

Information for Staff:

I am not a member of the faculty, but I work closely with students on campus as a staff member. Can I submit a referral for a student?

Yes. If you are a member of the HPU staff**, you may submit a referral form for a student. Please follow the guidelines given for faculty. We will contact you with follow-up as needed. Also, when you submit the form, please let us know how you know the student (i.e., on-campus work supervisor, they are in the student group your sponsor, Residence Director, etc.). That information will help us in the interview process with the student. If you do not want the student to know who made the referral, please note that on the form and we will not release your name to the student.

***This does not include student workers. If you are a student worker and see a fellow student in crisis, please report this problem, confidentially, to your department supervisor.*
