1. Right click the wireless icon in the system tray and select View Available wireless Networks.

2. Click Change advanced settings.

3. Click Wireless Networks

4. Click Add

5. Type Network name jackets, select WPA2 and AES. (If WPA2 isn’t on the list please bring your computer to Packer 203).

6. Click Authentication

7. Select PEAP and click Properties

8. Uncheck Validate server certificate.

9. Confirm MSCHAP v2 and click configure.

10. Uncheck Automatically use my Windows logon name and click OK 4 times.

11. Click the wireless icon in your system tray. (If a Wireless Connection Status window appears, click close or move it out of the way).

12. Type in your campus username and password, Domain HPUTX, then click OK.

If you need assistance connecting your laptop to wireless please bring it to IT Services in Packer 203.
