite: MAT 1351 or equivalent.

Three semester hours

MATHEMATICS 2351. CALCULUS I. (MATH 2313)

Topics covered include limits, differentiation, applications of differentiation, basic integration, and the Fundamental Theorem of Calculus. Fall, Spring.

Prerequisite: MAT 2345 or consent of instructor.

Three semester hours

MATHEMATICS 2361. CALCULUS II. (MATH 2314)

Topics covered include exponential, logarithmic and other transcendental functions, applications of integration, integration techniques, L'Hospital Rule, improper intervals, infinite sequences, series, and convergence tests. Spring.

Prerequisite: MAT 2351.

Three semester hours

MATHEMATICS 3302. MATRIX AND LINEAR ALGEBRA.

An introduction to matrices and vectors, applications of matrices including solutions of systems of linear equations. Also an introduction to vector spaces, algebraic structures, linear transformations and characteristic values. Spring.

Prerequisite: Credit or concurrent enrollment in MAT 2351.

Three semester hours

MATHEMATICS 3311. ABSTRACT ALGEBRA.

Introduction to number theory, groups, rings, integral domains, fields, isomorphisms, and the characterization of the integers and real numbers. Fall.

Prerequisite: MAT 2351 and 3302 or consent of instructor.

Three semester hours

MATHEMATICS 3321. MATHEMATICS FOR ELEMENTARY TEACHERS II.

Basic concepts of geometry including the metric system and measurement, logic, probability and statistics. This course requires two hours per week of mathematics laboratory. Required for elementary teacher certification. Spring.

Prerequisite: MAT 1371.

Three semester hours

MATHEMATICS 3322. GEOMETRY.

Development of Euclidean and non-Euclidean geometry by theoretical and intuitive methods. Recommended for all prospective secondary teachers. Fall.

Prerequisite: MAT 2351 and MAT 3302 or consent of instructor.

Three semester hours

MATHEMATICS 3351. DIFFERENTIAL EQUATIONS.

Differential Equations is a course covering solutions to the more common types of ordinary differential equations, especially those of first and second order, with emphasis on geometrical and physical interpretations. Other topics include LaPlace Transforms, Initial Value Problems, Eigen Values, Eigen Vectors, and Solutions of Systems of Differential Equations

Prerequisite: MAT 2361 and MAT 3302 or consent of instructor.

Three semester hours

MATHEMATICS 3361. CALCULUS III.

Topics covered include parametric equations, polar coordinates, vectors, surfaces in space, multivariable calculus, multiple integrations, and other topics as time permits. Fall.

Prerequisite: MAT 2361 and MAT 3351.

Three semester hours

MATHEMATICS 3381. MATHEMATICS FOR SECONDARY TEACHERS.

An examination of the major topics of secondary mathematics curriculum in light of the National Council of Teachers of Mathematics Standards. Techniques to implement the standards through the use of manipulatives, graphing calculators, computer technology, and projects will be explored. This course is open only to those who will be student teaching in secondary mathematics during the following spring or fall semester and is required for the secondary teaching field in mathematics. Two hours per week of mathematics laboratory are required for this course. Fall.

Prerequisite: Consent of instructor.

Three semester hours

MATHEMATICS 4000. TExES REVIEW FOR SECONDARY TEACHERS.

This course must be taken and passed just prior to student teaching. It is designed to help students pass the secondary mathematics section of the Texas Examination of Educator Standards (TExES). Free of charge; pass/fail.

Prerequisite: Junior standing.

No credit hours

MATHEMATICS 4100. MATH INTERNSHIP.

A course designed to give math majors seeking teacher certification experience in the classroom before student teaching.

Prerequisite: Consent of department head.

One semester hour

Mathematics / Physical Sciences

MATHEMATICS 4312. ADVANCED DIFFERENTIAL EQUATIONS.

Advanced solution methods for differential equations; partial differential equations; series approximations, Fourier Series; boundary value problems typical of scientific applications. Fall, odd years.

Prerequisite: MAT 3351 and MAT 3361.

Three semester hours

MATHEMATICS 4341. PROBABILITY AND STATISTICS.

Descriptive statistics, derivation and application of formulas used in data analysis, discrete and continuous probability distributions, central limit theorem, and confidence intervals. Spring.

Prerequisite: MAT 2351.

Three semester hours

MATHEMATICS 4351. REAL ANALYSIS.

An axiomatic approach to the real numbers, sequences, functions, continuity, derivatives, integrals, series, and uniform convergence. Spring, even years.

Prerequisite: MAT 3361 or equivalent.

Three semester hours

MATHEMATICS 4361. COMPLEX ANALYSIS.

A study of complex numbers, analytic functions, exponential, trigonometric, and logarithmic functions of a complex variable, complex integration, Laurent Series, and residue theory. Fall, even years.

Prerequisite: Concurrent enrollment or credit in MAT 3361 or equivalent.

Three semester hours

MATHEMATICS 4471. INTRODUCTION TO NUMERICAL ANALYSIS.

Error propagation, algorithms for solutions of equations in one variable, interpolation, numerical integration, and algorithms for solutions of differential equations (as time permits). Three hours of lecture and two hours of laboratory per week. Spring, odd years.

Prerequisite: CIS 1359, MAT 3361 and credit or

concurrent enrollment in MAT 3302.

Four semester hours

Department of Physical Sciences

Pam Bryant, Ph.D. - Head

FACULTY: Gerry Clarkson, Ph.D.; Derek Smith, D.Chem.; Gary Succaw, Ph.D.

PART-TIME/ADJUNCT FACULTY: Jennifer Gober, B.S.; Gerald Maxwell, Ph.D.

Purpose

1. To enable students, science majors and non-majors alike, to develop a scientific literacy, through: (1) appreciation of the contributions of science to modern life; (2) development of an awareness of measures necessary for personal safety and ecological responsibility in this scientific era; and (3) development of a background of information in the physical science discipline studied.

2. The department of physical sciences offers a curriculum such that graduates with a major in Chemistry will 1) understand, effectively communicate, and practice the basic theories of Chemistry, 2) obtain positions as scientist, educators, and/or obtain admission to a graduate or professional school of their choice, 3) will be prepared to compete in their chosen field.

3. The Department of Physical Sciences offers a curriculum such that graduates with a major in Forensic Science will 1) understand, communicate effectively and engage thoughtfully in the practice of forensic science; 2) obtain positions as laboratory scientists or investigators or procure admission to a graduate program and 3) compete ably in either of these avenues.

All students seeking middle school (4-8) and/or high school (8-12) teacher certification in the physical sciences should consult the requirements listed in the School of Education in this catalog. In addition, students must be advised by the physical sciences faculty and the faculty of the School of Education.

All prerequisites must carry a grade of "C" or better, or consent of instructor.

Chemistry

Students majoring in chemistry must complete 30 to 36 hours in chemistry chosen in consultation with the head of the physical science department and may choose between a standard chemistry degree and a chemistry with a biochemistry concentration as outlined below.

Standard Chemistry Major: CHE 1479, 1489, 2331, 2139, 2341, 2149, 3311, 3119, 3321, 3129, 3469, and two of the following: 4381, 4439, 4449, or 4469. This major is highly recommended as a preparation for further related studies in graduate school, professional schools and work in industry. Students planning to teach may substitute electives for CHE 4381, 4439, 4449, or 4469 as approved by the head of the physical sciences department.

Chemistry Major with Biochemistry Concentration: In addition to the 35-36 hours listed above, students must take a minor in biology including BIO 1459, 1469, 3419, 3429, 4439, and 4372 or 4429. Approved by the American Society of Biological Chemists, this curriculum is an excellent preparation for medical and dental schools, as well as for biomedically oriented research and graduate studies in biochemistry.

Chemistry majors should take ENG 3306, MAT 2351 and 2361, SCI 3318, SCI 4109, SCI 4209, and eight hours of general or university physics as part of their general education and/or electives.

Chemistry/Academy of Freedom Double Major: Students interested in executive positions in science-related governmental agencies or industries are advised to consider this program, detailed further in the catalog's Academy of Freedom section.

A minor in chemistry shall consist of 18-24 semester hours of chemistry approved by the head of the physical sciences department. The minor must include two of the following courses: CHE 3311, 3321, 3469, 4381, 4439, 4449, or 4469. CHE 1429 will not count toward a minor.

CHEMISTRY 1101-4609. SPECIAL STUDIES.

Special courses not a part of the regular schedule, offered on an irregular schedule.

Prerequisite: None.

One to six semester hours

CHEMISTRY 1105. CHEMICAL CALCULATIONS I.

Problem-solving techniques for CHE 1479 General Chemistry I. One-hour lecture per week. Fall.

Prerequisite: Concurrent enrollment in CHE 1479 or consent of department head. One semester hour

CHEMISTRY 1106. CHEMICAL CALCULATIONS II.

Problem-solving techniques for CHE 1489 General Chemistry II. One-hour lecture per week. Spring.

Prerequisite: Concurrent enrollment in CHE 1489 or consent of department head. One semester hour

CHEMISTRY 1429. FUNDAMENTALS OF CHEMISTRY.

A beginning chemistry course for students in applied sciences who need only one semester of general chemistry. The course includes the structure, properties and changes in matter, quantitative relationships in reactions, solutions, equilibrium, pH, buffers and nuclear chemistry. Not recommended for science majors or preprofessional students in health related fields. Does not meet prerequisite for CHE 1489 or 2331. Two hours of laboratory per week. Fall, Summer.

Prerequisite: None.

Four semester hours

CHEMISTRY 1479, 1489. GENERAL CHEMISTRY I, II. (CHEM 1411, 1412)

A study of the fundamentals of chemistry with emphasis on atomic structure, chemical bonding, the periodic system, descriptive inorganic chemistry, equilibria and elementary thermodynamics of chemical systems. Three hours lecture and three hours laboratory per week. Concurrent enrollment in CHE 1105 and CHE 1106 respectively is highly recommended. CHE 1479, Fall, Spring; CHE 1489, Spring, Summer.

Prerequisite: Credit or concurrent enrollment in MAT 1351.

CHE 1479 is prerequisite to 1489, or consent of department head.

Four semester hours each

Chemistry

CHEMISTRY 2331, 2341. ORGANIC CHEMISTRY I, II. (CHEM 2323, 2325)

A study of organic chemistry emphasizing nomenclature, bonding, structural relationships to reactions; reaction types and mechanisms and synthetic methods. CHE 2331, Fall; CHE 2341, Spring.

Prerequisite: CHE 1489, 2331 is prerequisite to 2341.

Three semester hours each

CHEMISTRY 2139, 2149. ORGANIC CHEMISTRY LABORATORY I, II. (CHEM 2123, 2125)

A two-semester study of the laboratory techniques and methods used in modern organic chemistry. Four hours of laboratory per week. CHE 2139, Fall. Summer; CHE 2149, Spring, Summer.

Prerequisite: Credit or concurrent enrollment in CHE 2331 or 2341.

One semester hour each

CHEMISTRY 3001. LABORATORY ASSISTANT INTERNSHIP.

Students will gain experience in preparing, conducting, and evaluating laboratory studies.

Prerequisite: Consent of department head.

No credit hours

CHEMISTRY 3311, 3321. PHYSICAL CHEMISTRY I, II.

A two-semester study of the physical properties and structure of matter together with chemical interactions from the perspectives of thermodynamics, quantum mechanics, chemical kinetics and symmetry. Three hours lecture per week. CHE 3311, Fall, odd years; CHE 3321, Spring, even years.

Prerequisite: CHE 1489, MAT 2351, PHY 1419.

Three semester hours each

CHEMISTRY 3119, 3129. PHYSICAL CHEMISTRY LABORATORY I, II.

An introduction to the equipment, methods and laboratory skills needed in modern physical chemistry. Four hours of laboratory per week. CHE 3119, Fall, odd years; CHE 3129, Spring, even years.

Prerequisite: Credit or concurrent enrollment in CHE 3311 or 3321.

One semester hour each

CHEMISTRY 3469. QUANTITATIVE CHEMISTRY.

The theory and practice relating to the major analytical techniques in chemistry will be studied. These include gravimetric, volumetric, electrochemical and colorimetric methods of analysis. Two hours of lecture and eight hours of laboratory weekly. Fall, even years.

Prerequisite: CHE 1489.

Four semester hours

CHEMISTRY 4000. TEXES REVIEW FOR SECONDARY TEACHERS.

This course is designed to help students pass the chemistry section of the Texas Examination of Educator Standards (TEXES). Free of charge; pass/fail.

Prerequisite: Concurrent enrollment in EDU 4000.

No credit hours

CHEMISTRY 4381. ADVANCED INORGANIC CHEMISTRY.

A study of the chemistry of the main group elements including bonding, symmetry, periodic properties, and the chemistry of the transition elements. Three hours of lecture weekly. Spring, even years.

Prerequisite: CHE 2331.

Three semester hours

CHEMISTRY 4391. POLYMER CHEMISTRY.

Basic chemistry and synthesis reactions of polymers. Effect of polymer structure and composition on mechanical properties. Viscoelastic behavior of amorphous polymers and response of crystalline polymers to stress. Electrical and optical properties.

Prerequisite: CHE 2341.

Three semester hours

CHEMISTRY 4439, 4449. BIOCHEMISTRY I, II.

Chemical studies of biological processes emphasizing conformation, metabolism, biosynthesis, genetic information and molecular physiology. Three hours lecture and four hours laboratory per week. CHE 4439, Fall, even years; CHE 4449, Spring, odd years.

Prerequisite: CHE 2341.

Four semester hours each

CHEMISTRY 4469. INSTRUMENTAL ANALYSIS.

The study of the principles upon which instrumentation is based along with the practical application of spectral interpretation. Two hours of lecture and six hours of laboratory per week. Spring, odd years.
Prerequisite: CHE 3469. Four semester hours

Forensic Science

Students majoring in Forensic Science must complete 36 semester hours in Chemistry, Forensic Science and Criminal Justice courses as specified below. Forensic Science majors may also choose to add a concentration in Chemistry or Criminal Justice.

Standard Forensic Science major: CHE 1479, 1489, 3469, 4469; FRS 2479, 2489, 3479, 4279, CRJ 1310 and 1320.

Forensic Science majors considering post-baccalaureate study should consider completing the following courses as part of their general education requirements and/or electives.

SCI 2318, MAT 2342 or CRJ 2351 (choose one)
BIO 1459, ENG 3306, CRJ 3301, MAT 2351, MAT 2361
Eight hours of general or university physics
Additional concentration in Chemistry or Criminal Justice

Concentrations available with the Forensic Science major:

In addition to the 36 hours listed above for the major, students wishing to add a concentration must also take the following courses in their chosen concentration:

Criminal Justice concentration: CRJ 3301, CRJ 4361 and six (6) additional hours chosen in consultation with the criminal justice faculty.

Chemistry concentration: CHE 2331, 2139, 2341, 2149, and either (CHE 4439, and 4449) or (CHE 3311, 3119, 3321, and 3129).

A minor in Forensic Science requires 24 semester hours, consisting of CHE 1479, 1489 and 3469; FRS 2479, 2489, and 3479.

Forensic Science-Academy of Freedom double major: Students interested in executive positions in law enforcement agencies are advised to consider this program, detailed further in the catalog's Academy of Freedom section.

FORENSIC SCIENCE 2479. INTRODUCTION TO FORENSIC SCIENCE.

This course provides an overview of forensic science field training for the science and non-science major alike. The scientific method is applied to forensics with an emphasis on evidence and crime scene reconstruction. Laboratory sessions provide hands-on experience with field samples, such as print and spatter analysis. Cross-credited with CRJ 2479. Only four credit hours will be awarded for CRJ 2479 and FRS 2479. Three hours lecture and two hours laboratory per week. Fall, odd years.
Prerequisite: Credit or concurrent enrollment in MAT 1351. Four semester hours

FORENSIC SCIENCE 2489. SCIENTIFIC CRIMINAL INVESTIGATION.

This course focuses on the techniques, abilities and limitations of the modern crime laboratory and emphasizes current scientific technologies, techniques, practices and procedures employed in criminal investigation. Cross-credited with CRJ 2489. Only four credit hours will be awarded for CRJ 2489 and FRS 2489. Three hours lecture and two hours laboratory per week. Spring, even years.
Prerequisite: FRS 2479, CRJ 1310 and CRJ 1320. Four semester hours

Forensic Science / Geology / Physical Science

FORENSIC SCIENCE 3479. CRIME SCENE ANALYSIS.

This course continues the analytical study of the latest methods of crime scene investigation and analysis and specifically addresses how to, when to and in what order to collect forensic data. Students will investigate old case studies of crime scenes and devise viable alternatives for the investigations using scientific reasoning and current methodologies. Cross-credited with CRJ 3479. Only four credit hours will be awarded for CRJ 3479 and FRS 3479. Three hours lecture and three hours laboratory per week. Fall, even years.

Prerequisite: FRS 2489.

Four semester hours

FORENSIC SCIENCE 4279 FORENSIC FILES ANALYSIS.

This course is designed as a multi-disciplinary capstone to the forensic science curriculum. Students will study unsolved or hypothetical criminal cases and propose suitable procedures and techniques for scientifically investigating these cases. They will present their data in a mock trial with cross-examination before a judge and jury of faculty members and students. Cross-credited with CRJ 4279. Only two credit hours will be awarded for CRJ 4279 and FRS 4279. One hour lecture and two hours laboratory per week. Spring, odd years.

Prerequisite: FRS 2489. CHE 3469.

Two semester hours

Geology

GEOLOGY 1419. PHYSICAL GEOLOGY. (GEOL 1403)

The study of the materials of the earth's crust. The physical processes by which the crust is formed and the resulting landscape. Three hours of lecture and one two-hour laboratory per week. Fall, odd years, Summer, even years.

Prerequisite: None.

Four semester hours

GEOLOGY 1429. HISTORICAL GEOLOGY. (GEOL 1404)

The history of the earth's surface and of the various life forms which inhabit it. Three hours of lecture and one two hour laboratory per week.

Prerequisite: None.

Four semester hours

GEOLOGY 1449. ENVIRONMENTAL GEOLOGY.

An introduction to geology and its role in shaping the environment. Topics covered include natural hazards: earthquakes, volcanoes, floods, erosion; water, soil, mineral and energy resources; waste disposal and pollution as well as environmental law; land use planning and engineering. Three hours lecture and two hours laboratory per week. Fall, even years, Summer, odd years.

Prerequisite: None.

Four semester hours

Physical Science

These courses do not count toward a major in any of the sciences.

PHYSICAL SCIENCE 1409. PRINCIPLES OF ASTRONOMY.

An introduction to the basic concepts and principles from astronomy and physics with emphasis on the way scientific laws and theories are developed. A foundation for understanding the importance of science and technology in the world. **Designed for non-science majors.** Three hours lecture and two hours laboratory per week. Fall, Summer.

Prerequisite: None.

Four semester hours

PHYSICAL SCIENCE 1419. PHYSICAL SCIENCE FOR ELEMENTARY EDUCATION.

An introduction to the basic concepts and principles of physics and astronomy with an emphasis on the way scientific theories are developed. **This course is activity based and is designed for elementary education majors only.** Topics discussed address some of the key subject matter in the Texas Essential Knowledge and Skills for physical science. Spring.

Prerequisite: MAT 1321 or above.

Four semester hours

PHYSICAL SCIENCE 1429. EARTH SCIENCE, CHEMISTRY AND THE WEATHER.

An introduction to the basic concepts and principles from meteorology, earth science and chemistry with emphasis on the way scientific laws and theories are developed. A foundation for understanding the importance of science and technology in the world. **Designed for non-science majors and required for 4-8 Middle School Science certification.** Three hours lecture and two hours laboratory per week. Spring.

Prerequisite: None.

Four semester hours

PHYSICAL SCIENCE 1439. THE SCIENCE OF MUSIC.

An introduction to classical mechanics, oscillating systems and acoustics. The course will emphasize physical principles which provide a firm foundation in acoustical phenomena, room acoustics and the physics of musical instruments. This course will be especially useful to the music student. Three hours lecture and two hours laboratory per week. **Designed for non-science majors.** May-Term.

Prerequisite: None.

Four semester hours

PHYSICAL SCIENCE 1449. METEOROLOGY: WEATHER AND CLIMATE.

An introduction to the basic concepts and principles of the weather and climate with emphasis on the way scientific laws and theories are developed. A foundation for understanding the importance of science and technology in the world. **Designed for non-science majors.** Three hours lecture and two hours laboratory per week. Spring, Summer.

Prerequisite: None.

Four semester hours

Physics

PHYSICS 1101-4609. SPECIAL STUDIES.

Special courses not a part of the regular schedule, offered on an irregular schedule.

Prerequisite: None.

One to six semester hours

PHYSICS 1105. GENERAL PHYSICS CALCULATIONS I.

A problem-oriented course designed to assist students in mastering calculations for general physics.

Co-requisite: PHY 1419.

One semester hour

PHYSICS 1106. GENERAL PHYSICS CALCULATIONS II.

A problem-oriented course designed to assist students in mastering calculations for general physics.

Co-requisite: PHY 1429.

One semester hour

PHYSICS 1419. GENERAL PHYSICS I. (PHYS 1401)

The first semester of a two-semester, algebra-based sequence in classical physics, covering topics in mechanics, heat, and fluid flow. Three hours of lecture and one two-hour laboratory period per week. Fall, even years.

Prerequisite: MAT 1351 and high school trigonometry.

Four semester hours

PHYSICS 1429. GENERAL PHYSICS II. (PHYS 1402)

Continuation of PHY 1419, covering topics in electricity and magnetism, wave motion, and physical and geometric optics. Three hours of lecture and one two-hour laboratory period per week. Spring, odd years.

Prerequisite: PHY 1419.

Four semester hours

PHYSICS 2105. UNIVERSITY PHYSICS CALCULATIONS I.

A problem-oriented course designed to assist students in mastering calculations for university physics.

Co-requisite: PHY 2439.

One semester hour

Physics

PHYSICS 2106. UNIVERSITY PHYSICS CALCULATIONS II.

A problem-oriented course designed to assist students in mastering calculations for university physics.
Co-requisite: PHY 2449. One semester hour

PHYSICS 2439. UNIVERSITY PHYSICS I. (PHYS 2425)

The first semester of a two-semester, calculus-based sequence in classical physics for mathematics, physical science, or pre-engineering students. Topics include vector mechanics, kinematics, thermodynamics, and fluid dynamics. PHY 1419 and 2439 may not both be counted. Three hours of lecture and one two-hour laboratory period per week. Fall, odd years.
Co-requisite: MAT 2351. Four semester hours

Master of Arts in Youth Ministry

MAYM Degree Program

GARY GRAMLING, Ph.D., DIRECTOR

FACULTY: Art Allen, Th.D.; Donnie Auvenshine, Ph.D.; Bill Fowler, Ph.D.; Rusty Wheelington, Ed.D.

PART-TIME/ADJUNCT FACULTY: Donna Bowman, D.Ed.Min.; Adlin Cotto, Ph.D.; Allen Jackson, Ph.D.; Brent Marsh, Ph.D.; Jimmy Myers, Ph.D.; Scott Stevens, Ph.D.; Vicki Vaughn, D.Min.

Since 1889, Howard Payne University has been training men and women who have sensed God's calling to vocational Christian ministry. The Master of Arts in Youth Ministry is designed to provide preparation for those who will minister to teenagers and their families through the local church and other related ministries. The curriculum contains a combination of courses that emphasize biblical, theological, and practical application.

- 42-hour non-thesis degree
- Traditional residency **not** required
- 6 hours of supervised internship in lieu of thesis

On-line applications can be submitted at www.hpuyouthministry.org

Program Goals

The educational goals for the Master of Arts in Youth Ministry are:

1. Students will learn the processes, functions, and networks of an effective local church youth minister.
2. Students will develop familiarity with the primary issues along with skills and tools needed to give effective leadership to local church youth ministry.
3. Students will assess youth ministry from biblical and theological perspectives.

Student Learning Outcomes

The expected student learning outcomes for the Master of Arts in Youth Ministry are:

1. Graduates will be able to articulate a biblically-based, theologically sound, relationship-focused strategy of youth ministry in the local church.
2. Graduates will have developed proficiency in the skills needed for the study and appropriate interpretation of the biblical materials.
3. Graduates will have developed a proper theological framework through which to view youth ministry.
4. Graduates will have developed appropriate skills for researching factors related to teenagers, their leaders, and their families.
5. Graduates will have had successful experiences working with youth in various settings by participating in internships.

Categories of Admission

Enrollment in the Master of Arts in Youth Ministry degree program falls under the following categories:

Full Admission

1. **Applicants to the MA in Youth Ministry Program must hold a baccalaureate degree** from a regionally-accredited college or university. The baccalaureate degree does not have to be in Christian Studies. Prospective graduate students should contact the School of Christian Studies office to obtain an application packet or complete the application on-line at www.hpuchristianstudies.org.
2. **Applicants for admission to the Master of Arts in Youth Ministry program must submit the following:**
 - a. **Application Form** (available on-line) - Applicants should possess proven ability in both oral and written communication. The application form is included in the application packet.
 - b. **Autobiographical Essay** - An autobiographical history of the applicant, reflecting family background, spiritual development, call to ministry, local church commitment, ministry experience, and future goals. The essay should be type-written, double-spaced, and no more than 3 pages in length.
 - c. **Three Reference Forms** - These forms should be completed by persons who have known the applicant for a minimum of two years. The letters should affirm the applicant's moral character, Christian commitment, and academic readiness for graduate work. The forms should be completed by the applicant's pastor, a former professor, and a person who has observed the applicant in a ministry setting. We cannot accept recommendations from spouses or relatives. Reference forms are included in the application packet (also available on-line).
 - d. **Official Transcripts** - Students may transfer up to nine hours of equivalent graduate coursework from an accredited graduate institution. The transcripts must be sent directly from each institution attended by the applicant as an undergraduate, post-baccalaureate, or graduate student. The student's prior academic performance will be an important criterion in admission to the program.
 - e. **Church Endorsement Form** - The Church Endorsement form must be completed by a church of which the student has been a member. The Church Endorsement form is included in the application packet (also available on-line).
3. **Each applicant to the graduate program will have a personal interview** with the Director of the Youth Ministry Graduate Program and/or another faculty member from the School of Christian Studies. The interview may be conducted in person or by telephone.
4. **Applications for admission to the graduate program must be submitted between March 15 and July 1 for the fall semesters and between August 15 and December 1 for the spring semesters.**

Provisional Admission

An undergraduate student may be considered for admission to the graduate program provided that he/she:

1. The student is within 12 semester hours of graduation.
2. The student has attained a minimum GPA of 3.0.

Master of Arts in Youth Ministry Degree Program

3. The student has received approval from the Director of the Youth Ministry Graduate Program and the Dean of Graduate Studies.

No provisionally admitted student will be allowed to take more than 6 graduate hours until he/she has been fully admitted to the graduate program at Howard Payne University. Normal maximum load policies will apply.

NOTE: A course cannot count for both undergraduate and graduate credit.

Special Student Admission

A non-degree seeking student may be considered for special admission to the graduate program and allowed to take graduate courses on a case-by-case basis. Approval must be received from both the Director of the Youth Ministry Graduate Program and the Dean of Graduate Studies.

Please send ALL application materials to Howard Payne University:

Youth Ministry Graduate Program
Howard Payne University
1000 Fisk Street
Brownwood, TX 76801

Admission Policies

Open Enrollment

Enrollment is open to qualified students who, without distinction of race, sex, handicap, or denomination, desire to undertake serious theological study and who show promise of success in such an endeavor.

Leveling

Applicants who have not had undergraduate courses in Old and New Testament may choose to take either leveling courses or departmental challenge examinations. Departmental challenge examinations must be passed with a score of 80% or better.

Applicants who have not taken undergraduate courses in Youth Ministry must take the leveling course YMN 3380 Introduction to Youth Ministry.

Notification

Official notification of the action of the Graduate Admission Screening Committee regarding admission or non-admission is communicated solely by the Director of the Youth Ministry Graduate Program and/or the Dean of Graduate Studies.

Appeals

Students wishing to appeal an admission decision should first consult with the Director of the Youth Ministry Graduate Program. If the student is not satisfied, an appeal may be made to the Dean of Graduate Studies. If the student is not satisfied, a final appeal may be made to the provost.

Financial Information / Scholarship Funds

Graduate Tuition

Graduate course tuition rate: \$490.00 per credit hour. Graduate courses may be audited for \$75.00 per audit hour.

Refunds

Refunds of tuition will be considered in cases where students officially withdraw from the university prior to the third day of modular graduate classes.

First full day	100%
Second full day	25%
Third full day and after	No refund

HPU Church Match Scholarship

HPU will match designated church gifts for HPU graduate students up to, but not exceeding \$100.00 per semester hour. This scholarship applies to all graduate courses and is not limited to Baptist churches.

BGCT Ministerial Grant/Scholarships

For students who are members of Baptist churches, the Baptist General Convention of Texas offers aid of \$100.00 per semester hour.

- Students may qualify for both Church Match and BGCT scholarships
- Additional financial aid information is available at www.hpuchristianstudies.org.

Students who receive Ministerial Financial Aid from the BGCT, and who have not taken a substantial undergraduate course emphasizing Baptist distinctives and polity, must take PTH 5311. In addition, students who receive Ministerial Financial Aid from the BGCT, and who have not taken an upper level undergraduate course in Christian history, must take PTH 5331.

Student Services and Student Life

The University provides a number of services to students. Since graduate students will be on campus some of the time, they will have access to all student services while on campus. Among these are the various student activities, library privileges, health services, and student publications. For additional information regarding student services, please see the student handbook.

Identification Card

The student's identification card is his/her official university identification and should be carried at all times. The card provides access to library services, wellness center, athletic events, and other university events and services.

Insurance

The University does not provide a health insurance policy for students. However, HPU graduate students are eligible to apply for the seminarian insurance policy through Guidestone Financial. Details are available at www.guidestone.org.

Master of Arts in Youth Ministry Degree Program

Academic and Personal Integrity

Students are expected to maintain academic honesty and personal integrity at all times. Cheating is defined as giving or receiving academic assistance not approved by the professor. Plagiarism presents the ideas and/or writings of others without proper and explicit acknowledgment of the source(s). This applies to on-line sources as well as printed materials. It is the policy of Howard Payne University that all instances of academic dishonesty are to be reported in writing by instructors to the Dean of Students. Academic dishonesty may be considered grounds for dismissal from the course and/or the University.

Academic Information

Orientation

At the beginning of each fall and spring semester, as a part of the admission process, the Director of the Youth Ministry Graduate Program will provide orientation information for new graduate students. The orientation will include information regarding Curriculum, Student Services, Financial Aid, the Business Office, the Library, and other related areas.

Advisory Committee

Each graduate student must assemble an advisory committee that will serve to provide guidance and feedback throughout the program. This committee will be in place from the first semester that a student enters the program until the final oral interview prior to graduation. The committee will consist of the Director of the Youth Ministry Graduate Program, a faculty member chosen by the student, and an experienced youth minister (at least five years full-time experience) chosen by the student. The advisory committee will meet annually until the student completes the degree requirements.

Internships

In lieu of a thesis, the Master of Arts in Youth Ministry will require students to complete three separate internships as a practical expression of what they are learning. The internships will be supervised, focusing on skill-based and affective learning.

Portfolio

The student will assemble a portfolio while enrolled in the graduate program. The portfolio will include designated written assignments from all completed courses. These assignments will be assembled in both electronic and hard copy formats. A copy of the materials will be presented to the student's advisory committee prior to the final oral interview. The portfolio will serve as a comprehensive assessment tool, providing insight to the student's advisory committee as to whether the intended learning outcomes have been achieved. Upon graduation, a copy of the portfolio will be kept in the student's permanent file in the office of the Dean of Graduate Studies.

Library

Because of Howard Payne University's long-standing Youth Ministry undergraduate program, Walker Memorial Library has an extensive collection of print and on-line resources for this field of study. Approximately 15% of the total print collection of the library will be found in the religion subject areas. Over 5% of the collection relates specifically to ministry and is heavily weighted toward youth ministry. As a part of the Abilene Library Consortium, our students can utilize the collections of the Abilene Public Library, Abilene Christian University, Hardin-Simmons University, and McMurry University. These resources are particularly valuable since all three of the universities are private church-related schools. Since the four universities (including HPU) cooperate in making acquisitions of print materials, graduate students will have access to over 830,000 print volumes. Students may request materials from these libraries on-line by using their student ID and PIN.

Graduate Student Performance

Every student enrolled in the graduate program is required to maintain a high level of performance and comply fully with the policies of the institution. The University reserves the right to suspend any graduate student who does not maintain satisfactory academic standing or fails to conform to university policies.

Academic Policies

Enrollment Status

To be considered full-time, a master's level student must be enrolled in a minimum of nine (9) hours of graduate level (5000-6000) courses.

For the purpose of reporting enrollment status for graduate students, 9 or more semester hours is considered full-time during the long semesters (Fall and Spring) and less than 9 semester hours is considered part-time. During short terms (May-term, Summer I, Summer II), full-time enrollment is 6 or more semester hours and part-time enrollment is less than 6 semester hours.

For the purpose of financial aid (loans, etc.), enrollment status during the long semesters (Fall and Spring) is determined as follows: Full-time - 9 or more semester hours; 3/4 time - 7-8 semester hours; 1/2 time - 6 semester hours; Less than 1/2 time - 4-5 semester hours; 1/4 time - 3 semester hours. Enrollment status during short terms (Summer I, Summer II) is as follows: Full-time - 6 or more semester hours; 3/4 time - 4-5 semester hours; 1/2 time - 3 semester hours; Less than 1/2 time - 2 semester hours; 1/4 time - 1 semester hour.

Grades and Grade Points

Grades in graduate courses indicate performance with respect to the quality of work at the graduate level. Accordingly, graduate students should be aware that grades are based on more stringent criteria than those for undergraduate courses. Students must earn a grade of C or higher in all graduate courses. A grade below 70 will be considered a failing grade. Failure to achieve good academic standing will result in dismissal from the program. Possible grades include:

Grade	Explanation	Grade Points
A	Excellent	4
B	Good	3
C	Fair	2
D	Not Passing for graduate coursework	1
F	Failing	0
I	Incomplete	0
WP	Withdrew Passing	0
WF	Withdrew Failing	0
NG	No Grade	0

In order to maintain acceptable academic progress, graduate students must maintain a 3.0 grade point average in all graduate work (when courses are repeated, only the most recent grade will be used to calculate grade points and semester hours).

A student who earns a grade of D, F, or WF will be placed on Academic Probation.

Academic Probation

When placed on academic probation, the student's graduate advisory committee must consider the student's potential for successful completion of the program and make a recommendation to the Dean of Graduate Studies. A student may not be graduated while on academic probation. To return to good aca-

Master of Arts in Youth Ministry Degree Program

ademic standing, the student must satisfy the dictates of their graduate advisory committee and possess a grade point average of 3.0 or better.

Grade Appeal Process

A student who believes that the grading policy for a class has been unfairly administered, resulting in a course grade lower than expected, has the right to appeal the professor's decision on the grade. The following process is for appealing a course grade only, not for grades on individual projects or tests. For an appeal to be considered valid, each of the following steps must be taken in the order listed.

1. Discuss the matter with the professor. If at all possible, the matter is reconciled at this point.
2. If dissatisfied with this discussion, the student voices the concern to the Director of the Youth Ministry Graduate Program in a conference scheduled by the student. The program director discusses the matter with the professor; another attempt is made to reconcile the matter. (If the professor is the program director, proceed to step three.)
3. If the issue is not resolved to the student's satisfaction, the student submits a formal, written appeal to the Dean of Graduate Studies. The following must be included in the graduate student's appeal:
 - a. A cover letter requesting reconsideration of the grade.
 - b. A straightforward narrative (1-3 pages) detailing the circumstances surrounding the contested grades, with special emphasis given to reasons why the student believes the grade is unwarranted.
 - c. All graded materials in the class - tests, essays, projects, etc. - that are in the student's possession, and
 - d. The student's personal record of attendance in the class.
4. The Director of the Youth Ministry Graduate Program forwards a recommendation on the matter to the Dean of Graduate Studies upon notification that the student has filed a grievance.
5. In writing, the Dean of Graduate Studies formally apprises the professor of the student's grievance and gives a summary of the points of concern.
6. The professor submits a written response to the Dean of Graduate Studies, which includes the projects in the professor's possession, grades on all work done in the course, and a copy of the class syllabus with the contested policy highlighted.
7. The Dean of Graduate Studies will meet with each party separately and may schedule a joint appointment with the two parties in order to attempt a solution.
8. If the student feels that additional appeal is necessary, then the last line of appeal is to the provost.

Transfer Credit

Work completed before the student applies for admission at HPU, or completed at another institution after admission to HPU may transfer if:

1. it is graduate work from a regionally accredited institution of higher education
2. an official transcript of the work is on file in the Office of the Registrar
3. the work was completed during the last 10 years
4. it is approved by the Director of the Youth Ministry Graduate Program.

A maximum of 9 semester hours of approved graduate work may be transferred provided the student did not complete the previous degree. A maximum of 6 semester hours may be transferred from a previously completed degree.

Correspondence Credit

No correspondence course credit may be applied to a graduate degree; however, courses taken through a distance-learning format such as on-line or interactive video may be considered.

Time Limitations for Degree Completion

A candidate may obtain a graduate degree according to the requirements of the catalog under which he/she enters the university or under the catalog for any subsequent year in which he/she is registered, provided all requirements are completed within five years from the beginning date of the selected catalog.

Master of Business Administration

MBA Degree Program

H. LOIS PATTON, Ph.D., DIRECTOR

FACULTY: **Trissa Cox, M.S.; Mark Patton, Ph.D.; Leslie Plagens, Ed.D.; Lester Towell, M.S.**

PART-TIME/ADJUNCT FACULTY: **Jerry DeHay, Ph.D.; Larry Meadows, M.A., J.D.**

Shortly after its founding in 1889, Howard Payne University has been training men and women who sense God's calling to become professionals in business, government and the not-for-profit sector. With HPU's excellent undergraduate business program as a foundation, the Master of Business Administration degree is designed to provide preparation for those who desire to further their career goals as managers or area specialists. The curriculum is designed to provide students with an appropriate balance of theory with practical application centered in a Christian servant leadership model.

- 30-hour non-thesis degree
- Traditional residency **not** required
- 3 hours of supervised project-internship in lieu of thesis

Program Goals

The educational goals for the Master of Business Administration are:

1. Students will learn to reason critically and analytically and solve problems faced by managers and entrepreneurs.
2. Students will develop an advanced understanding of applied business communications.
3. Students will be able to demonstrate knowledge in the functional areas of business and apply it to a specific discipline.
4. Students will develop career goals and understand how to leverage professional opportunities.

Student Learning Outcomes

The expected student learning outcomes for the Master of Business Administration are:

1. Graduates will be able to articulate a sound tactical-strategic plan for an organization in their chosen field.
2. Graduates will have developed proficiency in business communication skills needed for their profession.
3. Graduates will have developed an appropriate understanding of basic theory in marketing, management, and financial areas for organizational enhancement.
4. Graduates will have developed a working understanding of the ethical challenges in their given fields and be able to integrate their personal world-life view and accountability plan to manage these ever-present personal temptations in their careers and with their family lives.
5. Graduates will have had successful experiences working with organizations in various settings by participating in project-internships.

Categories of Admission

Enrollment in the Master of Business Administration degree program falls under the following categories:

Full Admission

1. **Applicants to the MBA Program must hold a baccalaureate degree** from a regionally-accredited college or university. If the applicant does not hold a business major, developmental classes (MBA 5300 and 5310) will be offered to allow such students an opportunity to gain the requisite skills for success in the program. These applicants may commence with the regularly scheduled classes in the MBA program but must complete the developmental courses within their first nine credit hours in the program. Prospective graduate students should contact the School of Business office to obtain an application packet or complete the application on-line at www.hputx.edu.
2. **Applicants to the MBA Program must hold a cumulative 3.0 GPA in their undergraduate studies.** Applicants that do not meet the GPA requirement may appeal to the Graduate Admissions Screening Committee for provisional-probation admission status.
3. **Applicants for admission to the MBA program must submit the following:**
 - a. **Application Form** (available on-line) - Applicants must complete all required information. The essay portion should demonstrate competence in the applicant's writing ability.
 - b. **Official Transcripts** - Transcripts must be sent directly from each institution attended by the applicant as an undergraduate, post-baccalaureate or graduate student. Students may transfer up to six hours of equivalent graduate coursework from an accredited graduate institution. The student's prior academic performance will be an important criterion in admission to the program.
 - c. **Participation in a nationally recognized assessment.** Satisfactory achievement on a nationally recognized assessment test such as the GMAT, GRE, or LSAT must be on record before completion of 12 credit hours.
4. **Applications for admission to the graduate program should be submitted between March 15 and July 1 for the fall semesters and between August 15 and December 1 for the spring semesters.**
5. The Graduate Admission Screening Committee will review the application, transcripts, and assessment data to determine the admission status for each applicant.

Provisional Admission

An undergraduate student may be considered for admission to the graduate program provided:

1. The student is within 12 semester hours of graduation,
2. The student has attained a minimum GPA of 3.0, and,
3. The student has received approval from the Director of the MBA Program and the Dean of the School of Business.

No provisionally admitted student will be allowed to take more than 6 graduate hours until he/she has been fully admitted to the graduate program at Howard Payne University. Normal maximum load policies will apply.

NOTE: A course cannot count for both undergraduate and graduate credit.

Master of Business Administration Degree Program

Special Student Admission

A non-degree seeking student may be considered for special admission to the graduate program and allowed to take graduate courses on a case-by-case basis. Approval must be received from both the Director of the MBA Program and the Dean of the School of Business.

Please send ALL application materials to Howard Payne University:

Admission Policies

Open Enrollment

Enrollment is open to qualified students who, without distinction of race, sex, handicap, or denomination, desire to undertake serious business study and who show promise of success in such an endeavor.

Leveling

Applicants who have not had undergraduate courses in management, marketing, accounting, business law, and finance may choose to take developmental courses (MBA 5300, 5310), prescribed undergraduate courses, or departmental challenge examinations. Departmental challenge examinations must be passed with a score of 80% or better.

Notification

Official notification of the action of the Graduate Admission Screening Committee regarding admission or non-admission is communicated solely by the Director of the MBA Graduate Program and/or the Dean of the Business School.

Appeals

Students wishing to appeal an admission decision should first consult with the Director of the MBA Program. If the student is not satisfied, an appeal may be made to the Dean of the Business School. If the student is not satisfied, a final appeal may be made to the Provost.

Financial Information

Graduate Tuition

Graduate course tuition rate: \$490.00 per credit hour. Graduate courses may be audited for \$75.00 per audit hour.

Master of Business Administration Degree Program

Refunds

Refunds of tuition will be considered in cases where students officially withdraw from the university prior to the third day of modular graduate classes.

First full day	100%
Second full day	25%
Third full day and after	No refund

Student Services and Student Life

The University provides a number of services to students. Since graduate students will be on campus some of the time, they will have access to all student services while on campus. Among these are the various student activities, library privileges, health services, and student publications. For additional information regarding student services, please see the student handbook.

Identification Card

The student's identification card is his/her official university identification and should be carried at all times. The card provides access to library services, wellness center, athletic events, and other university events and services.

Insurance

The University does not provide a health insurance policy for students. However, HPU graduate students are eligible to apply for the seminarian insurance policy through Guidestone Financial. Details are available at www.guidestone.org.

Academic and Personal Integrity

Students are expected to maintain academic honesty and personal integrity at all times. Cheating is defined as giving or receiving academic assistance not approved by the professor. Plagiarism presents the ideas and/or writings of others without proper and explicit acknowledgment of the source(s). This applies to on-line sources as well as printed materials. It is the policy of Howard Payne University that all instances of academic dishonesty are to be reported in writing by instructors to the Dean of Students. Academic dishonesty may be considered grounds for dismissal from the course and/or the University.

Academic Information

Orientation

At the beginning of each fall and spring semester, as a part of the admission process, the Director of the MBA will provide orientation information for new graduate students. The orientation will include information regarding Curriculum, Student Services, Financial Aid, the Business Office, the Library, and other related areas.

Internships

In lieu of a thesis, the MBA will require students to complete a project-internship as a practical expression of what they are learning. The project-internships will be supervised, focusing on skill-based and affective learning.

Library

Walker Memorial Library has an extensive collection of print and on-line resources. As a part of the Abilene Library Consortium, our students can utilize the collections of the Abilene Public Library,

Master of Business Administration Degree Program

Abilene Christian University, Hardin-Simmons University, and McMurry University. Since the four universities (including HPU) cooperate in making acquisitions of print materials, graduate students will have access to over 830,000 print volumes. Students may request materials from these libraries on-line by using their student ID and PIN.

Graduate Student Performance

Every student enrolled in the graduate program is required to maintain a high level of performance and comply fully with the policies of the institution. The University reserves the right to suspend any graduate student who does not maintain satisfactory academic standing or fails to conform to university policies.

Academic Policies

Enrollment Status

At master's level student may choose to take only one course at a time but in order to be considered full-time, s/he must be enrolled in a minimum of nine (9) hours of graduate level (5000-6000) courses.

For the purpose of reporting enrollment status for graduate students, 9 or more semester hours is considered full-time during the long semesters (Fall and Spring) and less than 9 semester hours is considered part-time. During short terms (May-term, Summer I, Summer II), full-time enrollment is 6 or more semester hours and part-time enrollment is less than 6 semester hours.

For the purpose of financial aid (loans, etc.), enrollment status during the long semesters (Fall and Spring) is determined as follows: Full-time - 9 or more semester hours; 3/4 time - 7-8 semester hours; 1/2 time - 6 semester hours; Less than 1/2 time - 4-5 semester hours; 1/4 time - 3 semester hours. Enrollment status during short terms (Summer I, Summer II) is as follows: Full-time - 6 or more semester hours; 3/4 time - 4-5 semester hours; 1/2 time - 3 semester hours; Less than 1/2 time - 2 semester hours; 1/4 time - 1 semester hour.

Grades and Grade Points

Grades in graduate courses indicate performance with respect to the quality of work at the graduate level. Accordingly, graduate students should be aware that grades are based on more stringent criteria than those for undergraduate courses. Students must earn a grade of C or higher in all graduate courses. A grade below 70 will be considered a failing grade. Failure to achieve good academic standing will result in dismissal from the program. Possible grades include:

Grade	Explanation	Grade Points
A	Excellent	4
B	Good	3
C	Fair	2
D	Not Passing for graduate coursework	1
F	Failing	0
I	Incomplete	0
WP	Withdrew Passing	0
WF	Withdrew Failing	0
NG	No Grade	0

In order to maintain acceptable academic progress, graduate students must maintain a 3.0 grade point average in all graduate work (when courses are repeated, only the most recent grade will be used to calculate grade points and semester hours).

A student who earns a grade of D, F, or WF will be placed on Academic Probation.

Master of Business Administration Degree Program

Academic Probation

When placed on academic probation, the Director of the MBA Program and the Dean of the School of Business will review the student's potential for successful completion of the program. A recommendation will be given to the student on how to return to good academic standing. A student may not graduate while on academic probation.

Grade Appeal Process

A student who believes that the grading policy for a class has been unfairly administered, resulting in a course grade lower than expected, has the right to appeal the professor's decision on the grade. The following process is for appealing a course grade only, not for grades on individual projects or tests. For an appeal to be considered valid, each of the following steps must be taken in the order listed.

1. Discuss the matter with the professor. If at all possible, the matter is reconciled at this point.
2. If dissatisfied with this discussion, the student voices the concern to the Director of the MBA Program in a conference scheduled by the student. The program director discusses the matter with the professor; another attempt is made to reconcile the matter. (If the professor is the program director, proceed to step three.)
3. If the issue is not resolved to the student's satisfaction, the student submits a formal, written appeal to the Dean of the School of Business. The following must be included in the graduate student's appeal:
 - a. A cover letter requesting reconsideration of the grade.
 - b. A straightforward narrative (1-3 pages) detailing the circumstances surrounding the contested grades, with special emphasis given to reasons why the student believes the grade is unwarranted.
 - c. All graded materials in the class - tests, essays, projects, etc. - that are in the student's possession, and
 - d. The student's personal record of attendance in the class.
4. The Director of the MBA Program forwards a recommendation on the matter to the Dean of the Business School upon notification that the student has filed a grievance.
5. In writing, the Dean of School of Business formally apprises the professor of the student's grievance and gives a summary of the points of concern.
6. The professor submits a written response to the Dean of the Business School, which includes the projects in the professor's possession, grades on all work done in the course, and a copy of the class syllabus with the contested policy highlighted.
7. The Dean of the Business School will meet with each party separately and may schedule a joint appointment with the two parties in order to attempt a solution.
8. If the student feels that additional appeal is necessary, then the last line of appeal is to the provost.

Transfer Credit

Work completed before the student applies for admission at HPU, or completed at another institution after admission to HPU may transfer if:

- 1) it is graduate work from a regionally accredited institution of higher education
- 2) an official transcript of the work is on file in the Office of the Registrar
- 3) the work was completed during the last 10 years

Master of Business Administration Degree Program

4) it is approved by the Director of the MBA Program.

A maximum of 6 semester hours of approved graduate work may be transferred provided the student did not complete the previous degree. A maximum of 6 semester hours may be transferred from a previously completed degree.

Master of Education in Instructional Leadership Degree Program

JOE E ROBINSON, Ph.D., DIRECTOR

FACULTY: **Michael Rosato, Ed.D.**

PART-TIME/ADJUNCT FACULTY: **Robb Decker, J.D.; Brenda Emanuel, Ed.D.; Douglas Karr, Ed.D.; Kevin Spiller, Ed.D.; Max Thompson, Ph.D.**

Shortly after its founding in 1889, Howard Payne University has been training men and women who sense God's calling to become teachers in public and private schools. With HPU's excellent teacher education program as a foundation, the Master of Education in Instructional Leadership is designed to provide preparation for those who desire to become a certified principal in the State of Texas. The curriculum is aligned with the State standards for principals and provides students with an appropriate balance of theory with practical application.

- 36-hour non-thesis degree
- 100% on-line delivery; 8-week terms
- Traditional residency **not** required
- 6 hours of supervised internship in lieu of thesis
- Action research component concurrent with internship

On-line applications can be found at www.hputx.edu by clicking on the "Apply to HPU Online" button.

Program Goals

The educational goals for the Master of Education in Instructional Leadership are:

1. The curriculum of the program will maintain the highest quality, aligned with the State of Texas standards for principals (TEC §21.046(b)(1)-(6), identified in §241.15 relating to Standards for the Principal Certificate) emphasizing instructional leadership; administration, supervision, and communication skills; curriculum and instruction management; performance evaluation; organization; and fiscal management.
2. Students will pass the Texas Examination for Educator Certification (TExES) for principals (TExES #068) on their first attempt.
3. Graduates of the program will possess the knowledge and skills necessary to perform successfully as a first-year principal.
4. Students will exhibit the highest caliber of moral and ethical character providing a Christian "value added" dimension to the educational community in which they will serve as principals.

Student Learning Outcomes

The expected student learning outcomes for the Master of Education in Instructional Leadership are:

1. Graduates of the program will be able to shape campus culture by facilitating the development, articulation, implementation, and stewardship of a vision of learning that is shared and supported by the school community ("school community" includes students, staff, parents/caregivers, and community members).
2. Graduates of the program will be able to communicate and collaborate with all members of the school community, respond to diverse interests and needs, and mobilize resources to promote student success.
3. Graduates of the program will be able to act with integrity, fairness, and in an ethical and legal manner.
4. Graduates of the program will be able to facilitate the design and implementation of curricula and strategic plans that enhance teaching and learning; ensure alignment of curriculum, instruction, resources, and assessment; and promote the use of varied assessments to measure student performance.
5. Graduates of the program will be able to advocate, nurture, and sustain an instructional program and a campus culture that are conducive to student learning and staff professional growth.
6. Graduates of the program will be able to implement a staff evaluation and development system to improve the performance of all staff members, select and implement appropriate models for supervision and staff development, and apply the legal requirements for personnel management.
7. Graduates of the program will be able to apply organizational, decision-making, and problem solving skills to ensure an effective learning environment.
8. Graduates of the program will be able to apply principles of effective leadership and management in relation to campus budgeting, personnel, resource utilization, financial management, and technology use.
9. Graduates of the program will be able to apply principles of leadership and management to the campus physical plant and support systems to ensure a safe and effective learning environment.

Categories of Admission

Enrollment in the Master of Education in Instructional Leadership degree program falls under the following categories:

Full Admission

1. **Applicants to the MEd in Instructional Leadership Program must hold a baccalaureate degree** from a regionally-accredited college or university. Applicants must also hold a valid State of Texas teaching certification. Applicants holding valid teaching certification from another state may also be considered for the program. Prospective graduate students should contact the School of Education office to obtain an application packet or complete the application on-line at www.hputx.edu and clicking on the "Apply to HPU Online" button.

Master of Education in Instructional Leadership Degree Program

2. **Applicants for admission to the Master of Education in Instructional Leadership program must submit the following:**
 - a. **Application Form** (available on-line) - Applicants should possess proven ability in both oral and written communication. The application form is included in the application packet.
 - b. **Application Fee** (\$25.00, non-refundable).
 - c. **Essay** - An essay clearly articulating why the applicant is interested in pursuing this particular degree at this point in his/her educational career. The essay should be type-written, double-spaced, and 1 to 3 pages in length.
 - d. **Three Reference Forms** - These forms should be completed by persons who have known the applicant in a professional capacity for a minimum of two years. The forms should affirm the applicant's moral character, and academic readiness for graduate work. Recommendations are not to come from spouses or relatives. Reference forms are included in the application packet (also available on-line).
 - e. **Official Transcripts** - Official transcripts must be sent directly from each institution attended by the applicant as an undergraduate, post-baccalaureate, or graduate student. The student's prior academic performance will be an important criterion in admission to the program.
 - f. **School District Endorsement Form** - The School District Endorsement form must be completed by the applicant and signed by the applicant's superintendant (or his/her designee). Applicants teaching at private schools can secure the signature of the Headmaster/Principal of their school. The School District Endorsement form is included in the application packet (also available on-line).
 - g. **Texas Examination of Educator Standards (TExES) Pedagogy and Professional Responsibilities (PPR) Results** - Applicants who have performed at or above a scale score of 256 on their TExES PPR will be accepted into the program without condition. Applicants without TExES PPR results can contact the Director of the Instructional Leadership Program to provide verification of alternate test results.
3. **Each applicant to the graduate program will have a personal interview** with the Director of the Instructional Leadership Graduate Program and/or another faculty member from the School of Education. Because this program is delivered on-line, the interview will most likely be conducted by telephone.
4. Students can begin the Instructional Leadership program during any 8-week term; however, **complete applications for admission to this graduate program must be submitted six weeks prior to the start date of the term in which the applicant desires to begin enrolling in courses.**

Provisional Admission

Texas Examination of Educator Standards (TExES) Pedagogy and Professional Responsibilities (PPR) Results - Applicants who performed at a level lower than a scale score of 256, but not lower than a scale score of 250 on their TExES PPR may request provisional admission to the program. Applicants without TExES PPR results can contact the Director of the Instructional Leadership Program to provide verification of alternate test results.

Master of Education in Instructional Leadership Degree Program

Special Student Admission

A non-degree seeking student may be considered for special admission to the graduate program and allowed to take graduate courses on a case-by-case basis. Approval must be received from both the Director of the Instructional Leadership Graduate Program and the Dean of Graduate Studies.

Please send ALL application materials to Howard Payne University:

Master of Education in Instructional Leadership Degree Program

Student Services

Student services which support on-line students include orientation, advisement, registration, and the provision of textbooks. Advising and academic counseling will be provided by the Director of the Instructional Leadership Graduate Program via telephone and email. Major assistance is provided directly by personnel from the Brownwood campus in areas such as enrollment services, admissions, financial aid, and library orientation. See Orientation under the Academic Information section below.

Identification Card

The student's identification card is his/her official university identification and should be carried at all times. The card provides access to library services, as well as wellness center, athletic events, and other university events and services.

Insurance

The University does not provide a health insurance policy for students. However, HPU graduate students are eligible to apply for the seminarian insurance policy through Guidestone Financial. Details are available at www.guidestone.org.

Academic and Personal Integrity

Students are expected to maintain academic honesty and personal integrity at all times. Cheating is defined as giving or receiving academic assistance not approved by the professor. Plagiarism presents the ideas and/or writings of others without proper and explicit acknowledgment of the source(s). This applies to on-line sources as well as printed materials. It is the policy of Howard Payne University that all instances of academic dishonesty are to be reported in writing by instructors to the Dean of Students. Academic dishonesty may be considered grounds for dismissal from the course and/or the University.

Academic Information

Orientation

In keeping the integrity of an all on-line delivery, the Instructional Leadership Graduate Program requires students to successfully complete EDU 5000 - Distance Education Learning Module before enrolling in any other courses in the program. EDU 5000 is an orientation to the required technology for students to be successful as well as an orientation to Howard Payne University.

Internship

In lieu of a thesis, the Master of Education in Instructional Leadership will require students to complete an internship concurrently with an approved Action Research project as a practical expression of what they have learned.

ePortfolio

The student will assemble an ePortfolio while enrolled in the graduate program. The ePortfolio will include designated written assignments from every class taken in the program and will be copied to a CD or DVD. A copy of the materials will be presented to the Program Director prior to graduation. The portfolio will serve as a comprehensive assessment tool and practical resource for the student in his/her first administrative position.

Master of Education in Instructional Leadership Degree Program

Library

Howard Payne University is committed to providing learning resources to our students, whether they are physically within the library building or are remotely accessing our materials. On-line students will be able to access the library catalog and databases from any internet capable computer. Their student ID has a library barcode and associative ID number which allows them access to the many databases through our proxy. Since we are a member of the Abilene Library Consortium, the catalog includes holdings from all five libraries in the consortium. Students can request circulating items from the three Abilene universities, Abilene Christian University, Hardin-Simmons University, and McMurry University, with a simple click on the request button using their ID number and PIN. Since both Abilene Christian and Hardin-Simmons have graduate programs in Education, there are many appropriate resources in our catalog. Students in good standing with the HPU Library will be issued a TexShare card which will allow them to use participating libraries in their local area. Professional librarians are available through email or the toll free number to help students with their research. Many questions can be answered through the library web page "Off-campus Library Services."

Graduate Student Performance

Every student enrolled in the graduate program is required to maintain a high level of performance and comply fully with the policies of the institution. The University reserves the right to suspend any graduate student who does not maintain satisfactory academic standing or fails to conform to university policies.

Academic Policies

Enrollment Status

To be considered full-time, a master's level student must be enrolled in a minimum of nine (9) hours of graduate level (5000-6000) courses.

For the purpose of reporting enrollment status for graduate students, 9 or more semester hours is considered full-time during the long semesters (Fall and Spring) and less than 9 semester hours is considered part-time. During short terms (May-term, Summer I, Summer II), full-time enrollment is 6 or more semester hours and part-time enrollment is less than 6 semester hours.

For the purpose of financial aid (loans, etc.), enrollment status during the long semesters (Fall and Spring) is determined as follows: Full-time - 9 or more semester hours; 3/4 time - 7-8 semester hours; 1/2 time - 6 semester hours; Less than 1/2 time - 4-5 semester hours; 1/4 time - 3 semester hours.

Enrollment status during short terms (Summer I, Summer II) is as follows: Full-time - 6 or more semester hours; 3/4 time - 4-5 semester hours; 1/2 time - 3 semester hours; Less than 1/2 time - 2 semester hours; 1/4 time - 1 semester hour.

Grades and Grade Points

Grades in graduate courses indicate performance with respect to the quality of work at the graduate level. Accordingly, graduate students should be aware that grades are based on more stringent criteria than those for undergraduate courses. Students must earn a grade of C or higher in all graduate courses. A grade below 70 will be considered a failing grade. Failure to achieve good academic standing will result in dismissal from the program. Possible grades include:

Grade	Explanation	Grade Points
A	Excellent	4
B	Good	3
C	Fair	2
D	Not Passing for graduate coursework	1
F	Failing	0
I	Incomplete	0
WP	Withdrew Passing	0
WF	Withdrew Failing	0
NG	No Grade	0

In order to maintain acceptable academic progress, graduate students must maintain a 3.0 grade point average in all graduate work (when courses are repeated, only the most recent grade will be used to calculate grade points and semester hours).

A student who earns a grade of D, F, or WF will be placed on Academic Probation.

Academic Probation

When placed on academic probation, the student's graduate advisory committee must consider the student's potential for successful completion of the program and make a recommendation to the Dean of Graduate Studies. A student may not be graduated while on academic probation. To return to good academic standing, the student must satisfy the dictates of their graduate advisory committee and possess a grade point average of 3.0 or better.

Grade Appeal Process

A student, who believes that the grading policy for a class has been unfairly administered, resulting in a course grade lower than expected, has the right to appeal the professor's decision on the grade. The following process is for appealing a course grade only, not for grades on individual projects or tests. For an appeal to be considered valid, each of the following steps must be taken in the order listed.

1. Discuss the matter with the professor. If at all possible, the matter is reconciled at this point.
2. If dissatisfied with this discussion, the student voices the concern to the Director of the Instructional Leadership Graduate Program in a conference scheduled by the student. The program director discusses the matter with the professor; another attempt is made to reconcile the matter. (If the professor is the program director, proceed to step three.)
3. If the issue is not resolved to the student's satisfaction, the student submits a formal, written appeal to the Dean of Graduate Studies. The following must be included in the graduate student's appeal:
 - a. A cover letter requesting reconsideration of the grade.
 - b. A straightforward narrative (1-3 pages) detailing the circumstances surrounding the contested grades, with special emphasis given to reasons why the student believes the grade is unwarranted.

Master of Education in Instructional Leadership Degree Program

- c. All graded materials in the class – tests, essays, projects, etc. – that are in the student's possession, and
 - d. The student's personal record of attendance in the class.
4. The Director of the Instructional Leadership Graduate Program forwards a recommendation on the matter to the Dean of Graduate Studies upon notification that the student has filed a grievance.
5. In writing, the Dean of graduate Studies formally apprises the professor of the student's grievance and gives a summary of the points of concern.
6. The professor submits a written response to the Dean of Graduate Studies, which includes the projects in the professor's possession, grades on all work done in the course, and a copy of the class syllabus with the contested policy highlighted.
7. The Dean of Graduate Studies will meet with each party separately and may schedule a joint appointment with the two parties in order to attempt a solution.
8. If the student feels that additional appeal is necessary, then the last line of appeal is to the provost.

Transfer Credit

Work completed before the student applies for admission at HPU, or completed at another institution after admission to HPU may transfer if: 1) it is graduate work from a regionally accredited institution of higher education; 2) an official transcript of the work is on file in the Office of the Registrar; 3) the work was completed during the last 10 years; and 4) it is approved by the Director of the Instructional Leadership Graduate Program. A maximum of 9 semester hours of approved graduate work may be transferred provided the student did not complete the previous degree. A maximum of 6 semester hours may be transferred from a previous completed degree.

Correspondence Credit

No correspondence course credit may be applied to a graduate degree; however, courses taken through a distance-learning format such as on-line or interactive video may be considered.

Time Limitations for Degree Completion

A candidate may obtain a graduate degree according to the requirements of the catalog under which he/she enters the university or under the catalog for any subsequent year in which he/she is registered, provided all requirements are completed within five years from the beginning date of the selected catalog.

Campus Information

Howard Payne University Campus: The main campus is located adjacent to downtown Brownwood, between Main Street (U.S. 377) and Carnegie Street, just west of Austin Avenue.

Daniel Baker College Campus. Daniel Baker College merged with Howard Payne in 1953. HPU's Douglas MacArthur Academy of Freedom building, the Guy D. Newman Hall of American Ideals, and the Bettie and Robert Girling Center for Social Justice are located on the DBC campus, at the corner of Austin Avenue and Coggin Avenue, a few blocks southeast of the main campus.

Facilities

Office of Admission. This facility, which formerly housed HPU's School of Education, was remodeled in 2008 to serve as the home of the university's Office of Admission. This is the first stop on campus for many prospective students and their families, who meet with admission counselors and other personnel. (Fisk Street)

Bettie and Robert Girling Center for Social Justice. Named for Bettie J. and Robert G. W. Girling III, this building houses an undergraduate multidisciplinary initiative involving the departments of social work, sociology, psychology, political science and criminal justice. The facility includes a courtroom, seminar rooms and faculty offices. Opened in 1876, the building has served as a public elementary school and high school, as well as a DBC dormitory, science hall and library. Restoration of the building, formerly known as the Coggin Academy - McClelland Library Building, was completed in 2006. (DBC campus, Austin Avenue)

Doakie Day Art Center. Named in memory of the late Doakie Day, an artist, homemaker and lifetime resident of Brown County, this renovated facility - originally a 1920s-era Coca-Cola bottling plant - houses the university's art program. The Doakie Day Art Center was dedicated in 2009. (Center Avenue)

HPU Theatre. This facility was constructed in 2001 for theatre classroom instruction and student productions. (Clark Street and Whaley Street)

Campus Information

Communication & Theatre. This building houses the communication and theatre offices and a classroom. (Austin Avenue and Clark Street)

Davidson Music Complex. Named for the C.J. Davidson Family Charitable Foundation, this music facility, dedicated in 1998, is comprised of the renovated Fleming Building and the J.D. Nabers Band Hall, which have been connected by a three-story addition. Included in this complex are classrooms, computer labs, faculty studios, and instrumental and choral rehearsal halls. (Center Avenue and Whaley Street)

Don Shepard Park. Dedicated in 1996, Don Shepard Park is located near the main campus and used by the Yellow Jacket baseball team. A building adjacent to the baseball field was renovated in 1998 and serves as the clubhouse and coaches' offices. (Center Avenue and U.S. 377)

Douglas MacArthur Academy of Freedom Building. This facility, originally the Daniel Baker College administration building, was renovated in 1969 to accommodate HPU's Douglas MacArthur Academy of Freedom museum and classrooms. A portion of the building is open to the public for guided tours. (DBC campus, Austin Avenue and Coggin Avenue)

Elliston-Cassle Wellness Center. This building opened in 1939 as Jacket Gym. Renamed for the families of James V. and Lavonne Elliston and James and Mickey Cassle, HPU renovated this on-campus gymnasium in 2001 to provide students, faculty and staff with a fitness facility containing a full line of exercise equipment, volleyball and intramural basketball court and walking/jogging track. This facility contains offices and classrooms used by the department of exercise and sport science. (Fisk Street)

English Building. Built circa 1915 and purchased by Howard Payne University in 1991, this building contains classrooms, a writing lab and faculty offices for the department of English. (Main Street and Whaley Street)

Greenhouse. Completed in 1999, this greenhouse is used as a lab by the department of biological sciences. (Center Avenue)

Guy D. Newman Hall of American Ideals. Named for former Howard Payne president Dr. Guy D. Newman and completed in 1974, this facility houses classrooms as well as faculty offices for the School of Education, the School of Business, and some of the School of Humanities. Some Douglas MacArthur Academy of Freedom classes and seminars are also held in Newman Hall. (DBC campus, Austin Avenue and Coggin Avenue)

Harrison House. Purchased and renovated in 1991, this building houses the Office of Institutional Advancement, which includes alumni relations, and development. Originally built in 1894, the building is named for the late Gilbert Harrison, a Brownwood civic leader. (Center Avenue)

The Hub at the Quinn House. Once the family residence of former Bible professor Dr. A.J. Quinn and his wife, Mrs. Berta Quinn, this renovated building has in recent years served as student housing and is now the home of the university's Davis-Thompson Baptist Student Ministry. (Center Avenue)

J. Howard Hodge Memorial Bell Towers. Dedicated in 1978 and named for Dr. J. Howard Hodge by his wife, Dr. Veda Hodge, the three towers represent the Trinity, each one encircled and connected by a walkway symbolizing the oneness of the Father, the Son and the Holy Spirit. The bell towers are used for university events including Chime Out and Homecoming festivities. (Center Avenue/Wilson Walkway)

Jennings Hall. Dedicated in 1963 and named for the family of Rev. Osborn Jennings, this building provides men's residential facilities on its four floors. Portions of the building were remodeled in 1995 creating several suites, a laundry room and a renovated lobby. (Center Avenue)

L.J. Mims Auditorium. HPU's main auditorium, built in 1922, is named for former Howard Payne president Dr. L.J. Mims and is the oldest building on the university's main campus. This HPU landmark hosts chapel services, concerts and recitals. The facility was the focus of a major renovation, completed in 2010. (Center Avenue/Wilson Walkway)

Lady Jacket Softball Park. This updated sports facility is home to the Lady Yellow Jackets softball team. (U.S. 377 and 9th Street)

Lynn and Mary Scott Nabers Tennis Center. Opened in 2000 for use by the HPU men's and women's tennis teams for practice and competition, this complex of lighted courts is located on the west end of campus. (Fisk Avenue and 2nd Street)

Mabee University Center. Dedicated in 1993, a matching grant from the J.E. and L.E. Mabee Foundation, Inc. made construction possible for this student center. Housed in the 40,000-square-foot facility are the student life offices, student bookstore, campus post office, recreation and study areas, as well as the dining area, banquet facilities, and Fambrough's grill. (Between Fisk Street and Center Avenue at Lipscomb Street)

Mamie D. McCullough Athletic Center. Built in 1994 and named for Dr. Mamie D. McCullough, this facility was constructed to provide facilities for student athletics including fitness and weight rooms, training equipment and offices for the coaching staff. (2nd Street and Hawkins Street)

Muse Plaza and Mall. Dedicated in 2001 and named for McGillivray Muse by his wife, Leona Muse, the plaza features a bronze statue of the servant Christ and a seating area. The mall extends through the center of the main campus, creating a park-like student corridor with tree-lined sidewalks and an antique-styled clock. (Between Fisk Street and Center Avenue/Wilson Walkway)

Old Main Park. Old Main Park is used for many university events. This was the site of the first building on the Howard Payne campus, Old Main, erected in 1890. Over the years the building was used for classes, chapel, the library, and several administrative offices. It was destroyed by fire in 1984. Also located in Old Main Park is the "H" Pond, another cherished HPU landmark. (Austin Avenue and Center Avenue)

Old Main Tower. Old Main Tower provides an opportunity for current students to gain a better understanding of the university's heritage. The tower, which incorporates stone from Old Main and is modeled after the legendary building's front entrance, is surrounded by a plaza featuring bricks engraved with names and class years of alumni. The tower was made possible by the late Tom and Evelyn Linebery and The Scarborough-Linebery Foundation. (Fisk Street and Center Avenue/Wilson Walkway)

Campus Information

Outdoor Recreation Complex. Opened in 2005, this complex provides students an opportunity to participate in healthful physical activities; such as in-line skating, skateboarding and wall climbing. (Fisk Street and Austin Avenue)

Packer Administration Building. Opened in 1984, this building is used for administrative offices including those of the president, academic affairs, financial aid, the registrar, the business office, university marketing and communications, and others. The building is named for siblings Rev. Ruben Packer and Miss Mary Lou Packer. (Fisk Street)

Paul and Jane Meyer Faith and Life Leadership Center. Named in recognition of the Paul and Jane Meyer Family Foundation of Waco, this facility serves as the location for a variety of special seminars and workshops, as well as the School of Christian Studies' classrooms and faculty offices. Other major components include Grace Chapel (named for Dr. E. Grace Pilot), the Richard and Wanda Jackson Conference Room, and more. Dedicated in 2010, the Paul and Jane Meyer Faith and Life Leadership Center was the result of a major renovation of HPU's Bible building and the university chapel. (Center Avenue/Wilson Walkway)

Physical Plant. Built in 2001, this facility is the control center for the central power plant, which provides climate-controlled heating and air conditioning for several buildings on the main campus. The central power plant was made possible through donations from the late Tom and Evelyn Linebery and The Scarborough-Linebery Foundation. (Fisk Street)

Smith Bell Student Duplexes. Named for the late Smith Bell, a longtime Brownwood civic leader, these eight duplex apartments are residences for junior and senior students. (Center Avenue and Lipscomb Street)

Student Apartments. Built in 1996 and 1999, these three buildings each contain eight two-bedroom apartment units for junior- and senior-level students. Each apartment unit houses up to four students. (Fisk Street)

Student Lab Center. This building houses the computer lab and offices for the student newspaper and yearbook staffs.

Thomas Taylor Hall. Named for former Howard Payne president Dr. Thomas Taylor, this men's residence hall was opened in 1947. After several upgrades through the years, the building was remodeled in 1998 to create several suites, a laundry room and a renovated lobby. (Fisk Street)

Thompson Academic Complex. This 16,072 square-foot classroom building, named for Dr. James Cleo Sr. and Mrs. Christine Chandler Thompson and completed in 1996, contains classrooms, offices, computer labs and a language lab. This complex is also the home for the **John and Shirley Weidner Learning Enhancement Center.** (Between Clark Street and Main Street)

Veda Hodge Hall. Built in 1955, this women's residence hall was named for Dr. Veda Hodge, former chair of the HPU Board of Trustees. Renovations in 1995 provided several new suites, laundry facilities and a remodeled lobby. This facility also includes the campus nurse's office, the Student Government Association office and the Eva Ramey guest suite. (Center Avenue/Wilson Walkway)

Campus Information

Walker House. Named for John Allen and Elizabeth Peacock Walker, the house was built in 1925, as the residence of the Walkers. John Walker was a long-time member of the HPU Board of Trustees and owner of the Walker Grocery Warehouse. The university purchased the building in 1988 as the president's residence. (Center Avenue)

Walker Memorial Library. Named for John Allen and Elizabeth Peacock Walker, this historic facility opened in 1952. Containing more than 100,000 volumes of printed and electronic books, documents, periodicals and audiovisual materials, the library also features the Heart of Texas Children's Literature Review Center, the Al Tucker Historical Research Room, an electronic classroom, the Grove Music Library and the Burress Genealogy Library. (Fisk Street)

Wilson Gate and Walkway. Dedicated in 2001 and named for Walter C. and Debra Wilson, the gates and landscaped walkway formally completed the closing of Center Avenue through the campus. This area, complete with benches made of stone from Old Main, is a popular gathering place for students. (Center Avenue/Wilson Walkway)

Winebrenner Memorial Hall of Science. This building, dedicated in 1962, contains classrooms, labs and offices for the School of Science and Mathematics as well as the department of computer information systems. This facility is named for Dr. O.E. Winebrenner, former science department head. (Center Avenue/Wilson Walkway)

The Family Educational Rights and Privacy Act RIGHT OF STUDENT PRIVACY (FERPA)

In accordance with Public Law 93-380, Education Amendments of 1964, offices in which student records are maintained are: Registrar, Student Life, Financial Aid, Health Services, Career Services, Business Office, and Admissions.

Notification of Rights under FERPA

The Family Educational Rights and Privacy Act (FERPA) affords students certain rights with respect to their education records. These rights include:

- The right to inspect and review the student's education records within 45 days of the day the University receives a request for access. Students should submit to the registrar, dean, head of the academic department, or other appropriate official, a written request that identifies the record(s) they wish to inspect. The University official will make arrangements for access and notify the student of the time and place where the records may be inspected. If the records are not maintained by the University official to whom the request was submitted, that official shall advise the student of the correct official to whom the request should be addressed.
- The right to request the amendment of the student's education records that the student believes is inaccurate, misleading, or otherwise in violation of the student's privacy rights under FERPA. Students may ask the University to amend a record that they believe is inaccurate or misleading. A student who wishes to ask the University to amend a record should write the University official responsible for the record, clearly identify the part of the record the student wants changed, and specify why it should be changed. If the University decides not to amend the record as requested, the University will notify the student in writing of the decision and advise the student of his or her right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the student when notified of the right to a hearing.
- The right to provide written consent before the University discloses personally identifiable information from the student's education records, except to the extent that FERPA authorizes disclosure without consent.

One exception, which permits disclosure without consent, is disclosure to school officials with legitimate educational interests. A school official is defined as a person employed by the University in an administrative, supervisory, academic or research, or support staff position (including law enforcement unit personnel and health staff); a person or company with whom the University has contracted as its agent to provide a service instead of using University employees or officials (such as an attorney, auditor, or collection agent); a person serving on the Board of Trustees; or a student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks. A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibilities for the University.

Upon request, the University may also disclose education records without consent to officials of another school in which a student seeks or intends to enroll. [Note: FERPA

requires an institution to make a reasonable attempt to notify each student of these disclosures unless the institution states in its annual notification that it intends to forward records on request.] The University may release records without consent, to parents of dependent students (IRS definition); to comply with a judicial order or lawfully issued subpoena; for a health / safety emergency.

- The right to file a complaint with the U.S. Department of Education concerning alleged failures by the University to comply with the requirements of FERPA. The name and address of the office that administers FERPA is:

Family Policy Compliance Office
U.S. Department of Education
400 Maryland Avenue, S.W.
Washington, D.C. 20202-5920

Disclosure of Directory Information

At its discretion, Howard Payne University may provide "directory information" in accordance with the provisions of the Family Education Rights and Privacy Act of 1974 (FERPA). Directory information is defined as that information which would not generally be considered harmful or an invasion of privacy if disclosed. Designated directory information at Howard Payne University includes the following: name, address (local and home), telephone number, parent's or guardian's name, spouse's name, marital status, dates of attendance, classification, previous institution(s) attended, degrees conferred (including dates), past and present participation in officially recognized sports and activities, physical factors (height, weight for athletics), date and place of birth. Student's may block the public disclosure of directory information (all or in part) by notifying the Office of the Registrar in writing prior to the 8th class day of a fall or spring semester, or the 4th class day of a summer term. Forms for this purpose are available at Registrar's Office on the second floor of the Packer Administration Building.

Students should consider very carefully the consequences of a decision to withhold directory information. A non-disclosure block will call for Howard Payne University not to release any or all of this "directory information;" thus, any future request for such information from non-institutional persons or organizations will be refused.

Howard Payne University will honor a student's request to withhold directory information but cannot assume responsibility to contact you for subsequent permission to release this information. Regardless of the effect upon the student, Howard Payne University assumes no liability as a result of honoring the student's instruction that such information be withheld.

Although the initial request may be filed at any time, requests for non-disclosure will be honored by the University until removed, in writing, by the student.

The University will, when legally permitted, make a reasonable effort to notify the student of a court order or subpoena before the University will act to comply with those who request or order the production of confidential information.

VETERAN'S EDUCATION BENEFIT PROGRAM

Students eligible for educational benefits from the Veteran's Administration may contact the VA Certifying Official in the Office of the Registrar, Packer Administration Building - Room 209 or at 325-649-8011. Howard Payne University's programs are approved for those who wish to attend and receive benefits under Chapter 30 - Montgomery G.I. Bill - Active Duty, Chapter 31 - Vocational Rehabilitation and Employment, Chapter 33 - Post 9/11 G.I. Bill, Chapter 35 - Survivors/Dependents Education Benefits, Chapter 1606 - Montgomery G.I. Bill - Selected Reserve, and Chapter 1607 - Reserve Education Assistance Program.

Veterans applying for admission to HPU follow the same procedures as other applicants, but they should also contact, as early as possible, the VA Certifying Official in the Registrar's Office to expedite handling of VA forms needed to qualify for benefits.

Official Degree Audit

In order to receive VA benefits, recipients of VA educational benefits must choose a degree and major in addition to submitting an official degree audit, signed and dated by the student, their advisor, department head of their chosen major, and the dean of the school of their major. The official degree audit must be on file in the Office of the Registrar before certification of their initial semester of enrollment. The degree audit is used by the university to track the progress of VA educational benefit recipients toward their stated degree. All changes to the degree audit must be officially approved and documented. No payments may be authorized for courses that do not appear on the degree audit. When required coursework for their degree objective is complete, students may no longer receive payments for the degree objective.

Credit for Prior Training

Howard Payne University is required to provide college credit for any prior college hours earned by the student if they apply to their current program. It is the responsibility of the student who has attended another college or university to request official transcripts be sent from each school attended to HPU. The official transcripts must be evaluated and the transfer credit posted to the student's current degree audit. If a student's enrollment is certified before the evaluation is complete and payment is received for courses that transfer to HPU, the VA will determine that an overpayment has been received. It is the student's responsibility to repay the VA the overpaid amount. It is also the student's responsibility to notify the Office of the Registrar if they are repeating a course that may have transferred to HPU. All new veteran students must furnish a copy of their DD214.

Credit for Military Experience

Students may receive credit for successful completion of college-level military service schools if they have been evaluated by the American Council on Education (ACE). HPU will accept credit recommendations made by ACE as specified in The Guide to the Evaluation of Educational Experiences in the Armed Services. Additionally, military transcript, which must be submitted, may be requested through the following sources:

Army (AARTS) - <http://aarts.army.mil>;

Navy and Marines (SMART) - <http://smart.navy.mil/smart/welcome.do>;

Air Force (CCAF) - <http://www.maxwell.af.mil/au/ccaf/transcripts.asp>.

Certification of Enrollment

A VA student may not receive payment for courses previously completed, for courses that are in excess of degree requirements, for courses **not REQUIRED** for the student's approved degree, course repeats in which a grade of "D" or better was earned, unless a higher grade is required for a particular course of study (example, a "C" required for all courses in a major), or courses from which the student withdraws without mitigating circumstances. The fact that a "D" will not transfer to an upper-level school is **NOT** a consideration. Written justification for developmental courses required by HPU must be included in the student's file.

The enrollment of students receiving VA Education Benefits will be certified when their registration is "finalized" unless the courses were completed in the previous semester. Howard Payne University does not participate in "Advance Payment". Benefits take 4 to 8 weeks after the certification has been submitted to begin arriving at the student's home or banking institution.

Students must notify the certifying official in the Office of the Registrar of any changes in their status caused by their failure to enroll, any increase or decrease in their training time, or if they stop attending class.

Progress Policy Guidelines

The academic standards for a student who is receiving VA educational benefits will be governed by the Academic Probation and Suspension policy for all students as stated in this catalog. Students who fail to make satisfactory progress, who are placed on academic suspension, or whose cumulative grade point average does not meet the required level for two consecutive semesters will be reported to the Veterans Affairs Regional Office.

Tutorial Assistance

Tutoring is provided at no cost to students through The Collegium which is a campus resource that provides a variety of academic and personal growth support services to all students using methods such as content tutoring, workshops, personal and career assessments, and academic advising.

The Hazlewood Act - What is it?

The Hazlewood Act provides qualified veterans, spouses, and children with an education benefit of up to 150 hours of *tuition and fee exemptions at state supported colleges or universities. The awards are available only for use at a Texas public college or university.*

Note: The schools listed under Independent Institutions do NOT qualify for this exemption.

Howard Payne University is a private institution - independent institution; therefore, Hazlewood Act benefits are not available to students enrolled at HPU.

CAMPUSCONNECT®

CampusConnect is a web-enabled interface to the Howard Payne University student records system. This interface offers access to a number of information services. The CampusConnect Student Information System allows students to access a portion of their academic record. The system allows you to perform the following tasks online:

- Check Student Account Status - Allows a student to view their financial account status
- Current Class Schedule - Allows a student to view and print their current course schedule.
- Course Availability - Allows a student to view a list of offered courses for a specific department and semester to determine if there are open seats available
- Financial Aid Information - Allows a student to view and print their current Financial Aid information
- Unofficial Transcripts - Allows a student to view and print a copy of their unofficial transcript
- Degree Audits - Allows a student to view and print their degree audit. The degree audit allows a student to track their progress toward their chosen degree and major.
- Demographic Information - Allows a student to view their personal demographic information: name, address, classification, and major. Incorrect information should be reported to the Registrar's Office.

To Print Any of the Items Noted, Student's Should Use the Grayed Out Printer on the Menu Bar.

Getting Started on CampusConnect

To enter CampusConnect, go to HPU's website at www.hputx.edu. Scroll down the page, click on "CampusConnect/Campus Resources", and select the "Student Login" button. CampusConnect is available to current students as well as alumni enrolled 1990 forward.

For their initial Student log-in, students may use their Social Security Number as their Student ID (SID). For all subsequent login-ins, the assigned Student ID (SID) should be used. The SID is found on the blue bar at the top of each CampusConnect page, along with the student's name, address, and other demographic information.

Secure Your Records-Change Your PIN

After a student's initial entry into CampusConnect, the original default PIN number should be changed to ensure the privacy of their academic records, as protected under the Family Educational Rights and Privacy Act (FERPA). To make the change, the Change PIN option under Student Information should be selected. The PIN must be numeric and cannot exceed 8 digits. Students should record their PIN in a secure location. Once a student has changed their PIN, it is their responsibility to keep up with the number PIN.

CampusConnect Holds

If there is a "hold" on a student's records such as a past due student account or other uncompleted business, they may be prevented from viewing their grades and could be prevented from scheduling classes. Contact the office indicated by the hold to determine what action is

Appendix - CAMPUSCONNECT

needed to clear the "hold." Some holds are information only and will not stop a student from accessing their record. In this case, the student should "**acknowledge**" the hold which should then allow access to the desired information.

Additional Information

Once a student has entered *CampusConnect*, their session will terminate after being idle for 10 minutes. It is the student's responsibility to protect their access to *CampusConnect*. Students should take care not to reveal information that would help someone access their Student ID (SID) or Personal Identification Number (PIN).

TEXAS COMMON COURSE NUMBERING SYSTEM

The Texas Common Course Numbering System (TCCNS) is a voluntary, co-operative effort among Texas community colleges and universities to facilitate transfer of freshman- and sophomore-level general academic coursework. Through SPEEDE, a technology used in administrative areas of education, student academic records may be moved electronically between colleges and universities. Howard Payne has the ability to send and receive electronic transcripts.

The TCCNS provides a shared, uniform set of course designations for students and their advisors to use in determining both course equivalency and degree applicability of transfer credit on a statewide basis. When students transfer between two participating TCCNS institutions, a course taken at the sending institution transfers as the course carrying, or cross-referenced with, the same TCCNS designation at the receiving institution.

The Texas Common Course Numbering System (TCCNS) is a set of four-character abbreviations for academic disciplines and four-digit course numbers. The first digit of the number reflects the academic level of the course (1 for freshman, 2 for sophomore, etc.) and the second digit reflects the semester-credit-hour value of the course. Howard Payne University courses and their TCCNS equivalent are identified within each discipline by following Howard Payne's course number with the TCCNS number in parenthesis. Many other courses taken at a regionally accredited junior college may be accepted on individual approval by the appropriate department.

The university cannot guarantee the continued accuracy of these equivalencies if the content is revised or if a junior college assigns a TCCNS number to a course that the university considers substantially different in content from courses carrying the same designation at other participating junior colleges.

GLOSSARY

ACADEMIC DEAN

An academic dean is the head of a school within the university. At Howard Payne there are six school deans, Business, Christian Studies, Education, Humanities, Music and Fine Arts, and Science and Mathematics, and the dean of Advising and General Education. The dean reports to the university's chief academic officer and is responsible for academic decisions in his/her program.

ACADEMIC PROBATION

Probation is a warning period. Students are placed on academic probation at the end of any semester that their cumulative GPA (grade point average) does not meet the published level for their classification. The Academic Information section of the catalog contains these levels in relation to semester hours attempted. Academic probation is only imposed **after** a student has attempted a minimum of twelve semester hours.

ACADEMIC SUSPENSION

Students are suspended (not allowed to attend the university) for one long semester following failure to raise GPA to posted levels and to be removed from academic probation. In other words, grades must go up acceptably during the probation semester to avoid suspension.

Students academically suspended may enroll in summer school at Howard Payne or another college/university, and have their transfer work accepted. However, if academically suspended students enroll at another university during the next long semester, their transfer work will not be accepted.

If students fail all academic courses in a semester, excluding skills courses such as exercise and sports science, private applied music lessons, etc., they will be immediately suspended for one long semester.

Students may apply for readmission after the period of suspension has been completed. If readmitted, students must improve the cumulative GPA sufficiently that they are not on probation...or the process begins again.

ACADEMIC YEAR

Howard Payne University defines an academic year as consisting of two long semesters (Fall and Spring) with a full-time undergraduate student required to enroll in and complete a minimum of 12 credit hours per semester for a total of no less than 24 credit hours over 30 weeks (15 weeks per long semester). HPU offers three summer terms (May-Term, Summer I, and Summer II). A full-time undergraduate student in a summer terms must enroll in no less than 6 credit hours. The academic year begins on June 1 (Summer I) and ends on May 31 (May-Term). This definition will apply to all eligible programs, including graduate programs, and will be used when administering all Title IV financial aid programs.

Appendix - Glossary

ACADEMY OF FREEDOM

The Academy of Freedom is a multidisciplinary honors program that seeks to provide students with a broad-based liberal arts education which emphasizes Christian values, American tradition and free enterprise as an economic philosophy. The Academy prepares students to read critically, think analytically and communicate ideas effectively.

The Academy program is designed for academically gifted students who aspire to leadership roles in a variety of careers. With its emphasis upon the American way of life, the meaning and significance of American values are explored in depth. Current issues are analyzed in the context of the various disciplines of the School of Humanities and related academic areas of the university.

ACT/SAT CREDIT

If their entrance exam scores fall within the university's set requirements, beginning freshmen are awarded academic credit during their first semester at Howard Payne. Credit may be granted for introductory courses in English, math, reading, verbal skills, and/or science reasoning. This credit opportunity is only available to first-semester freshmen at Howard Payne; transfer students from other schools are not eligible. See "Earned Credit by Examination" in the Academic Information section of the catalog.

ADD/DROP

Students may add and/or drop classes from their schedules after the close of registration on the first day of each semester until the official close of registration (7-8 days into a semester). At any time, charges are assessed for each change. Changes made during the add/drop period do not reflect on students' transcripts. After the add/drop period, students may withdraw from classes with either a WP (withdraw passing) or WF (withdraw failing); these withdrawals do appear on transcripts.

ADVISOR

Students are assigned academic advisors from the ranks of full-time instructors in their chosen fields of study. These advisors help students plan their academic schedules, complete their degree audits, help with academic difficulties, and aid their student advisees until graduation. An advisor's office should be a student's first stop for any academic advice or problem solving.

AP CREDIT

Advanced Placement (AP) classes are offered in many Texas high schools. Students who score well on the end of course AP tests as high school seniors may be granted college credit in introductory level courses. Acceptable scores vary from test to test and university to university.

ASSOCIATE DEGREE

An associate's degree is the informal name for a two-year college degree. At Howard Payne University, associate's degrees include ASSOCIATE IN HEALTH SCIENCE and ASSOCIATE IN MINISTRY.

AUDITING

Students desiring to learn from a course without receiving academic credit may audit a class, if space is available. No credit or grade is given. The instructor determines the amount of participation required, and is not required to review student work. The decision to audit a course must be done at registration time and cannot be changed after the registration period.

NOTE: **Applied music classes (private lessons) may not be audited.**

ATTENDANCE POLICY

There is no system of free absences at Howard Payne University. **Students are expected and urged to attend all class sessions.** Students must attend a minimum of 75% of class sessions to receive credit for a course. Absences are counted from the first day class meets, not from the day a student registers. Excessive absences result in an automatic "F" for the class, even though class work may show that students are passing. All absences, excused or unexcused, count as absences. Work for an excused absence may be made up, but the absence still counts. **Each instructor may establish a more stringent absence policy if it is outlined in the course syllabus.**

ONLINE ATTENDANCE

Initial Online Course Participation - In order to meet this requirement, Howard Payne University requires that all instructors report *by the eighth class day (official census day) of Fall and Spring classes* and by the *second day (official census day) of Summer classes* the participation (= attendance) of each student. Class participation or class attendance can be based on participation in a discussion board; finding, reading and taking a quiz based on the syllabus of the course; on having submitted an assignment, or having taken a quiz.

Online Course Attendance Policy - Online courses follow the University's attendance policy. Professors count attendance based on submission of assignments by specific due dates, by discussion board participation, or other academic-related activities (quiz, homework, sign-in sheet, etc.). Additional attendance monitors include logging on to a course on a regular basis (a minimum of once a week) and completing assignments on time. Deadlines for submitting assignments are treated like attendance in regular classes. A student's failure to complete a task will be considered an absence and will be treated in accord with University policies.

BACHELOR'S DEGREE

A bachelor's degree is the informal name for a four-year college degree. At Howard Payne University, bachelor's degrees include BACHELOR OF ARTS (BA), BACHELOR OF SCIENCE (BS), BACHELOR OF BUSINESS ADMINISTRATION (BBA), BACHELOR OF MUSIC (BM), and BACHELOR OF APPLIED ARTS AND SCIENCES (BAAS).

CLASSIFICATION

The word "classification" expresses students' academic level or class. First-year students are freshmen; second-year students are sophomores, and so on informally. But actual classification is determined by number of credit hours earned: 0-29 is freshman, 30-59 is sophomore, 60-89 is junior, and 90+ is senior.

Appendix - Glossary

CLEP (COLLEGE LEVEL EXAMINATION PROGRAM)

Students may earn credit hours through examination. CLEP tests are administered in a variety of courses by HPU's Office of Academic Testing. Students must score the equivalent of "C" or better to be granted credit. CLEP examinations may not be taken when students have already registered for a course. Further reference: "Earned Credit by Examination" in the Academic Information section of the catalog.

CO-CURRICULAR ACTIVITIES

Activities in which participation is required by enrollment in a course that counts toward graduation requirements.

COLLEGE/SCHOOL

A major division of the university is called a "college" or a "school." Each college or school is headed by a dean, and may be subdivided into departments with department heads.

COMPREHENSIVE

"Comprehensive" is a term generally referring to an exam that will cover all material taught during a semester.

CONCURRENT ENROLLMENT

Students enrolled both at Howard Payne and at another college during the same semester are "concurrently enrolled." Only students with individual hardship situations are allowed such enrollment. Permission must be obtained from the academic advisor, from the appropriate academic dean, and from the provost. Permission forms are available from the registrar. Concurrent enrollment includes distance learning and/or in-residence coursework taken for credit at another college or university while enrolled at Howard Payne University.

COURSE NUMBERING

Courses at Howard Payne University have four-digit numbers. The first number is the level of the course: 1 and 2 are lower division, and 3 and 4 are upper division. The second number indicates the hours of credit the course receives. The third and fourth numbers distinguish the course within a department.

All courses passed, including those with "D" grades, are included in the cumulative total number of hours attempted and earned.

COURSE SEQUENCE

Some courses must be taken in a specific order since each serves as a prerequisite for the next course in line. Students should begin any sequence of courses early enough in their academic careers to ensure the timely completion of those sequences.

CREDIT OR SEMESTER HOUR

The semester (or credit) hour is the standard unit of measurement for university-level course work. One hour credit is equal to fifty minutes per week per semester. Thus, the usual three-hour credit course is based on meeting 50 minutes per session, three times each week (often Monday, Wednesday, and Friday) or 75 minutes per session, two times each week (often Tuesday and Thursday) for a semester.

DEGREE AUDIT

A degree audit spells out the individual course requirements for each student to complete his/her degree. Degree audits must be filed when students have completed 60 credit hours. Students request a degree audit (an automated degree audit) in the Registrar's Office. Although a degree audit is required when a student has completed 60 credit hours, students may request a degree audit at any time after their enrollment begins.

DEGREE REQUIREMENTS

See "Specific Requirements for Degrees" in the Academic Information section of the catalog.

DEPARTMENTAL CHALLENGE TESTS

In areas of study where the CLEP test is unavailable, students may request a departmental challenge test. The material for the test in each course and the appropriate passing grade will be determined by each department. See also "Earned Credit by Examination" in the Academic Information section of the catalog.

DROPPING A COURSE

Students may withdraw from a class at any time during the semester up to (but not including) final exam week. Students fill out a withdrawal card in the registrar's office. A withdrawal grade request is sent to the instructor for a grade of WP (Withdraw Passing) or WF (Withdraw Failing).

A grade of WP does not affect grade point average. A WF, however, carries the same value as an "F" grade. If students have already failed courses because of absences, grades of WP and WF do not apply; the "F" grade will be applied.

In summer school, students may withdraw until five days prior to the final exam. A WP or WF will be recorded, just as in the long semester.

DUAL COUNTING OF COURSES

Courses taken to fulfill general education requirements may be used to satisfy requirements for a major or minor. When courses are used to fulfill two requirements, the hours **may not** be counted twice; therefore, additional hours must be planned to bring the total to the 128 hours needed to graduate.

ELECTIVES

Courses not specifically required for general education, majors, or minors are called electives. Students select electives that interest them with the help of their advisors. Elective courses help complete the total number of hours in a degree.

EXTRA-CURRICULAR ACTIVITIES

Activities and clubs beyond formal academic courses are called extra-curricular.

FINANCIAL AID PROBATION

Financial aid probation is a status assigned to a student who fails to make satisfactory progress and who has appealed and has had eligibility for aid reinstated. At the end of the payment period for which the student was on probation, the student must be making satisfactory progress or be successfully following an academic plan.

Appendix - Glossary

FINANCIAL AID SUSPENSION

If the student is not making satisfactory progress at the end of the semester following the "warning" the student will be placed on Financial Aid Suspension. The student may also be placed on suspension if the student has failed all classes (except skill classes) in a semester or if the student is placed on Academic Suspension.

FOREIGN LANGUAGE REQUIREMENT

Twelve hours of foreign language are required for the Bachelor of Arts degree and four hours of foreign language are required for the Bachelor of Science degree. The twelve hours of foreign language must be completed in one language. Biblical Languages, French, and Spanish are offered by HPU. Sign Language, completed at an accredited institution, is approved as a foreign language under the Bachelor of Arts and Bachelor of Science degrees.

FREQUENCY

Classes are offered on a rotating basis, some every semester, some once a year, and some less frequently. Rotation in the catalog appears at the end of a course description and may look like this: FALL, EVEN YEARS. Students should pay careful attention in making degree audits so that all necessary courses will be offered before they plan to graduate.

GPA

GPA is the abbreviation for "grade point average." Each "A" is worth 4 grade points, each "B" is 3, "C" is 2, and "D" is 1. Total points are added together and divided by the number of hours attempted to compute a cumulative grade point average.

GENERAL EDUCATION REQUIREMENTS

All students must take a core of courses called general education requirements. This core is a broad range of courses in many disciplines that gives students a sound liberal arts background, regardless of their majors. Lists of these required courses appear in the Academic Information section of the catalog.

HONORS

See "Academy of Freedom"

HOUR

See "Credit or Semester Hour"

HUMAN MOVEMENT STUDIES

Studies where knowledge of and psychomotor skill development in human movement is essential for success in a particular discipline or area of study. Human movement studies cross the spectrum of professional work and include those areas of study that may prepare the student physically for careers in such diverse areas as physical education, sports and athletics, dance, recreation, health, emergency or disaster response, police, firefighting, and military work.

INTERNSHIPS

An internship is supervised practical experience that earns academic credit. For example, a business internship is an approved training experience in an occupational setting that includes specific learning objectives coordinated between an employer and a faculty member.

LAB/LAB FEE

Labs, regardless of discipline, are hands-on experiences supervised by an instructor. Time spent in a lab class is usually in addition to time spent in lecture. Typically, there is a special fee charged for particular labs.

LAST DATE OF ATTENDANCE

The last date of attendance, as verified by the instructor of a course, is a student's last attendance at an "academically related activity" such as an exam or quiz, tutorial, computer-assisted instruction, academic advising or counseling, academic conference, completion of an academic assignment, paper or project; or attendance at a required study group.

LIBERAL ARTS

A course of study intended to provide broad, general knowledge that helps develop the intellectual capacity of an individual.

LIBERAL ARTS STUDIES

Students in the early part of their college careers who are undecided on majors are assigned to liberal arts studies, where advisors will help them plan their academic goals and schedules.

LOWER DIVISION / LOWER-LEVEL

Courses numbered 1000 or 2000 are generally referred to as "lower-division" courses. Often, lower-division courses in a field are prerequisites for upper-division courses.

MAJOR

A subject or academic field chosen as a primary field of study is a major. Some majors have concentrations or specializations within a major field. Majors can be interdisciplinary. Students may add any number of majors to degree audits as long as all requirements for each major are met.

MINOR

A secondary field of study within a single department is called a minor. Minors usually range from 18 to 24 credit hours. Traditional minors are noted on a student's transcript along with the major.

MINOR AREA

Minor areas are interdisciplinary groupings of courses that augment or complement the major field of study. As with traditional minors, minor areas require 18-24 credit hours. Students choose these courses in consultation with their advisors. Minor areas **are not noted** on a student's transcript.

NON-TRADITIONAL STUDENTS

The Admissions Office uses the following definitions for classification and reporting purposes and are intended to assist the admissions staff in determining the profile of new HPU students. BNT (Beginning Freshman, Non-Traditional Student) is used to classify those students who have been out of high school for at least one year and have no college or university experience/hours. Students in this category may have a GED and may be 19 years of age or older. TNT (Transfer, Non-Traditional Student) is used to classify those students who have enrolled previously at other colleges or universities but are transferring less than twelve semester hours to HPU. Students in this category may be 18 years of age or older.

Appendix - Glossary

PASS/FAIL GRADING OPTION

Students may elect to have some courses graded Pass or Fail rather than the traditional letter grade. The option may be exercised for elective courses and for up to six hours of major or minor courses (if the course description permits). General education courses may not be taken pass/fail, nor can classes be repeated pass/fail when they have already been taken for a grade. Once chosen, the decision to take a class pass/fail may not be changed.

PLAGIARISM

Plagiarism is any failure, intentional or not, to acknowledge adequately the original source's words or ideas. Even summaries require correct footnotes and citations.

PREREQUISITE

A “prerequisite” course is a course that must be completed prior to enrolling in the next higher level course in a sequence. Course descriptions in the catalog indicate if a prerequisite is required, and provide the course number for the prerequisite. In some instances, the prerequisite course must be completed with a specific grade; such as a grade of “C” or better. If the prerequisite course grade does not meet the required level, it must be repeated. The appropriate grade must be attained prior to enrolling in the next higher level course.

REFUND POLICY

When students officially withdraw from the university or officially withdraw from a course prior to the end of the fourth week of the semester, tuition refunds will be considered by the administration. For information about amounts and procedures, students should read the Financial Information section of the catalog.

REPEATED COURSES

Grades from earlier attempts at a class appear on students' transcripts. Only the best grade, however, will be used to compute the cumulative grade point average. A course repeated at another institution must be at the same level and be approved by that course's department head before students take the course.

SAT/ACT CREDIT

See "ACT/SAT Credit"

SPECIAL STUDIES

Academic departments may offer special studies courses for independent or group study. These courses are assigned department designations, course numbers, and prerequisites by the appropriate school dean. **No more than six credit hours of special studies may be taken in a major, and no more than twelve hours of special studies may be applied to a bachelor's degree.**

STUDENT TEACHING

One semester of supervised teaching experience in a public school classroom is required for students seeking teacher certification.

SYLLABUS

Course instructors usually provide a written description of a course and its requirements at the beginning of a semester.

TRANSFER WORK

Transfer courses are those courses taken at another accredited university and then transferred to Howard Payne to complete degree requirements. Transfer students must provide official transcripts from each university they have attended. The HPU registrar will evaluate these transcripts and assess HPU credit for those classes. Students should keep copies of these evaluation forms to use in writing their degree audits. Upper-division courses must have grades of "C" or better to be fully transferred. Upper-division courses with grades below "C" are accepted and computed in grade point averages, but are not accepted to meet degree requirements.

UPPER DIVISION / UPPER-LEVEL

Courses numbered 3000 to 4000 are generally referred to as “upper-division” courses.

VOCATIONAL / TECHNICAL COURSES (WECM - Workforce Education Courses)

Courses taught through vocational education or vocational education and training prepare trainees for jobs that are based on manual or practical activities, traditionally non-academic, and totally related to a specific trade, occupation, or vocation. It is sometimes referred to as technical education as the trainee directly develops expertise in a particular group of techniques or technology. A vocational school (or trade school or career school) is a school in which students are taught the skills needed to perform a particular job. Vocational schools and/or vocational programs have not existed to further education in the sense of liberal arts (a curriculum that imparts general knowledge and develops the student's rational thought and intellectual capabilities), but rather to teach job-specific skills.

WITHDRAWAL FROM THE UNIVERSITY

Students who find it necessary to withdraw from the university during a semester should complete or arrange for official withdrawal forms. Failure to complete this official withdrawal procedure results in grades of "F" for all courses. Such failure can result in academic suspension and can block continuing college work. Refunds (see Financial Information in the catalog) are possible only when official withdrawal is complete.
