Starting from the desktop ...

1. Left-click on the wireless network connection icon

2. Left-click on the network name “jackets”

3. Make sure “Connect automatically” is checked and then left-click on “Connect”

4. Enter your campus username and password and left-click on “OK”

5. Left-click on “Connect”

6. You should now be connected

Windows 8

If you need any assistance connecting your laptop to the wireless network, please bring it to IT Services (Packer 203/204)
